RE:

Request to Amend Order NSL-3034(SD) Request for Unorthodox Location Proposed H.T. Mattern # 3 K, 1930' FSL & 2188' FWL Sec. 7, T22S, R37E Lea County, New Mexico

Mr. Stogner:

Meridian Oil Inc. respectfully requests approval to amend previously approved non-standard proration unit (160 acres), Order NSL-3034(SD). This request is made because the H.T Mattern well No. 1 was plugged and abandoned on March 2, 1993 and the H.T Mattern # 2 was turned over to Chevron which subsequently plugged this well. The approved simultaneous dedication is no longer valid due to the non-existance of the other Mattern wells on our lease. I am also requesting an Administrative Approval for an Unorthodox location. We are unable to drill at an orthodox location due to the location of a salt water disposal line and placement of gunbarrel tanks that could possibly pose an environmental hazard if moved.

All offset operators have been notified of our requests. Should you have any questions, or need additional information, please do not hesitate to contact me at 915-688-6943.

\$incerely.

Donna J. Williams Production Assistant
