Scott:

Then, per your request, the case will be continued to August 20th. PRG

Why don't we continue this to August 20th while we determine the answer to that question.

Scott

Scott:

After reviewing the application last week, I provided a summary of items that were to be address (more information) and a disclosure of additional requirements that were to be incorporated in any order (see July 31, 2015 e-mail). At this point, the application can be processed administratively unless your client would like the opportunity present testimony. PRG

Phillip,

Do you still need me to appear at the hearing on Thursday to state this request?

Scott

Scott:

I talked with the Director about the attached correspondence for dismissal. He has requested that counsel for TLT make an appearance so that the request (along with the terms of resolution with Linn) can be made part of the record and the application remanded back to the administrative process. And, just a reminder, that the administrative review may identified issues, independent of the resolution with Linn, that may have this application back in hearing, especially with the contentious nature of injection in the Delaware production areas. Please contact me (by e-mail or phone) with any questions. PRG
