1 MR. STAMETS: We'll call now Case Number  
2 6431.

3 MR. TUSCHENDORF: Case 6431. Application of  
4 HRC Oil Company for compulsory pooling, Eddy County, New  
5 Mexico.

6 MR. KELLAHIN: I'm Tom Kellahin of Kellahin  
7 and Kellahin, Santa Fe, New Mexico, appearing on behalf of  
8 the Applicant, and I have two witnesses to be sworn.

9 MR. STAMETS: Any other appearances? Have  
10 the witnesses stand and be sworn, please.

11 (Witnesses sworn.)

12 RAYMOND PARKER

13  
14 being called as a witness and having been duly sworn upon  
15 his oath, testified as follows, to-wit:

16  
17 DIRECT EXAMINATION

18 BY MR. KELLAHIN:

19 Q Would you please state your name and occu-  
20 pation?

21 A My name's Raymond Parker. I'm a consultant  
22 for HRC Oil Company in land matters.

23 Q Mr. Parker, have you previously testified  
24 before the Oil Conservation Division in your capacity as  
25 a land man in other cases?

A Yes, sir.

MR. KELLAHIN: We tender Mr. Parker as an expert.

MR. STAMETS: The witness is considered qualified.

Q (Mr. Kellahin continuing.) Mr. Parker, have you made a study of and are you familiar with the land situation concerned in this application?

A Yes, sir, I have.

Q Would you refer to what I've marked as Exhibit Number One and identify that?

A This is a plat of the north half of Section 35, Township 23 South, Range 28 East, Eddy County, New Mexico.

The acreage colored in yellow represents leasehold interests owned by HNG Oil Company. The orange, leasehold interest owned by Phillips Petroleum; the blue leasehold by Jack F. Russell and Associates; the green and the pink are owners of minerals that we have been unable to locate.

Q Do you have an approximation as to how many acres are uncommitted to the unit?

A There's a total of 6.875 mineral acres that are uncommitted to what we propose to pool in the north half.

Q That's indicated on Exhibit Number Two?

1 A That's true.

2 Q Would you describe the information contained  
3 on Exhibit Two for us?

4 A The first item shows a mineral interest of  
5 1.875 acres out of a 5-acre tract, which shows on the plat,  
6 Exhibit One, as Tract 664. 15/24ths of that particular  
7 tract are owned as a leasehold by Phillips Petroleum. The  
8 remaining interest is owned by the heirs of Albert Larson  
9 and Olaf Inrude, last known address Caldwell, Kansas.

10 Q With regard to that interest, Mr. Parker,  
11 what if anything have you done or directed to be done in  
12 contacting those people?

13 A We've engaged a man named Tom Burton in  
14 Wichita, Kansas, to attempt to locate these lost people.  
15 He has contacted several people. Attached as our exhibits  
16 are the two affidavits.

17 Q As of this date, that acreage is still un-  
18 committed to you?

19 A That's true.

20 Q All right. Now, you have a 5-acre tract that s  
21 in the name of the heirs of Bert Schurr, S-C-H-U-R-R.

22 A That's right.

23 Q Let me show you what we've marked as Exhibit  
24 Number Three and will you describe your efforts to contact  
25 those heirs?

SALLY WALTON BOYD  
CERTIFIED SHORTHAND REPORTER  
3030 Plaza Blanca (S.E.) 411-2443  
Santa Fe, New Mexico 87501

1 A This is the letter, my letter -- or HUG's  
2 letter, my signature, addressed to Mr. Robert E. Coleman  
3 of Midland, Texas. Mr. Coleman visited me in my office  
4 about ten days ago, advised me that he has located certain  
5 heirs of Bert Schurr, using the process of acquiring oil  
6 and gas leases covering this outstanding interest.

7 I have not seen the oil and gas lease; he  
8 does not have it in hand. I wrote this letter for the ex-  
9 press purpose of inviting him if he has a valid oil and gas  
10 lease to join us in the drilling of our well or to farmout  
11 on the basis outlined in this letter.

12 Q That letter does indicate a paragraph ad-  
13 vising the Bert Schurr heirs, through Mr. Coleman, of this  
14 particular case here?

15 A Yes.

16 Q Would you refer to Exhibit Number Four and  
17 identify it?

18 A Exhibit Number Four is an affidavit of Tom  
19 Burton of Wichita, Kansas, as to his attempts to locate  
20 Mr. Alfred Larson.

21 Q In summary he's not been able to do so.

22 A In summary he's contacted a lawyer that at  
23 one time represented the Larson people but he is very aged  
24 in a nursing home and is unable to correspond.

25 Q I have separately as Exhibit Five what ap-

1        appears to be the same affidavit. Are those two affidavits  
2        the same?

3                A        The affidavit is by the same affiant, and  
4        one covering the Inrude people and one the Larson people.

5                Q        Okay.

6                MR. KELLAMIN: I have no further questions  
7        of Mr. Parker.

8                MR. STAMETS: Are there any other questions  
9        of the witness? He may be excused.

10               J. STEWART MARTIN  
11               being called as a witness and having been duly sworn upon  
12        his oath, testified as follows, to-wit:  
13       

14               DIRECT EXAMINATION

15               BY MR. KELLAMIN:

16               Q        Would you please state your name and occu-  
17        pation?  
18       

19               A        J. Stewart Martin. I'm Vice President of  
20        Exploration for HEC Oil Company, Midland, Texas.

21               Q        Mr. Martin, have you previously testified  
22        before the Oil Conservation Division?

23               A        Yes, sir.

24               Q        In what capacity?

25               A        As a geologist.

1 Q Have you made a study of and are you familiar  
2 with the geological facts surrounding this particular  
3 application?

4 A Yes, sir.

5 MR. KELLAHIN: We tender Mr. Martin as an  
6 expert.

7 MR. STAMETS: The witness is considered  
8 qualified.

9 Q (Mr. Kellahin continuing.) Would you refer  
10 to what we've marked as Exhibit Number Six and identify that?

11 A Yes, sir. This is a plat of the area showing  
12 all current drilling wells and completed wells.

13 Currently we are drilling a well and I be-  
14 lieve the location is 2310 from the west line and 660 from  
15 the north line of Section 35, Township 23 South, Range 28  
16 East, Eddy County, New Mexico, called our Williams Com 35  
17 No. 1.

18 Q The Williams Com 35 No. 1 is the well that  
19 will be dedicated to this north half proration unit?

20 A Yes, sir.

21 Q Would you please refer to Exhibit Number  
22 Seven and identify it?

23 A This is an AFE of HNG Oil Company on the  
24 subject well. The completed well cost is \$1,329,746; dry  
25 hole, \$1,019,051.

SALLY WALTON BOYD  
CERTIFIED SHORTHAND REPORTER  
303 Plaza Alhambra (310) 411-4401  
Santa Fe, New Mexico 87501

1 Q What is the total depth of the well, Mr. --

2 A 13,400 feet Morrow test.

3 Q In your opinion are the anticipated well  
4 costs for this particular well consistent with other Morrow  
5 wells drilled in Eddy County?

6 A This, in this local area, are a little  
7 higher, about 20 percent higher than the wells that we have  
8 drilled down in Malaga about 3 miles to the south, because  
9 of the high pressure zones that have been encountered in  
10 the wells immediately to the north.

11 Q Do you have a recommendation to the Examiner  
12 with regards to a penalty to be assessed against the non-  
13 participating owners?

14 A Yes, sir, 200 percent.

15 Q On what do you base that recommendation?

16 A Well, primarily because of the erratic nature  
17 of the Morrow. The well to the south in Section 2 on the  
18 previous plat is a sub-commercial well, the Phillips Malaga  
19 No. 1-A. It's producing about a million feet of gas per  
20 month and a cumulative production of 340-million feet of  
21 gas. And a well to the north, there's a well in Section  
22 23 in the east half has an Atoka sand, and the only other  
23 well that has that sand is the Maddox well in the west  
24 half of Section 26.

25 There are two Morrow completions within this

SALLY WALTON BOYD  
CERTIFIED SHORTHAND REPORTER  
3010 Plaza El Encino (911) 471-4443  
Santa Fe, New Mexico 87501

1 area, one in Section 22 in the southwest quarter, the Amoco  
2 No. 1 Brantley, and the Maddox 1-27 Pardue Farms in the east  
3 half of Section 27. These other wells encountered Morrow  
4 Sands but have not run any production tests on them.

5 Q Would you refer to Exhibit Number Eight and  
6 identify it?

7 A It's part of our operating agreement that the  
8 land department has prepared for the north half of Section  
9 35.

10 Q As part of that operating agreement what has  
11 been agreed to by the working interest owners for overhead  
12 charges or cost for supervision while drilling and after  
13 completion of the well?

14 A The drilling well rate is \$2398 and a pro-  
15 ducing well rate, \$319.

16 Q In your opinion would that be a fair sum to  
17 charge against the nonconsenting owners in this case?

18 A Yes, sir, it's essentially the same as several  
19 operating agreements we have in the township to the south.

20 Q Who are the operators that will sign this  
21 agreement, Mr. Martin?

22 A It's HNG Oil Company, Phillips Petroleum,  
23 Jack Russell, et al, are the three that have signed the  
24 operating agreement.

25 Q And HNG desires to be designated the operator?

BALLY WALTON BOYD  
CERTIFIED SHORTHAND REPORTER  
1015 Plaza Business (N.Y.C.) 111-3115  
Saddle Pt., New Mexico 87001

1 A Yes, sir.

2 Q What percentage of the unit do they control?

3 A At this point 60.935, .935 percent.

4 Q I note that your operating agreement also  
5 has a method by which the fixed rates are adjusted on an  
6 annual basis, on the 1st of April of each year.

7 A Yes, sir.

8 Q In your opinion would that be an appropriate  
9 additional paragraph to add to this particular order to be  
10 applied against the nonconsenting parties?

11 A Yes, sir.

12 Q And were Exhibits Six, Seven, and Eight pre-  
13 pared by you or compiled under your direction and super-  
14 vision?

15 A They were compiled under my supervision.

16 Q In your opinion, Mr. Martin, will approval  
17 of this application prevent waste and protect correlative  
18 rights?

19 A Yes, sir.

20 MR. KELLAHIN: We move the introduction of  
21 Exhibits One through Eight.

22 MR. STAMETS: These exhibits will be admitted.

23  
24 CROSS EXAMINATION

1010 Plaza Blanca (511) 411-4113  
Baltimore, Pa. New Mexico 81101

1 Q Mr. Martin, let me confirm that you said that  
2 some of the operators, or the operating interests, have  
3 already signed the agreement that provides for these well  
4 costs of \$2398 and \$319, is that correct?

5 A Yes, sir.

6 Q And you anticipate that all will sign that  
7 with the possible exception of the people you can't locate?

8 A Yes, sir, for the uncommitted interest of  
9 2.148440 percent.

10 MR. STAMETS: Any other questions f or the  
11 witness? He may be excused.

12 Anything further in this case?

13 MR. KELLAHIN: No, sir.

14 MR. STAMETS: We'll take the case under  
15 advisement.

16 MR. KELLAHIN: Thank you.

5 qualified.

6 Q (Mr. Kellahin continuing.) Mr. Parker, have  
7 you made a study of and are you familiar with the land  
8 situation concerned in this application?

9 A. Yes, sir, I have.

10 Q Would you refer to what I've marked as  
11 Exhibit Number One and identify that?

12 A. This is a plat of the north half of Section  
13 35, Township 23 South, Range 28 East, Eddy County, New  
14 Mexico.

15 The acreage colored in yellow represents  
16 leasehold interests owned by HNG Oil Company. The orange,  
17 leasehold interest owned by Phillips Petroleum; the blue  
18 leasehold by Jack E. Russell and Associates; the green and  
19 the pink are owners of minerals that we have been unable  
20 to locate.

21 Q Do you have an approximation as to how many  
22 acres are uncommitted to the unit?

23 A. There's a total of 6.875 mineral acres that  
24 are uncommitted to what we propose to pool in the north half.

25 Q That's indicated on Exhibit Number Two?

SALLY WALTON BOYD  
CERTIFIED REPORTER

9 Q (Mr. Kellahin continuing.) Would you refer  
10 to what we've marked as Exhibit Number Six and identify that?

11 A Yes, sir. This is a plat of the area showing  
12 all current drilling wells and completed wells.

13 Currently we are drilling a well and I be-  
14 lieve the location is 2310 from the west line and 660 from  
15 the north line of Section 35, Township 23 South, Range 28  
16 East, Eddy County, New Mexico, called our Williams Com 35  
17 No. 1.

18 Q The Williams Com 35 No. 1 is the well that  
19 will be dedicated to this north half proration unit?

20 A Yes, sir.

21 Q Would you please refer to Exhibit Number  
22 Seven and identify it?

23 A This is an AFE of HNG Oil Company on the  
24 subject well. The completed well cost is \$1,329,746; dry  
25 hole, \$1,019,051.

SALLY WALTON BOYD  
CERTIFIED SHORTHAND REPORTER

Q What is the total depth of the well, Mr. --

A 13,400 feet Morrow test.

Q In your opinion are the anticipated well costs for this particular well consistent with other Morrow wells drilled in Eddy County?

A This, in this local area, are a little higher, about 20 percent higher than the wells that we have drilled down in Malaga about 3 miles to the south, because of the high pressure zones that have been encountered in the wells immediately to the north.

Q Do you have a recommendation to the Examiner with regards to a penalty to be assessed against the non-participating owners?

A Yes, sir, 200 percent.

Q On what do you base that recommendation?

A Well, primarily because of the erratic nature of the Morrow. The well to the south in Section 2 on the previous plat is a sub-commercial well, the Phillips Malaga No. 1-A. It's producing about a million feet of gas per month and a cumulative production of 140-million feet of gas. And a well to the north, there's a well in Section 23 in the east half has an Atoka sand, and the only other well that has that sand is the Maddox well in the west half of Section 26.

There are two Morrow completions within this

1 area, one in Section 22 in the southwest quarter, the Amoco  
2 No. 1 Brantley, and the Maddox 1-27 Pardue Farms in the east  
3 half of Section 27. These other wells encountered Morrow  
4 Sands but have not run any production tests on them.

5 Q Would you refer to Exhibit Number Eight and  
6 identify it?

7 A It's part of our operating agreement that the  
8 land department has prepared for the north half of Section  
9 35.

10 Q As part of that operating agreement what has  
11 been agreed to by the working interest owners for overhead  
12 charges or cost for supervision while drilling and after  
13 completion of the well?

14 A The drilling well rate is \$2398 and a pro-  
15 ducing well rate, \$319.

16 Q In your opinion would that be a fair sum to  
17 charge against the nonconsenting owners in this case?

18 A Yes, sir, it's essentially the same as several  
19 operating agreements we have in the township to the south.

20 Q Who are the operators that will sign this  
21 agreement, Mr. Martin?

22 A It's HNG Oil Company. Phillips Petroleum.  
23 Jack Russell, et al, are the three that have signed the  
24 operating agreement.

25 Q And HNG desires to be designated the operator?

San Jose, New Mexico 87501

1 A Yes, sir.

2 Q What percentage of the unit do they control?

3 A At this point 60.935, .935 percent.

4 Q I note that your operating agreement also  
5 has a method by which the fixed rates are adjusted on an  
6 annual basis, on the 1st of April of each year.

7 A Yes, sir.

8 Q In your opinion would that be an appropriate  
9 additional paragraph to add to this particular order to be  
10 applied against the nonconsenting parties?

11 A Yes, sir.

12 Q And were Exhibits Six, Seven, and Eight pre-  
13 pared by you or compiled under your direction and super-  
14 vision?

15 A They were compiled under my supervision.

16 Q In your opinion, Mr. Martin, will approval  
17 of this application prevent waste and protect correlative  
18 rights?

19 A Yes, sir.

20 MR. KELLANIN: We move the introduction of  
21 Exhibits One through Eight.

22 MR. STAMETS: These exhibits will be admitted.

24 CROSS EXAMINATION

25 BY MR. STAMETS:

1 Q Mr. Martin, let me confirm that you said that  
2 some of the operators, or the operating interests, have  
3 already signed the agreement that provides for these well  
4 costs of \$2398 and \$319, is that correct?

5 A Yes, sir.

6 Q And you anticipate that all will sign that  
7 with the possible exception of the people you can't locate?

8 A Yes, sir, for the uncommitted interest of  
9 2.148440 percent.

10 MR. STAMETS: Any other questions f or the  
11 witness? He may be excused.

12 Anything further in this case?

13 MR. KELLAHIN: No, sir.

14 MR. STAMETS: We'll take the case under  
15 advisement.

16 MR. KELLAHIN: Thank you.
