Re: Amended Request for Non-Standard
Proration Unit and
Non-Standard Location
Ellen Weir No. 1
S/2 SW/4 and NW/4 SW/4
Sec. 3, T-20-S, R-37-E
Lea County, New Mexico

Gentlemen:

Please find enclosed an amended application for a non-standard location and non-standard proration unit for our proposed Ellen Weir No. 1 Eumont (Gas) well located in M-Section 3, T-20-S, R-37-E, Lea County, New Mexico. Our original request to the New Mexico Oil Conservation Division dated October 21, 1981, listed W. K. Byrom as the offset Eumont (Gas) operator to the west whereas a further record check shows that Exxon Corporation is the actual Eumont (Gas) offset operator to the west.

Certified copies of the amended application have also been sent to both parties affected by the amended application. Regular mail copies are being furnished to the other offset operators that received certified copies of the original application, but who are not affected by the new changes.

Thank you for your patience in this matter.

Very truly yours,

Doyle Hartman

AMENDED REPORT

Mr. R. L. Stamets
State of New Mexico
Oil Conservation Division
P. O. Box 2088
Santa Fe, New Mexico 87501

Re: Request for Non-Standard
Proration Unit and
Non-Standard Location
Ellen Weir No. 1
S/2 SW/4 and NW/4 SW/4
Sec. 3, T-20-S, R-37-E
Lea County, New Mexico

Gentlemen:

Eumont Gas Pool

In the near future, I plan to file a C-101 and C-102 with the New Mexico Oil Conservation Division district office in Hobbs for permission to drill a new Eumont (Gas) well at a non-standard location consisting of 660 FSL and 330 FWL, Section 3, T-20-S, R-37-E. The subject well will be drilled on a presently un-dedicated 120-acre non-standard proration unit comprised of the S/2 SW/4 and NW/4 SW/4 of Section 3, T-20-S, R-37-E, Lea County, New Mexico. Since the subject well is located at a non-standard location on a 120-acre non-standard proration unit, I hereby file for administrative approval to drill the subject well at a non-standard location consisting of 660 FSL and 330 FWL Section 3, T-20-S, R-37-E and also for administrative approval to dedicate the new well to a 120-acre non-standard proration unit comprised of the S/2 SW/4 and NW/4 SW/4 of Section 3, T-20-S, R-37-E, Lea County, New Mexico.

The subject 120-acre tract was previously dedicated to Tenneco's Ellen Weir No. 1 located 2310 FSL & 330 FWL Section 3. However, Tenneco's Ellen Weir No. 1 last produced in May, 1980, and a notice to plug and abandon was filed with the NMOCD in July of this year.

Three copies of a plat showing the location of the proposed well are enclosed.

Copies of this plat and application have also been sent by certified mail to all offsetting parties owning Eumont dry gas rights. The following is a list of the offset Eumont dry gas rights owners:

Section 3, T-20-S, R-37-E
Lea County, New Mexico

We would be very appreciative if you would indicate your approval of our request for non-standard proration unit and non-standard location to be dedicated to the above captioned well by signing one copy of this request and returning it in the enclosed stamped, self-addressed envelope.

We have a rig available which we would like to use in the drilling of this well, so your prompt attention in this matter would be very much appreciated.

Very truly yours,

Doyle Hartman

Re: Ellen Weir Gas Com No. 1
2310 FSL and 330 FWL (L)
Sec. 3, T-20-S, R-37-E
Lea County, New Mexico

Gentlemen:

A review of New Mexico Oil Conservation Division records covering your 120-acre Ellen Weir Eumont (Gas) lease in the S/2 SW/4 and NW/4 SW/4 Section 3, T-20-S, R-37-E, Lea County, New Mexico shows the following information:

1. Production last occurred from your Ellen Weir lease in May, 1980, which amounts to a total of seventeen months without production.
2. Tenneco filed a notice with the NMOCD on July 1, 1981, to plug and abandon the sole remaining producing well on the subject lease (Ellen Weir No. 1).

Since Tenneco's leases covering the S/2 SW/4 and NW/4 SW/4 Section 3 have expired because of non-production, we have acquired all new leases covering these tracts and plan to commence new development operations in the near future. In the event that Tenneco has not already plugged their Ellen Weir No. 1 as originally proposed, we respectfully request that Tenneco plug their remaining well and furnish us a release of the subject tracts prior to us initiating our new development operations.

If Tenneco has already plugged the Ellen Weir No. 1, please furnish both the NMOCD and ourselves a copy of the plugging notice since the NMOCD records do not reflect that the work has been performed.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Doyle Hartman".
