Re: **NMOCD Case No. 15655: Application of Black Mountain LLC for a Non-Standard Oil Spacing and Proration Unit and Compulsory Pooling, Lea County, New Mexico**

NMOCD Case No. 15656: Application of Black Mountain Operating LLC for a Non-Standard Oil Spacing and Proration Unit, Compulsory Pooling, and an Unorthodox Well Location, Lea County, New Mexico

Gentlemen:

As requested, enclosed are four plats showing alternative rig pad configurations for the Black Mountain State Com No. 1H and the State Com No. 3H in Sections 2 and 35, T22S, R34E.

1. This plat shows the currently planned single pad location for both wells in the area (hatched) suggested by 3Bear Energy as a location of a possible gas plant.
2. This plat shows a single pad for both wells in the southwest corner of Section 2 outside of the gas plant acreage.
3. This plat shows two pads, both located outside the gas plant acreage on either side.
4. This plat shows a single pad for both wells located in Section 11.

Page 2

All configurations are possible, but a single pad located in Section 11 is the most preferable alternative. Black Mountain has also conferred with 3Bear Energy and is informed that there is a strong likelihood that the gas plant project will not go forward.

Very truly yours,
