RE: NOTIFICATION OF INITIATION OF INJECTION  
DCP MIDSTREAM LP LINAM AGI #2 NMOCC ORDER R-12546-K

Dear Mr. Catanach:

Case 13589  
30-025-42139

Pursuant to the extension granted by you on August 14, 2015, DCP would like to inform the OCD that injection operation into the Linam AGI#2 (API# 30-025-42139) will begin before the deadline of October 14, 2015. As you know we now have the opportunity to inject into either or both of the Linam AGI wells thereby significantly reducing any potential of downtime or supply interruptions due to any potential problem with either AGI well. We greatly appreciate the cooperation of the NMOCD and NMOCC in allowing DCP the flexibility to complete the well and initiate the operation of this critical project.

Sincerely,  
Geolex, Inc.

Alberto A. Gutierrez, RG  
President and Consultant to DCP Midstream LP
