The subject lands and wells are located approximately 6 miles north of Waterflow, New Mexico. Upon application of J.C. Well Service, Inc., this case will be heard De Novo pursuant to the provisions of Rule 1220.

CASE 13226: *De Novo*

Application of OXY USA WTP Limited Partnership for rescission of the approval of an application for permit to drill and for compulsory pooling, Eddy County, New Mexico. Applicant seeks rescission of the Division's prior approval of an Application for Permit to Drill covering the W/2 of Section 15, Township 22 South, Range 27 East, and an order pooling all mineral interests in the W/2 of said Section 15 in all formations and/or pools developed on 320-acre spacing and proration units which includes but is not necessarily limited to the Undesignated South Carlsbad-Morrow Gas Pool. Applicant proposes to dedicate the pooled unit to its Redemption Well No. 1 to be drilled at a standard gas well location 660 feet from the South and West lines of said Section 15. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of applicant as operator of the well and a charge for risk involved in drilling said well. Said area is located approximately 2 miles east of Carlsbad, New Mexico. Upon application of OXY USA WTP Limited Partnership, this case will be heard De Novo pursuant to the provisions of Rule 1220.

CASE 13339: *Application of Loco Hills GSF for approval of its Stage I and II Abatement Plans and Best Management Practices Plan and an exemption to Division Rule 50, Eddy County, New Mexico.* Pursuant to the provisions of Rule 50.G(2) of the General Rules of the Division, applicant seeks approval of its Stage I & I Abatement Plan and Best Management Practices Plan for the Loco Hills Gas Storage Facility and an exemption to the requirements of Rule 50 for a double liner and leak detection system for a pit located at this facility in the NW/4 SW/4 of Section 22, Township 17 South, Range 29 East, where ground water beneath the site exceeds 100,000 ppm total dissolved solids. This facility is located approximately 5 miles west of Loco Hills, New Mexico.
