STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION

APPLICATION OF MARATHON
OIL PERMIAN LLC FOR A NON-STANDARD
OIL SPACING AND PRORATION UNIT,
NON-STANDARD LOCATION,
AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO

CASE NO. 15909

AMENDED APPLICATION

Marathon Oil Permian LLC ("Marathon"), OGRID Number 372098, through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17, for an order: (1) creating a non-standard 160-acre spacing a proration unit in the Bone Spring formation, comprised of the E/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; (2) approving non-standard locations; and (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit. In support of this application, Marathon states:

1. Marathon is an interest owner in the subject lands and has a right to drill a well thereon.
2. Marathon plans to drill and complete the **Flowmaster 24 34 15 SB 8H**, which is a horizontal well that will develop the Red Hills Bone Spring, North Pool (Pool Code 96434) underlying the E/2 W/2 of Section 15 to the proposed well to form a non-standard 160-acre oil spacing and proration unit (the "project area").

3. The **Flowmaster 24 34 15 SB 8H** well will be drilled from NE/4 NW/4 (Unit C) of Section 15 to a bottom hole location in the SE/4 SW/4 (Unit N) of Section 15. The first and last perforations for this well will be unorthodox. The first perforation will be 200' from the North line and 1,985' from the West line, and the last perforation will be located 200' from the South line and 1,984' from the West line. Other than the first and last perforations for this well, the completed interval will comply with the 330' setbacks required by the Division's rules.

4. The Red Hills Bone Spring, North Pool (Pool Code 96434) is subject to the Division's statewide rule providing for 40 acre spacing units.

5. Marathon plans to develop each 40 acre spacing unit within the project area.

6. Marathon sought, but has been unable to obtain a voluntary agreement from all interest owners in the Red Hills Bone Spring, North formation underlying the proposed project area to participate in the drilling of the wells or to otherwise commit their interests to the wells.

7. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

8. In order to permit Marathon to obtain its just and fair share of the oil and gas underlying the subject lands, all interests in this non-standard spacing unit should be pooled and Marathon should be designated operator of the proposed horizontal wells and spacing unit.

9. Notice of this application is being given in accordance with Division rules.

WHEREFORE, Marathon requests that this application be set for hearing before an Examiner of the Oil Conservation Division on December 21, 2017, and, after notice and hearing as required by law, the Division enter an order:

- A. Creating a 160-acre non-standard spacing and proration unit in the Bone Spring formation, comprised of the E/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico;
- B. Approving non-standard locations;
- C. Pooling all mineral interests in the non-standard spacing and proration unit;
- D. Designating Marathon Oil Permian LLC operator of this non-standard spacing unit and the horizontal wells to be drilled thereon;
- E. Authorizing Marathon to recover its costs of drilling, equipping and completing the wells;
- F. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- G. Imposing a 200% penalty for the risk assumed by Marathon in drilling, completing and equipping the wells against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS
& SISK, P.A.

**APPLICATION OF MARATHON
OIL PERMIAN LLC FOR A NON-STANDARD
SPACING AND PRORATION UNIT,
NON-STANDARD LOCATIONS,
AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

CASE NO. 15908

AMENDED APPLICATION

Marathon Oil Permian LLC ("Marathon"), OGRID Number 372098, through its undersigned attorneys, hereby makes an application to the Oil Conservation Division pursuant to the provisions of NMSA (1978), Section 70-2-17, for an order: (1) creating a non-standard 160-acre, more or less, spacing and proration unit in the Bone Spring formation, comprised of the W/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; and, (2) approving non-standard locations; and (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit. In support of this application, Marathon states as follows:

1. Marathon is an interest owner in the subject lands and has a right to drill a well thereon.
2. Marathon seeks to dedicate the W/2 W/2 of Section 15 to the proposed wells to form a non-standard 160-acre, more or less, oil spacing and proration unit (the "project area").

3. Marathon plans to drill the **Flowmaster 24 34 15 TBU 004H** and **Flowmaster 24 34 15 TBU 005H** wells to a depth sufficient to test the Bone Spring formation. These wells will be drilled simultaneously and will be pad drilled.

4. The **Flowmaster 24 34 15 TBU 004H** well will be drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 15 to a bottom hold location in the SW/4 SW/4 (Unit M) of Section 15. The first and last perforation for this well will be unorthodox. The first perforation will be 200' from the North line and 662' from the West line, and the bottom hole location will be located 200' from the South line and 661' from the West line.

5. The **Flowmaster 24 34 15 TBU 005H** well will be drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 15 to a bottom hold location in the SW/4 SW/4 (Unit M) of Section 15. The first and last perforation for this well will be unorthodox. The first perforation will be 200' from the North line and 662' from the West line, and the bottom hole location will be located 200' from the South line and 661' from the West line.

6. These wells are within the Red Hills; Bone Spring, North pool (Pool Code 96434), which is subject to the statewide rules. Other than as listed above, the producing interval that Marathon seeks to drill will comply with the 330 foot setback requirements established under the rules.

7. Marathon sought, but has been unable to obtain a voluntary agreement from all interest owners in the Bone Spring formation underlying the proposed project area to participate in the drilling of the wells or to otherwise commit their interests to the wells.

8. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

9. Approval of the non-standard unit and the pooling of all interests in the Bone Spring formation underlying the proposed project area will prevent the drilling of unnecessary wells, prevent waste and protect correlative rights.

WHEREFORE, Marathon Corp. requests this application be set for hearing before an Examiner of the Oil Conservation Division on December 21, 2017, and after notice and hearing as required by law, the Division enter its order:

- A. Creating a non-standard oil spacing and proration unit ("project area") in the Bone Spring formation comprised of W/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico;
- B. Approving non-standard locations for these wells;
- C. Pooling all mineral interests in the Bone Spring formation underlying this non-standard spacing and proration unit/project area;
- D. Designating Marathon as operator of this unit and the wells to be drilled thereon;
- E. Authorizing Marathon to recover its costs of drilling, equipping and completing these wells;
- F. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- G. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

UNRECORDED RETURN RECEIPT MAIL

Re: Flowmaster 4H, 5H, and SB Well Proposal
Section 15, T24S-R4E
Lee County, New Mexico

Dear Chesna USA, Inc.:

Marathon Oil Permian LLC ("MOP") proposes the drilling of the following wells located in the west half of Section 15, T24S-R4E, Lee County, New Mexico all to be drilled from the same surface pit location.

- Flowmaster 24 34 15 SB 8H with a proposed first take point located 660' FWL and 310' PNS of Section 15, T24S-R4E, and a proposed last take point located 660' FWL and 310' PNS of Section 15, T24S-R4E. The well interval is located in the 2" Bone Spring Formation (-1,112' TVD) with a productive interval length of approximately 4,621'. The total estimated drilling and completion cost is \$7,116,621 as shown in the attached AFE.
- Flowmaster 24 34 15 TBU 4H with a proposed first take point located 660' FWL and 310' PNS of Section 15, T24S-R4E, and a proposed last take point located 660' FWL and 310' PNS of Section 15, T24S-R4E. The well interval is located in the 2" Bone Spring Formation (-1,112' TVD) with a productive interval length of approximately 4,621'. The total estimated drilling and completion cost is \$7,241,601 as shown in the attached AFE.
- Flowmaster 24 34 15 SB 8H with a proposed first take point located 1,890' FWL and 310' PNS of Section 15, T24S-R4E, and a proposed last take point located 1,890' FWL and 310' PNS of Section 15, T24S-R4E. The well interval is located in the 2" Bone Spring Formation (-1,169' TVD) with a productive interval length of approximately 4,621'. The total estimated drilling and completion cost is \$7,117,561 as shown in the attached AFE.

These proposed locations and target depths are subject to change depending on any surface or subsurface concerns encountered. The AFEs and the proposed locations of the wells are subject to change depending on any surface or subsurface concerns encountered. The AFEs and the proposed locations of the wells are subject to change depending on any surface or subsurface concerns encountered. Those electing to participate in the wells are responsible for their proportionate share of the actual costs incurred.

MOP proposes drilling the well under the terms of the 1989 AAP, JOA and a form of this JOA will be sent to you following this proposal. The JOA will have these general provisions:

- 100% 200% 300% non-completion penalty
- \$7,000 \$700 drilling and completion cost
- Connect area of NW 3 Section 15, T24S-R4E, covering all depths

The working interest breakdown of this proposed contract area is as follows:

Marathon Oil Permian LLC	55.609375%
Chesna USA, Inc.	41.701250%
QuestEnergy Services Operating, LLC	1.660000%
MDC Permian LRP, Co.	0.781250%

Well Proposal Letter

Flowmaster 24 34 15 TBU 4H, Flowmaster 24 34 15 TBU 5H, and Flowmaster 24 34 15 SB 8H Letters sent to working interest owners – Page 2

Unblended 0.347:50%

If your election is to participate in the drilling and completion of the well, please sign and return a copy of this letter along with the enclosed APN within thirty (30) days of receipt of this proposal.

If you do not wish to participate, Marathon proposes to acquire your interest via term assignment at the following terms:

- * 3 year lease term
- * 12500 bonus consideration per net mineral acre
- * Delivering a 2% NGL, proportionately reduced

This term assignment offer terminates November 30, 2017 and is subject to due diligence and title verification satisfactory to Marathon.

Should you have any questions regarding this or other matters, please don't hesitate to contact me at the above listed numbers.

Sincerely,

Kevin O'Connell

Drilling Permit #
Permit #
DATE: 09/22/17

Permit Area: 1000
Field: RED HILLS, NORTH
Lease / Fracture: FLOWMASTER 24 34 15 TBU 4H
Operator: MARATHON OIL PERMIAN LLC
Location: 0
State: NEW MEXICO
County/Parish: LEA
Estimated Start Date: 21-Apr-2018
Estimated Completion Date: 22-May-2018
Estimated Gross Cost This AFE: \$7,116,421

Project Description & Reason for Expenditure
This well is planned to be drilled and completed with multistage fracturing using plug and perf. The estimated cost of drilling, testing, completion, and equipping the well is \$7,116,421 as detailed in the provided authority for expenditure document. This will include installation of transitional and long term artificial lift systems.
The well will be drilled to a total vertical depth of 11,112' and a total measured depth of 16,011', with an estimated feasible lateral length of 4,021' in the 2nd Bone Spring formation and will be completed with an estimated 30 stages and approximately 2,500 boft of proppant.

Estimated Gross Cost This AFE: \$7,341,801

Project Description & Reason for Expenditure:
Drill, Complete, & Equip a Horizontal Well

This well is planned to be drilled and completed with multistage fracturing using plug and perfor. The estimated cost of drilling, testing, completing, and equipping the well is \$7,341,801 as detailed in the provided summary for expenditure document. This well includes installation of transitional and long term artificial lift systems.
The well will be drilled to a total vertical depth of 12,000' and a total measured depth of 16,882' with an estimated testable lateral length of 4,621' in the 3rd Bone Spring formation and will be completed with an estimated 30 stages and approximately 2,500 barrels of proppant.

**Re: APPLICATION OF MARATHON OIL PERMIAN LLC FOR A
NON-STANDARD SPACING AND PRORATION UNIT, NON-
STANDARD LOCATIONS, AND COMPULSORY POOLING, LEA
COUNTY, NEW MEXICO.**

Case No. 15908

TO: POOLED PARTIES AND OFFSETS

This letter is to advise you that Marathon Oil Permian, LLC ("Marathon") has filed the enclosed application with the New Mexico Oil Conservation Division seeking an order (1) creating a non-standard 160-acre, more or less, spacing and proration unit in the Bone Spring formation, comprised of the W/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; and, (2) approving non-standard locations; and (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit for the development of the **Flowmaster 24 34 15 TBU 004H** and **Flowmaster 24 34 15 TBU 005H** wells.

This application has been set for hearing before a Division Examiner at 8:15 a.m. on December 21, 2017. The hearing will be held in Porter Hall in the Oil Conservation Division's Santa Fe Office located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. As a party who may be affected by this application, we are notifying you of your right to appear at the hearing and participate in this case, including the right to present evidence either in support of or in opposition to the application. Failure to appear at the hearing may preclude you from any involvement in this case at a later date.

You are further notified that if you desire to appear in this case, then you are requested to file a Pre-Hearing Statement with the Division not later than 5:00 PM on December 14, 2017, with a copy delivered to the undersigned.

**APPLICATION OF MARATHON
OIL PERMIAN LLC FOR A NON-STANDARD
SPACING AND PRORATION UNIT,
NON-STANDARD LOCATIONS,
AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

CASE NO. _____

APPLICATION

Marathon Oil Permian LLC ("Marathon"), OGRID Number 372098, through its undersigned attorneys, hereby makes an application to the Oil Conservation Division pursuant to the provisions of NMSA (1978), Section 70-2-17, for an order: (1) creating a non-standard 160-acre, more or less, spacing and proration unit in the Bone Spring formation, comprised of the W/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; and, (2) approving non-standard locations; and (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit. In support of this application, Marathon states as follows:

1. Marathon is an interest owner in the subject lands and has a right to drill a well thereon.
2. Marathon seeks to dedicate the W/2 W/2 of Section 15 to the proposed wells to form a non-standard 160-acre, more or less, oil spacing and proration unit (the "project area").

3. Marathon plans to drill the **Flowmaster 24 34 15 TBU 004H** and **Flowmaster 24 34 15 TBU 005H** wells to a depth sufficient to test the Bone Spring formation. These wells will be drilled simultaneously and will be pad drilled.

4. The **Flowmaster 24 34 15 TBU 004H** well will be drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 15 to a bottom hold location in the SW/4 SW/4 (Unit M) of Section 15. The first and last perforation for this well will be unorthodox. The first perforation will be 150' from the North line and 662' from the West line, and the bottom hole location will be located 150' from the South line and 661' from the West line.

5. The **Flowmaster 24 34 15 TBU 005H** well will be drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 15 to a bottom hold location in the SW/4 SW/4 (Unit M) of Section 15. The first and last perforation for this well will be unorthodox. The first perforation will be 150' from the North line and 662' from the West line, and the bottom hole location will be located 150' from the South line and 661' from the West line.

6. These wells are within the Red Hills; Bone Spring, North pool (Pool Code 96434), which is subject to the statewide rules. Other than as listed above, the producing interval that Marathon seeks to drill will comply with the 330 foot setback requirements established under the rules.

7. Marathon sought, but has been unable to obtain a voluntary agreement from all interest owners in the Bone Spring formation underlying the proposed project area to participate in the drilling of the wells or to otherwise commit their interests to the wells.

8. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

9. Approval of the non-standard unit and the pooling of all interests in the Bone Spring formation underlying the proposed project area will prevent the drilling of unnecessary wells, prevent waste and protect correlative rights.

WHEREFORE, Marathon Corp. requests this application be set for hearing before an Examiner of the Oil Conservation Division on December 21, 2017, and after notice and hearing as required by law, the Division enter its order:

A. Creating a non-standard oil spacing and proration unit ("project area") in the Bone Spring formation comprised of W/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico;

B. Approving non-standard locations for these wells;

C. Pooling all mineral interests in the Bone Spring formation underlying this non-standard spacing and proration unit/project area;

D. Designating Marathon as operator of this unit and the wells to be drilled thereon;

E. Authorizing Marathon to recover its costs of drilling, equipping and completing these wells;

F. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and

G. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS
& SISK, P.A.

Attorneys for Applicant

CASE NO. _____: Application of Marathon Oil Permian LLC for a non-standard spacing and proration unit, non-standard locations, and compulsory pooling, Lea County, New Mexico. Applicant seeks an order from the Division: (1) creating a non-standard 160-acre, more or less, spacing and proration unit in the Bone Spring formation, comprised of the W/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; (2) approving non-standard locations; and, (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit. This proposed non-standard spacing and proration unit will be the project area for the **Flowmaster 24 34 15 TBU 004H** and **Flowmaster 24 34 15 TBU 005H wells**, to be horizontally drilled. The producing area for these wells will be unorthodox, less than 330 feet from the project area boundary. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Marathon as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 17 miles northwest of Jal, New Mexico.

**Re: APPLICATION OF MARATHON OIL PERMIAN LLC FOR A
NON-STANDARD OIL SPACING AND PRORATION UNIT, NON-
STANDARD LOCATION, AND COMPULSORY POOLING, LEA
COUNTY, NEW MEXICO.**

Case No. 15909

TO: POOLED PARTIES AND OFFSETS

This letter is to advise you that Marathon Oil Permian, LLC ("Marathon") has filed the enclosed application with the New Mexico Oil Conservation Division seeking an order (1) creating a non-standard 160-acre spacing a proration unit in the Bone Spring formation, comprised of the E/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; (2) approving non-standard locations; and (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit for the development of the **Flowmaster 24 34 15 SB 8H** well.

This application has been set for hearing before a Division Examiner at 8:15 a.m. on December 21, 2017. The hearing will be held in Porter Hall in the Oil Conservation Division's Santa Fe Office located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. As a party who may be affected by this application, we are notifying you of your right to appear at the hearing and participate in this case, including the right to present evidence either in support of or in opposition to the application. Failure to appear at the hearing may preclude you from any involvement in this case at a later date.

You are further notified that if you desire to appear in this case, then you are requested to file a Pre-Hearing Statement with the Division not later than 5:00 PM on December 14, 2017, with a copy delivered to the undersigned.

**APPLICATION OF MARATHON
OIL PERMIAN LLC FOR A NON-STANDARD
OIL SPACING AND PRORATION UNIT,
NON-STANDARD LOCATION,
AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO**

CASE NO. _____

APPLICATION

Marathon Oil Permian LLC ("Marathon"), OGRID Number 372098, through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17, for an order: (1) creating a non-standard 160-acre spacing a proration unit in the Bone Spring formation, comprised of the E/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; (2) approving non-standard locations; and (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit. In support of this application, Marathon states:

1. Marathon is an interest owner in the subject lands and has a right to drill a well thereon.
2. Marathon plans to drill and complete the **Flowmaster 24 34 15 SB 8H**, which is a horizontal well that will develop the Red Hills Bone Spring, North Pool (Pool Code 96434) underlying the E/2 W/2 of Section 15 to the proposed well to form a non-standard 160-acre oil spacing and proration unit (the "project area").

3. The **Flowmaster 24 34 15 SB 8H** well will be drilled from NE/4 NW/4 (Unit C) of Section 15 to a bottom hole location in the SE/4 SW/4 (Unit N) of Section 15. The first and last perforations for this well will be unorthodox. The first perforation will be 150' from the North line and 1,985' from the West line, and the last perforation will be located 150' from the South line and 1,984' from the West line. Other than the first and last perforations for this well, the completed interval will comply with the 330' setbacks required by the Division's rules.

4. The Red Hills Bone Spring, North Pool (Pool Code 96434) is subject to the Division's statewide rule providing for 40 acre spacing units.

5. Marathon plans to develop each 40 acre spacing unit within the project area.

6. Marathon sought, but has been unable to obtain a voluntary agreement from all interest owners in the Red Hills Bone Spring, North formation underlying the proposed project area to participate in the drilling of the wells or to otherwise commit their interests to the wells.

7. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

8. In order to permit Marathon to obtain its just and fair share of the oil and gas underlying the subject lands, all interests in this non-standard spacing unit should be pooled and Marathon should be designated operator of the proposed horizontal wells and spacing unit.

9. Notice of this application is being given in accordance with Division rules.

WHEREFORE, Marathon requests that this application be set for hearing before an Examiner of the Oil Conservation Division on December 21, 2017, and, after notice and hearing as required by law, the Division enter an order:

A. Creating a 160-acre non-standard spacing and proration unit in the Bone Spring formation, comprised of the E/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico;

B. Approving non-standard locations;

C. Pooling all mineral interests in the non-standard spacing and proration unit;

D. Designating Marathon Oil Permian LLC operator of this non-standard spacing unit and the horizontal wells to be drilled thereon;

E. Authorizing Marathon to recover its costs of drilling, equipping and completing the wells;

F. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

G. Imposing a 200% penalty for the risk assumed by Marathon in drilling, completing and equipping the wells against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS
& SISK, P.A.

Attorneys for Applicant

CASE NO. _____: Application of Marathon Oil Permian LLC for a non-standard spacing and proration unit, non-standard locations, and compulsory pooling, Lea County, New Mexico. Applicant seeks an order (1) creating a non-standard 160-acre spacing a proration unit in the Bone Spring formation, comprised of the E/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; (2) approving non-standard locations; and (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit. This proposed non-standard spacing and proration unit will be the project area for the **Flowmaster 24 34 15 SB 8H well**, to be horizontally drilled. The producing area for this well will be unorthodox, located less than 330 feet from the project area boundary. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Marathon as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 17 miles northwest of Jal, New Mexico.

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF MARATHON
OIL PERMIAN LLC FOR A NON-STANDARD
SPACING AND PRORATION UNIT,
NON-STANDARD LOCATIONS,
AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

CASE NO. 15908

AMENDED APPLICATION

Marathon Oil Permian LLC ("Marathon"), OGRID Number 372098, through its undersigned attorneys, hereby makes an application to the Oil Conservation Division pursuant to the provisions of NMSA (1978), Section 70-2-17, for an order: (1) creating a non-standard 160-acre, more or less, spacing and proration unit in the Bone Spring formation, comprised of the W/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; and, (2) approving non-standard locations; and (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit. In support of this application, Marathon states as follows:

1. Marathon is an interest owner in the subject lands and has a right to drill a well thereon.
2. Marathon seeks to dedicate the W/2 W/2 of Section 15 to the proposed wells to form a non-standard 160-acre, more or less, oil spacing and proration unit (the "project area").

3. Marathon plans to drill the **Flowmaster 24 34 15 TBU 004H** and **Flowmaster 24 34 15 TBU 005H** wells to a depth sufficient to test the Bone Spring formation. These wells will be drilled simultaneously and will be pad drilled.

4. The **Flowmaster 24 34 15 TBU 004H** well will be drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 15 to a bottom hold location in the SW/4 SW/4 (Unit M) of Section 15. The first and last perforation for this well will be unorthodox. The first perforation will be 200' from the North line and 662' from the West line, and the bottom hole location will be located 200' from the South line and 661' from the West line.

5. The **Flowmaster 24 34 15 TBU 005H** well will be drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 15 to a bottom hold location in the SW/4 SW/4 (Unit M) of Section 15. The first and last perforation for this well will be unorthodox. The first perforation will be 200' from the North line and 662' from the West line, and the bottom hole location will be located 200' from the South line and 661' from the West line.

6. These wells are within the Red Hills; Bone Spring, North pool (Pool Code 96434), which is subject to the statewide rules. Other than as listed above, the producing interval that Marathon seeks to drill will comply with the 330 foot setback requirements established under the rules.

7. Marathon sought, but has been unable to obtain a voluntary agreement from all interest owners in the Bone Spring formation underlying the proposed project area to participate in the drilling of the wells or to otherwise commit their interests to the wells.

8. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

9. Approval of the non-standard unit and the pooling of all interests in the Bone Spring formation underlying the proposed project area will prevent the drilling of unnecessary wells, prevent waste and protect correlative rights.

WHEREFORE, Marathon Corp. requests this application be set for hearing before an Examiner of the Oil Conservation Division on December 21, 2017, and after notice and hearing as required by law, the Division enter its order:

- A. Creating a non-standard oil spacing and proration unit (“project area”) in the Bone Spring formation comprised of W/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico;
- B. Approving non-standard locations for these wells;
- C. Pooling all mineral interests in the Bone Spring formation underlying this non-standard spacing and proration unit/project area;
- D. Designating Marathon as operator of this unit and the wells to be drilled thereon;
- E. Authorizing Marathon to recover its costs of drilling, equipping and completing these wells;
- F. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- G. Setting a 200% charge for the risk involved in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS
& SISK, P.A.

OIL CONSERVATION DIVISION**

**APPLICATION OF MARATHON
OIL PERMIAN LLC FOR A NON-STANDARD
OIL SPACING AND PRORATION UNIT,
NON-STANDARD LOCATION,
AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO**

CASE NO. 15909

AMENDED APPLICATION

Marathon Oil Permian LLC ("Marathon"), OGRID Number 372098, through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17, for an order: (1) creating a non-standard 160-acre spacing a proration unit in the Bone Spring formation, comprised of the E/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; (2) approving non-standard locations; and (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit. In support of this application, Marathon states:

1. Marathon is an interest owner in the subject lands and has a right to drill a well thereon.
2. Marathon plans to drill and complete the **Flowmaster 24 34 15 SB 8H**, which is a horizontal well that will develop the Red Hills Bone Spring, North Pool (Pool Code 96434) underlying the E/2 W/2 of Section 15 to the proposed well to form a non-standard 160-acre oil spacing and proration unit (the "project area").

3. The **Flowmaster 24 34 15 SB 8H** well will be drilled from NE/4 NW/4 (Unit C) of Section 15 to a bottom hole location in the SE/4 SW/4 (Unit N) of Section 15. The first and last perforations for this well will be unorthodox. The first perforation will be 200' from the North line and 1,985' from the West line, and the last perforation will be located 200' from the South line and 1,984' from the West line. Other than the first and last perforations for this well, the completed interval will comply with the 330' setbacks required by the Division's rules.

4. The Red Hills Bone Spring, North Pool (Pool Code 96434) is subject to the Division's statewide rule providing for 40 acre spacing units.

5. Marathon plans to develop each 40 acre spacing unit within the project area.

6. Marathon sought, but has been unable to obtain a voluntary agreement from all interest owners in the Red Hills Bone Spring, North formation underlying the proposed project area to participate in the drilling of the wells or to otherwise commit their interests to the wells.

7. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

8. In order to permit Marathon to obtain its just and fair share of the oil and gas underlying the subject lands, all interests in this non-standard spacing unit should be pooled and Marathon should be designated operator of the proposed horizontal wells and spacing unit.

9. Notice of this application is being given in accordance with Division rules.

WHEREFORE, Marathon requests that this application be set for hearing before an Examiner of the Oil Conservation Division on December 21, 2017, and, after notice and hearing as required by law, the Division enter an order:

- A. Creating a 160-acre non-standard spacing and proration unit in the Bone Spring formation, comprised of the E/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico;
- B. Approving non-standard locations;
- C. Pooling all mineral interests in the non-standard spacing and proration unit;
- D. Designating Marathon Oil Permian LLC operator of this non-standard spacing unit and the horizontal wells to be drilled thereon;
- E. Authorizing Marathon to recover its costs of drilling, equipping and completing the wells;
- F. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- G. Imposing a 200% penalty for the risk assumed by Marathon in drilling, completing and equipping the wells against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS
& SISK, P.A.

LEGAL NOTICE
December 7, 2017

CASE No. 15908: Notice to all affected parties, as well as the heirs and devisees of MRC Permian LKE CO; Tap Rock Resources, LLC; Chevron USA, Inc.; OneEnergy Partners Operating, LLC; West Texas A&M University; Ohio State University; Oak Valley Mineral and Land, LP; Marvos Minerals, LLC; Foundation Minerals, LLC; Chisos Minerals, LLC; MRC Permian Company; COG Operating LLC/COG Production, LLC; EOG Resources, Inc.; OXY USA WTP, LLC; Centennial Resource Production, LLC; Chevron USA, Inc.; Synergy Land Group LLC; Energen Resources Corp.; Bergfeld Land & Minerals Group LLC; Tap Rock Resources, LLC; Shamrock Royalty LLC; Y-20 II, LLC; Yakka III, LLC; Crood Fund I LP; Chisos Mineral, LLC; Llano Natural Resources; Darbe Daniels Nokes; Keith Pratt Daniels; Foundation Minerals, LLC; Marvos Minerals, LLC; Oak Valley Mineral & Land, LP; Pamela Dennis Dial; Estate of Cyle Britton Atwood of Marathon Oil Permian, LLC's application for a non-standard oil spacing and proration unit, non-standard locations and compulsory pooling, Lea County New Mexico. The State of New Mexico, through its Oil Conservation Division, hereby gives notice that the Division will conduct a public hearing at 8:15 a.m. on December 21, 2017, to consider this application. Applicant seeks an order (1) creating a non-standard 160-acre, more or less, spacing and proration unit in the Bone Spring formation, comprised of the W/2 W/2 of Section 15, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; and, (2) approving non-standard locations and (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit. This proposed spacing and proration unit will be the project area for the Flowmaster 24 34 15 TBU 004H and Flowmaster 24 34 15 TBU 005H wells to be drilled horizontally. The producing lateral for these wells will include unorthodox perforations that will be located 200' from the North line and 662' from the West line of Section 15, 200' from the South line and 661' from the West line of Section 15, 200' from the North line and 662' from the West line of Section 15, and 200' from the South line and 661' from the West line of Section 15. Also to be considered will be the cost of drilling and completing said well, the allocation of these costs as well as the actual operating costs and charges for supervision designation of Marathon Oil Permian, LLC as operator of the well, and a 200% charge for risk involved in drilling said well. Said unit is located approximately 17 miles northwest of Jal, New Mexico. #32306
