Re: State "32" Com No. 2 Well  
N/2 of Section 32, T19S-R28E,  
Eddy County, New Mexico

Gentlemen:

In reference to our previous proposal letter in June for the State "32" Com No. 2 well, please be advised that the surface location was moved due to archaeological considerations. The new surface location will be 2404' FNL and 1083' FWL, with the bottomhole location remaining the same at 1980' FNL and 660' FWL in Section 32, Township 19 South, Range 28 East to a depth of approximately 11,250' to test the Morrow, Atoka and Strawn formations.

In this regard enclosed please find two (2) copies of EOG's revised AFE for the drilling of the subject well as a directional well. If you elect to participate in the drilling of the proposed well, please execute and return one (1) copy of the AFE to the undersigned at your earliest convenience. Upon receipt of your executed AFE, we will forward an Operating Agreement covering the N/2 of Section 32 for your review and execution.

Again, in the event you do not wish to participate in the drilling of the subject well, EOG is agreeable to purchasing a term assignment or obtaining a farmout covering your leasehold interests in the N/2 of Section 32 under mutually acceptable terms. If you have any questions concerning this matter, do not hesitate to contact the undersigned at (432) 686-3758.

Very truly yours,

EOG RESOURCES, INC.
