Good morning, Mr. Walsh

On October 9, 2013, actually before the referenced applications were filed, OCD received a protest letter from William N. Roberts.

A copy of this protest letter is being sent to you by U.S. Mail.

Although it is not clear whether this protest letter constitutes an objection to your applications that is cognizable under OCD rules, it would seem to be necessary to address these issues through OCD's hearing process. I am accordingly directing the Division Clerk, Ms. Florene Davidson, to set your applications for hearing, and to provide notice of the setting to Hunt Oil and to Mr. Roberts.

Of course, if you can work matters out with Mr. Roberts prior to the date the hearing is set, then no hearing will be necessary.

Sincerely

David K. Brooks
