Re: Application of Gulf Oil Corporation for
Approval of a Non-Standard 80-Acre Gas
Proration Unit, Blinebry Gas Pool, Lea
County, New Mexico

Gentlemen:

In compliance with Rule 30, Order No. R-1670 which prohibits the simultaneous dedication of acreage to an oil and to a gas well, Gulf Oil Corporation respectfully requests exception to Rule 5(a) of Order No. R-1670, for the approval of a non-standard 80-acre Blinebry Gas proration unit, covering the W/2 NE/4 of Section 28, Township 21 South, Range 37 East, Lea County, New Mexico.

In support of this application, the following facts are submitted:

- (1) Gulf's Eunice King Well No. 9, located 1874 feet from the north and east lines of Section 28, is completed in the Blinebry Gas Pool, and is assigned a non-standard 120-acre gas proration unit covering the W/2 NE/4 and NE/4 NE/4, by Administrative Order NSP-571, dated September 18, 1961.
- (2) Gulf's Eunice King Well No. 13, located 554 feet from the north and east lines of this Section 28, is being dually completed in the Blinebry Oil and Tubb Gas Pools.
- (3) The proposed non-standard gas proration unit consists of contiguous quarter-quarter sections and lies wholly within a single governmental quarter section.
- (4) The entire non-standard proration unit is reasonably presumed to be gas productive in the Blinebry Gas Pool.
- (5) The length or width does not exceed 2640 feet.
- (6) Gulf owns all the leasehold interest in the quarter section in which the proposed non-standard unit is located, and also owns all leasehold interest in the Blinebry Gas Pool within 1500 feet of the unit well.

Respectfully submitted,

GULF OIL CORPORATION
