CASE NO. 73243
Santa Fe, NM 87505

APPLICATION

YATES PETROLEUM CORPORATION, ("Yates") through its undersigned attorneys, hereby makes application to the Oil Conservation Division pursuant to the provisions of N.M.Stat. Ann. § 70-2-17, (1978), for an order pooling all mineral interests from the surface to the base of the Morrow formation in all spacing and proration units comprised of the N/2 of Section 3, Township 18 South, Range 26 East, N.M.P.M., Eddy County, New Mexico for all formations and/or pools developed on 320-acre spacing which includes but is not limited to the Undesignated Kennedy Farms-Morrow Gas Pool; and the Undesignated Kennedy Farms-Upper Pennsylvanian Gas Pool, and in support of its application states:

1. Yates Petroleum Corporation is a working interest owner in the N/2 of said Section 3 and has the right to drill thereon.
2. Yates proposes to dedicate the above-referenced spacing or proration units to a well to be drilled at a standard gas well location 1200 feet from the North line and 1800 feet from the East line (Unit B) of said Section 3, to an approximate depth of 8,900 feet to test the Atoka and Morrow formations.
3. Yates has sought and been unable to obtain a voluntary agreement for the development of these lands from Preston Exploration, L.L.C., Post Office Box 7520, The Woodlands, Texas 77387-7520, a working interest owner in the subject spacing units.
4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.
5. In order to permit the Yates to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled, and Yates Petroleum Corporation should be designated the operator of the well to be drilled.

WHEREFORE, Yates Petroleum Corporation requests that this application be set for hearing before an Examiner of the Oil Conservation Division on April 1, 2004 and, after notice and hearing as required by law, the Division enter its order:

- A. pooling all mineral interests in the subject spacing and proration units,
- B. designating Yates Petroleum Corporation operator of these units and the well to be drilled thereon,
- C. authorizing Yates Petroleum Corporation to recover its costs of drilling, equipping and completing the well,
- D. approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures, and
- E. imposing a 200% charge for the risk assumed by Yates Petroleum Corporation in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,
HOLLAND & HART LLP

CASE 13245:

Application of Yates Petroleum Corporation for compulsory pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order pooling all mineral interests from the surface to the base of the Morrow formation in the W/2 of Section 3, Township 18 South, Range 26 East, N.M.P.M., Eddy County, New Mexico for all formations and/or pools developed on 320-acre spacing which includes but is not limited to the Undesignated Kennedy Farms-Morrow Gas Pool and the Undesignated Kennedy Farms-Upper Pennsylvanian Gas Pool. Said units are to be dedicated to a well to be drilled at a standard gas well location 1200 feet from the North line and 1800 feet from the East line (Unit B) of said Section 3. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of Yates Petroleum Corporation as operator of the well and imposition of a 200% charge for risk involved in drilling said well. Said area is located approximately 15 miles west of Loco Hills, New Mexico.
