STATEMENT OF THE CASE

The State Land Office (SLO) understands that the applicant wishes to dispose produced water at a depth of 670-785 feet below Myrtle Myra Well No. 3.
The concerns expressed by Sheila Mallory, Deputy State Director of the United States Department of the Interior in her letter of March 14, 2013, are shared by the SLO Oil and Gas Division, with the addition of our understanding that no sufficient barrier exists to limit the migration of disposed fluids into the Capitan Reef.
