Mr. J. T. Sexton
New Mexico Oil Conservation Division
P. O. Box 1980
Hobbs, New Mexico 88240

Dear Mr. LeMay:

ARCO Oil and Gas Company respectfully requests administrative approval to divide an existing 640-acre Jalmat gas proration unit (consisting of Section 15, T-22S, R-36E) into two 320-acre Jalmat gas proration units. One proration would be the W/2 of Section 15 and the other proration unit would be the E/2 of Section 15. Production from the existing 640-acres is from the McDonald State WN Wells #14, #15, and #23. ARCO is also requesting administrative approval of the unorthodox locations of these existing wells in the proposed proration units. The proposed E/2 proration unit would contain production from Well #14, while the proposed W/2 proration unit would contain production from Wells #23 and #15. The reason for requesting that the existing 640-acre proration unit be divided is that ARCO is assigning its rights in the W/2 of Section 15 to Marathon Oil Company as part of an Exchange Agreement. In the near future, Marathon will be operator of the W/2 of Section 15, while ARCO will remain the operator of the E/2 of Section 15.

Attached are C-102 forms identifying the proposed configurations of the two 320-acre Jalmat gas proration units. Also attached is a list of offset operators for this unit, and a land plat map of the surrounding area.

ARCO Oil and Gas Company believes approval of this request will be in the interest of conservation and will protect correlative rights.

ARCO Oil and Gas Company is notifying the offset operators of this application by sending a copy of this application package, along with waiver to objection forms, by certified mail. If you need further information, please call me at (915) 688-5446.

Sincerely,

David K. Newell
Senior Operations/Analytical Engineer

RE: Additional Information and Request for Approval
2/4/93 Application to divide an existing 640-acre Jalmat gas proration unit
(Section 15-T22S-R36E, Lea County) into two 320-acre Jalmat gas proration units (W/2
of Section 15 and E/2 of Section 15), and for unorthodox locations of the three existing
Jalmat gas wells within the proposed gas proration units.
McDonald State WN Wells #14, #15, and #23
Jalmat (Tansill/Yates/Seven Rivers) Pool

Dear Mr. LeMay:

ARCO Oil and Gas Company respectfully requested, by application to your office on 2/4/93, administrative approval to divide an existing 640-acre Jalmat gas proration unit (consisting of Section 15-T22S-R36E) into two 320-acre Jalmat gas proration units. One proration unit would be the W/2 of Section 15 and the other proration unit would be the E/2 of Section 15. ARCO also requested administrative approval of the unorthodox locations of the three existing wells (McDonald State WN Wells #14, #15, and #23) within the proposed proration units.

ARCO Oil and Gas Company notified the offset operators of that application by sending a copy of the application package, along with Waiver to Objection forms, by certified mail. Attached with this follow-up letter are copies of the certified mail receipts sent to all offset operators, showing that they have all received a copy of this application and have had more than 21 days to respond to either ARCO or the NMOCD. Also attached is a copy of a signed waiver form from 1 of the offset operators, indicating that they have no objection to the proposed work. Since a signed waiver has been received from 1 offset operator, and since all offset operators have received notice of ARCO's application by certified mail and have had sufficient time to respond to the application, and no offset operators have objected to this application, ARCO respectfully requests that the NMOCD grant prompt administrative approval of this request.

If you need further information, please call me at (915) 688-5446.

Sincerely,

David K. Newell
