> RE: Application for an 80 Acre Non-Standard Gas Proration Unit, Hinton No. 3, Blinebry Gas Pool, Lea County, New Mexico

Gentlemen:

John H. Hendrix Corporation respectfully requests administrative approval for an 80 acre non-standard gas proration unit in the Blinebry Gas Pool for Hendrix's No. 3 Hinton well, consisting of the S/2 SW/4 Section 12, T22S - R37E, Lea County, New Mexico. A lease plat is attached showing the location of this well.

The Hinton No. 3 is a marginal gas well in the Blinebry pool and no longer needs a full 160 acre proration unit to produce efficiently.

Approval of this request will protect correlative rights, promote conservation, and promote the efficient recovery of gas reserves.

By copy of this letter, we are notifying the offset operators of this proposed non-standard proration unit. If these ¢ 7

operators have no objections, we ask that they execute the attached waiver and return one copy to the NMOCD and another to me at the letterhead address.

Yours very truly,

Lennie H. Wast hoch

Ronnie H. Westbrook Vice-President

RHW/ah
