Request for Exception to
NMOCD Rule 104 B(1a)
by Administrative Approval
for Recompletion Attempt
in Atoka

V-F Petroleum Inc.
Graham #1
Sec. 9L, T-15-S, R-36-E
2310' FSL & 430' FWL
330' FNL & 430' FWL (lease)
Caudill, Devonian Field
Lea County, New Mexico

Gentlemen:

V-F Petroleum is requesting an exception to NMOCD Rule 104 B(1a) regarding spacing requirements and proration units. The V-F Petroleum Graham #1 is currently producing from the Devonian at a rate of approximately 8 BOPD + 250 BWPD. We propose a recompletion attempt in the Atoka formation uphole, which will be a gas producing reservoir. Spacing distances (660' side, 1980' end) and proration unit requirements (320 acres) for a wildcat gas well cannot be met by this well at its' location.

V-F has 320 acres under lease being the SW/4 of Sec 9, T-15-S, R-36-E and the SE/4 (160 acres) of Sec 8, T-15-S, R-36-E. It is our understanding that the acreage under lease in Sec. 8 cannot be included in the proration unit for the well in Sec. 9, hence our application for exception of a non-standard proration unit & unorthodox location.

We have included for your review two location maps showing all offset leaseholders, operators, and mineral owners plus a signed waiver from them regarding our request for an exception to spacing and proration unit rules.

Also included is Form C-101, Application for Permit to Drill, Deepen, Plug Back and the original Form C-102 filed on this well outlining the new non-standard proration unit.

Please call us at the above number if you have any questions or comments, and we sincerely hope you will grant our request for a non-standard proration unit and an unorthodox location.

Very truly yours,

Kenneth E. Stull
Geologist
Engineering Technician

V-F Petroleum Inc.
Graham #1 Well
Sec. 9L, T-15-S, R-36-E
Lea County, New Mexico

Gentlemen:

As per our conversation on May 11, we have notified the mineral interest owners in the SE/4 of Sec 9, T-15-S, R-36-E of our intentions to re-complete the Graham #1. As we discussed, the mineral ownership in the SE/4 is common with the SW/4 of Sec. 9.

All mineral owners in the SE/4 of Sec. 9 have been notified by certified mail. Copies of this mailing are included with this letter.

It is our understanding that another 30-day waiting period will begin from the receipt of this material in your office.

We appreciate your consideration and cooperation in this matter.

Very truly yours,

Kenneth E. Stull

Request for Exception to
NMOCD Rule 104 B(1a)
by Administrative Approval
for Recompletion Attempt

V-F Petroleum Inc.
Graham #1
Sec. 9L, T-15-S, R-36-E
Lea County, New Mexico

Gentlemen:

Attached is our request in triplicate for exception to NMOCD Rule 104 B(1a). Regarding the attached location map, several points need to be detailed.

In the SE/4 of Sec. 9, the unleased mineral owners listed on the attached plat are common mineral owners of the SW/4 of Section 9 and the SE/4 of Section 8. Their royalty under the V-F Graham #1 (SW/4 of Section 9) is the same under the nonstandard unit as it would be under a standard proration unit covering the S/2 of Section 9.

In the N/2 of Section 16, we have received verbal waivers to the exception and are awaiting the executed waivers. We will forward those as quickly as available.

Please give our request your consideration.

Very truly yours,

Kenneth E. Stull
