Re: Hearing on Case No. 15357

Dear Florene,

This letter is a request to reschedule the August 13 hearing before the Oil Conservation Commission. Case Number 15357 involves a protest for three injection well applications. Americulture has filed another protest – protesting a fourth well. Because notice of the August 13 hearing has been published, the OCC would have to hold an additional hearing on the fourth well protest.

All of the well protests would involve similar facts. In the interest of the most beneficial use of the Commission's time, we ask that the August hearing on Case Number 15357 be rescheduled to the OCC's September calendar, and that all four protests be considered at the same time.

Most Respectfully,

Charles N. Lakins, Esq.
