Attention: Matt S. Tate

Mr. Tate:

BTA Oil Producers, LLC ("BTA") proposes to drill the BTA-Ogden 20509 32-29 Fed Com #5H well ("the Ogden #5H"). Records indicate that Marathon Oil Permian LLC ("Marathon") owns a 29.6875% working interest in the above described lands. Enclosed for your review and approval are two (2) original AFE(s) to drill and complete the Ogden #5H, a proposed 17,142' MD, and 9,450' TVD horizontal Wolfcamp Sand well with the SHL of 2472' FNL 1,357' FWL of Sec 32, T23S, R28E in Eddy County, New Mexico. The 480 acre spacing unit for the Ogden #5H covers the W/2 of Section 29 and the NW/4 of Section 32, Township 23 South, Range 28 East in Eddy County, New Mexico. Please note that the Ogden #5H is a horizontal well and there will not be a casing point election. The election to participate in drilling the Ogden #5H is also an election to participate in the completion of the Ogden #5H.

Should you elect to participate in the drilling of the Ogden #5H, please so indicate in the space provided and return one (1) executed copy of this letter to the undersigned along with one (1) executed copy of the AFE. The anticipated spud date of the Ogden #5H is March 2017.

Should you have any questions, or wish to discuss, please call me at (432) 682-3753.

	Respectionly,
	Ashley Beal, RFL

10/25/2017: BTA sent well proposals for the Ogden #5H & #6H

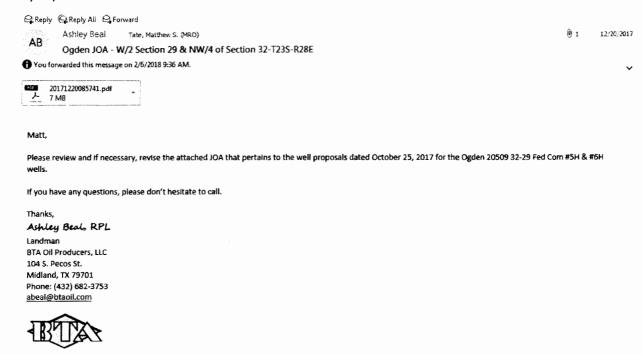

11/9/2017: Sent up meeting with Marathon to discuss options

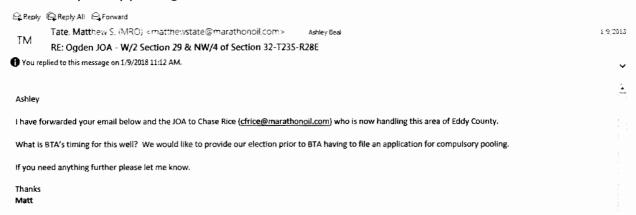

11/15/2017: Meet with Marathon in Houston. Matt Brown told Willis and I that they
would either find a trade or participate. He said they did not want us to have to do
compulsory pooling.

11/9/2017

Submitted by: BTA OIL PRODUCERS Special Hearing Date: April 24, 2018 12/20/2017: Sent JOA

 1/9/2018: Marathon stated they would like to provide their election before we had to file for compulsory pooling

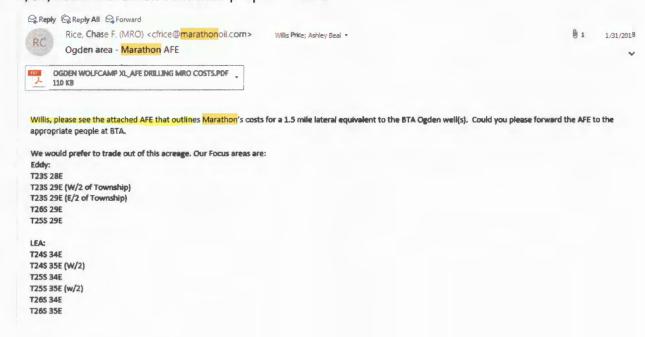

#### • 1/10/2018: Marathon proposed trade options

Reply Reply All A Forward Rice, Chase F. (MRO) < cfrice@marathonoil.com> 1/10/2018 RE: Ogden JOA - W/2 Section 29 & NW/4 of Section 32-T23S-R28E 1 You replied to this message on 1/11/2018 2:25 PM. Ashley, just out of curiosity but do y'all have any acreage you would like to trade out of in 23S 28E, 23S 29E, 24S 28E or 24S 29E? for Marathon's int in the Ogden? From: Ashley Beal [mailto:ABeal@btaoil.com] Sent: Tuesday, January 09, 2018 11:13 AM To: Rice, Chase F. 1/22/2018: Marathon subsurface team had questions about well costs

- 1/30/2018: Conference call with Marathon about proposed wells
- 1/31/2018: Marathon sent their proposed costs

• 2/5/2018: BTA sent revised AFEs to accommodate Marathon's concerns with AFE costs

2/12/2018: Marathon said they would get a response to us about our proposals and JOA

#### **TIMELINE**

June-October 2017: Trade discussions involving Section 29

October 25, 2017: BTA formally proposes Ogden 5H and 6H Wolfcamp wells for 480-acre

spacing unit comprised of W/2 of Section 29 and NW/4 of Section 32

November 15, 2017: At Houston meeting, Marathon represents it will trade acreage or

participate

December 20, 2017: JOA sent to Marathon

**January 9, 2018:** Marathon represents it will provide an election on Ogden wells without

need for compulsory pooling

January 22, 2018: Marathon questions AFE costs

**February 5, 2018:** BTA provides update AFE costs for Ogden 5H and 6H wells

February 12, 2018: Marathon represents will provide "feedback" on JOA

February 19, 2018: Marathon sends competing well proposals to BTA (Zeus 12H, 15H, 17H)

February 20, 2018: BTA files compulsory pooling application for Ogden 5H and 6H

March 23, 2018: Marathon files competing compulsory pooling application for Zeus 12H,

15H and 17H wells.

April 10, 2018: BTA proposes Ogden 7H and 8H wells in lower Wolfcamp D under 480-

acre spacing unit to address Marathon's lease concerns.

BTA also proposes Ogden 9H (W/2 W/2) and 10H (E/2 W/2) in the Bone

Spring formation to further develop the acreage

#### Ladies & Gentlemen:

This letter is to advise you that BTA Oil Producers, LLC has filed the enclosed application with the New Mexico Oil Conservation Division. This application will be set for hearing before a Division Examiner at 8:15 a.m. on March 22, 2018. The hearing will be held in Porter Hall in the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter please contact Ashley Beal at (432) 682-3753 or abeal@btaoil.com.

Sincerely,

Adam G. Rankin

ATTORNEY FOR BTA OIL PRODUCERS, LLC

#### <u>VIA CERTIFIED MAIL</u> RETURN RECEIPT REQUESTED

TO: OFFSETTING LESSEES AND OPERATORS

Re: Application of BTA Oil Producers, LLC for a non-standard spacing and

proration unit and compulsory pooling, Eddy County, New Mexico.

BTA-Ogden 20509 32-29 Fed Com #5H Well BTA-Ogden 20509 32-29 Fed Com #6H Well

This letter is to advise you that BTA Oil Producers. has filed the enclosed application with the New Mexico Oil Conservation Division. *Your interests are not being pooled under this application*, but as a lessee or operator in an offsetting tract, you are entitled to notice of this application.

This application has been set for hearing before a Division Examiner at 8:15 AM on March 22, 2018. The hearing will be held in Porter Hall in the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-Hearing Statement with the Oil Conservation Division's Santa Fe office, four business days in advance of a scheduled hearing, but at least on the Thursday preceding the hearing. This statement must include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter please contact Ashley Beal at (432) 682-3753 or abeal@btaoil.com.

Sincerely,

Adam G. Rankin

ATTORNEY FOR BTA OIL PRODUCERS, LLC

#### **Shipment Confirmation Acceptance Notice**

Note to Mailer: The labels and volume associated to this form online, must match the labeled packages being presented to the USPS® employee with this form.

BTA-Ogden 20509 32-29 #5H Case No. 16024 - Offset Parties - Shipment Date: 03/02/2018

Shipped From:

Name:\_HOLLAND & HART LLP

Address: 110 N GUADALUPE ST # 1

City: SANTA FE

State: NM ZIP+4® 87501

Type of Mail	Volume
Priority Mail Express®*	·
Priority Mail®	0
First-Class Package Service®

Case No. 16024: **Amended Application of** BTA Oil Producers, LLC for a non-standard spacing and proration unit and compulsory pooling. **Eddy County, New Mexi-**Applicant in the above-styled cause seeks an order (1) authorizing a non-standard, 160-acre spacing unit in the Purple Sage Wolfcamp Gas Pool (98220); (2) combining

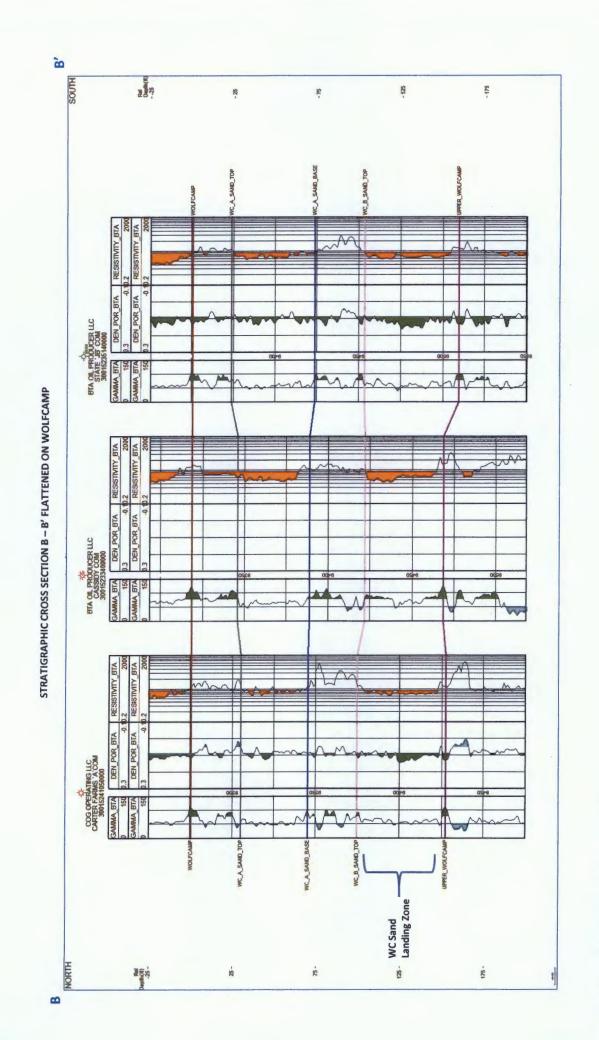

160-acre that standard spacing with a standard 320-acre spacing unit to create a 480-acre non-standard spacing and proration unit comprised of the W/2 of Section 29 and the NW/4 of Section 32, Township 23 South, Range 28 East, NMPM, Eddy County, New Mexico; and (3) pooling all uncommitted interests in the Wolfcamp formation underlying this acreage. Said non-standard unit is to be the project area for two proposed initial wells, to be drilled and simultaneously completed: the proposed BTA-Ogden 20509 32-29 Fed Com #5H Well and the proposed BTA-Ogden 20509 32-29 Fed Com #6H Well. The BTA-Ogden 20509 32-29 Fed Com #5H Well has a standard surface location in the SE/4 NW/4 (Unit F) of Section 32 with a standard bottom hole location in the NE/4 NW/4 (Unit C) of Section 29. The BTA-Ogden 20509 32-29 Fed Com #6H Well will have a standard surface hole location in the SW/4 NW/4 (Unit E) of Section 32 with a standard bottom hole location in the NW/4 NW/4 (Unit D) of Section 29. completed interval for the each will remain within the 330-foot standard offset required by the Special Rule for the Purple Sage Wolfcamp Gas Pool (Pool Code 98220). Also to be considered will be the cost of drilling and completing said wells and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of BTA Oil Producers, LLC as operator of the wells and a 200% charge for risk involved in drilling said well. Said area is located approximately 2 miles southwest of Loving, N.M. Legal #1237797

# **OIL & GAS LEASE**

THIS LEASE AGREEMENT (the "Lease") is made this 11th day of January, 2016, but effective August 24, 2016, (the "Effective Date"), between Pardue Limited Company, whose mailing address is P.O. Box 2018, Carlsbad, N.M. 88221, the "Lessor" (whether one or more), and Featherstone Development Corporation, whose mailing address is P.O. Box 429, Roswell, N.M. 88202-0429, the "Lessee".

1. Lessor, in consideration of TEN DOLLARS and other consideration, the receipt of which is acknowledged, and of the royalties and agreements of the Lessee provided for in this Lease, grants, leases and lets exclusively to Lessee for the purpose of investigating, by geological, geophysical, seismic and other means, exploring, prospecting, drilling, and operating for and producing oil and gas, injecting gas, waters, other fluids, and air into subsurface strata, laying pipelines, storing oil, building tanks, roadways, telephone lines, and other structures and things to produce, save, take care of, treat, process, store and transport said minerals, the following described land in Eddy County, New Mexico.

### Township-23-South, Range-28-East, N.M.P.M.

Section 29: SE/4NW/4, E/2SW/4, SW/4SW/4

\*Whether listed above or not, this Oil & Gas Leave covers All of Lessor's minerals in Section 29 of Township-23-South, Range-28-East, N.M.P.M.

The land is estimated to comprise 160.0 acres, whether it actually comprises more or less, and are referred to as the "land" or the "lease premises."

- 2. Subject to the other provisions herein contained, this Lease shall remain in force for a term of Three (3) years from the Effective Date (the "primary term"), and as long thereafter as oil or gas is produced from the land or from land with which the land is pooled.
- 3. The royalties to be paid by Lessee are: (a) on oil, and other liquid hydrocarbons saved at the well, 1/4 of that produced and saved from the land, the same to be delivered at the wells or to the credit of Lessor in the pipeline to which the wells may be connected; (b) on gas, including casinghead gas or other gaseous substance produced from the land and used off the lease premises or used in the manufacture of gasoline or other products, the market value at the well of 1/4 of the gas used, provided that on gas sold on or off the lease premises, the royalties shall be 1/4 of the amount realized from the sale; (c) and at any time when this Lease is not validated by other provisions and there is a gas and/or condensate well on the land, or land pooled with the land, is not being sold or used and the well is shut in, either before or after production, then on or before 90 days after the well is shut in, and thereafter at annual intervals, Lessee may pay or tender an advance shut-in royalty equal to \$1.00 per net acre of Lessor's gas acreage then held under this Lease by the party making the payment or tender, and so long as the shut-in royalty is paid or tendered this Lease shall not terminate and it shall be considered under its terms that gas is being produced from the leased premises in paying quantities. Each payment shall be paid or tendered to the party or parties who at the time of the payment would be entitled to receive the royalties which would be paid under this Lease if the well were in fact producing. The payment or tender of royalties and shut-in royalties may be made by check or draft. Any timely payment or tender of shut-in royalty which is made in a bona fide attempt to make proper payment, but which is erroneous in whole or in part as to parties or amounts, shall nevertheless be sufficient to prevent termination of this Lease in the same manner as though a proper payment had been made if Lessee shall correct the error within 30 days after Lessee has received written notice by certified mail from the party or parties entitled to receive payment together with the written instruments (or certified copies) as are necessary to enable Lessee to make proper payment. The amount realized from the sale of gas on or off the lease premises shall be the price established by the gas sales contract entered into in good faith by Lessee and gas purchaser for the term and under the conditions as are customary in the industry. "Price" shall mean the net amount received by Lessee after giving effect to applicable regulatory orders and after application of any applicable price adjustments specified in the contract or regulatory orders.
- 4. This is a Paid-Up Lease and Lessee shall not be obligated during the primary term to commence or continue any operations of any character or to make any payments in order to maintain this Lease in force during the primary term; however, this provision is not intended to relieve Lessee of the obligation to pay royalties on actual production pursuant to the provision of paragraph 3 above.
- 5. Lessee is granted the right and power, from time to time, to pool or combine this Lease, the land covered by it, or any part, subsurface depth, or horizon of the land with any other land, leases or mineral estates, for the production of oil or gas. Units pooled by the terms of this Lease shall not exceed the standard proration unit fixed by law or by the Oil Conservation Division of the Energy and Minerals Department of the State of New Mexico or by any other lawful authority for the pool or area in which the land is situated, plus a tolerance of ten percent. Lessee shall file written unit designations

BEFORE THE OIL CONSERVATION DIVISION

in the county in which the lease premises are located and the units may be designated from time to time and either before or after the completion of wells. Drilling operations on or production from any part of any unit shall be considered for all purposes, except the payment of royalty, as operations conducted on or production from the land subject to this Lease. There shall be allocated to the land covered by this Lease included in any unit that portion of the total production of pooled minerals from wells in the unit, after deducting any used in Lease or unit operations, which the net oil or gas acreage in the land covered by this Lease included in the unit bears to the total number of surface acres in the unit. The production so allocated shall be considered for all purposes, including the payment or delivery of royalty, to be the entire production of pooled minerals from the portion of the land covered by this Lease and included in a unit in the same manner as though produced from the land under the terms of this Lease. Any pooled unit designated by Lessee, may be dissolved by Lessee by recording an appropriate instrument in the county where the land is situated at any time.

- 6. If at the expiration of the primary term there is no well on the land capable of producing oil or gas, but Lessee has commenced operations for drilling or reworking, this Lease shall remain in force so long as operations are prosecuted with no cessation of more than 60 consecutive days, whether the operations be on the same well or on a different or additional well or wells, and if they result in the production of oil or gas, so long thereafter as oil or gas is produced from the land. If, after the expiration of the primary term, all wells on the land should become incapable of producing for any cause, this Lease shall not terminate if Lessee commences operations for additional drilling or reworking within 60 days. If any drilling, additional drilling, or reworking operations result in production, then this Lease shall remain in full force so long thereafter as oil or gas is produced.
- 7. Lessee shall have free use of oil, gas and water from the land, except water from Lessor's wells and tanks, for all operations under this Lease, and the royalty shall be computed after deducting any so used. Lessee shall have the right at any time during or after the expiration of this Lease to remove all property and fixtures placed by Lessee on the land, including the right to draw and remove all casing. When required by Lessor, Lessee will bury all pipelines on cultivated lands below ordinary plow depth, and no well shall be drilled within two hundred feet (200 ft.) of any residence or barn now on the land without Lessor's consent.
- 8. The rights of Lessor or Lessee to this Lease may be assigned in whole or in part and the provisions of this Lease shall extend to their respective heirs, executors, administrators, successors and assigns; but no change in the ownership of the land or in the ownership of, or rights to receive, royalties or shut in royalties, however accomplished shall operate to enlarge the obligations or diminish the rights of Lessee; and no change or division shall be binding on Lessee for any purpose until 30 days after Lessee has been furnished by certified mail at Lessee's principal place of business with acceptable instruments or certified copies of them constituting the chain of title from the original Lessor. If any such change in ownership occurs through death of an owner, Lessee may, at its option, pay or tender any royalties or shut-in royalties in the name of the deceased or to the deceased's estate or heirs, executor, or administrator until the time Lessee has been furnished with evidence satisfactory to Lessee as to the persons entitled to the sums. An assignment of this Lease in whole or in part shall, to the extent of the assignment, relieve and discharge Lessee of any obligations under this Lease and, if Lessee or an assignce of a part or parts of this Lease shall fail or make default in the payment of the proportionate part of royalty or shut-in royalty due from the Lessee or an assignee or fall to comply with any of the provisions of this Lease, the default shall not affect this Lease insofar as it covers a part of the lands on which Lessee or any assignee shall properly comply or make the payments.
- 9. Should Lessee be prevented from complying with any express or implied covenant of this Lease, or from conducting drilling or reworking operations on this Lease, or from producing oil or gas by reason of scarcity or inability to obtain or use equipment or material, or by operation of force majeure, or by Federal or state law or any order, rule or regulation of governmental authority, then while so prevented, Lessee's duties under this Lease shall be suspended, and Lessee duly shall not be liable for failure to comply with the terms of this Lease; and, this Lease shall be extended while and so long as Lessee is prevented by any cause from conducting drilling or reworking operations or from producing oil or gas; and the time while Lessee is so prevented shall not be counted against Lessee, anything in this Lease to the contrary notwithstanding.
- 10. Lessor warrants and agrees to defend the title to the land and agrees that Lessee at its option may discharge any tax, mortgage or other lien on the land. In the event Lessee does so, it shall be subrogated to the lien with the right to enforce same and to apply royalties and shut-in royalties payable under the terms of this Lease toward satisfying same. Without impairment of Lessee's rights under the warranty, if this Lease covers a lesser interest in the oil or gas in all or any part of the land than the entire and undivided fee simple estate (whether Lessor's interest is specified or not) then the royalties, shut-in royalty, and other payments, if any, accruing from any part as to which this Lease covers less than the full interest, shall be paid only in the proportion which the interest, if any, covered by this Lease, bears to the whole and undivided fee simple estate in the land. Should any one or more of the parties named above as Lessors fail to execute this Lease, it shall nevertheless be binding on the party or parties executing the Lease.

- 11. Lessee and Lessee's successors, heirs and assigns, shall have the right at any time to surrender this Lease, in whole or in part, to Lessor or Lessor's heirs, successors, and assigns by delivering or mailing a release to the Lessor, or by placing a release of record in the county in which the land is situated. Then, Lessee shall be relieved from all obligations, expressed or implied of this Lease as to acreage surrendered, and then the shut-in royalty payable under the terms of this Lease shall be reduced in the proportion that the acreage covered by this Lease is reduced by the release or releases.
- 12. It is understood and agreed that this Oil & Gas Lease is expressly subordinate and subject to that certain existing Paid-Up Oil & Gas Lease ("Existing Lease") effective August 24, 2013, as recorded in Book 946, Page 96, in the Official Public Records of Eddy County, New Mexico, by and between Pardue Limited Company, as Lessor, and Featherstone Development Corporation as Lessee, insofar as said Existing Lease covers lands described herein, but only to the extent that said Existing Lease is currently a valid and enforceable Oil & Gas Lease. This Lease shall in no event interfere with said Existing Lease and Lessee shall have no right of entry or possession for the purpose of exercising Lessee's rights hereunder during such time and only as long as such Existing Lease remains valid and subsisting under its own terms (but not any renewal or extension thereof) as to any lands covered hereby. It is expressly agreed that this Lease shall be for a primary term of three (3) years from the Effective Date hereof. The Effective Date of this Lease shall be the day following the expiration or termination of the Existing Lease for any reason whatsoever, but in no event later than August 24, 2016. Lessor represents and warrants that Lessor has not entered into, and will not enter into, any renewal or agreement to renew said Existing Lease or amend said Existing Lease so as to extend the primary term thereof as set forth or recorded therein. Lessor also warrants there are no other top leases on any of the lease premises and agrees that no other top leases covering all or any part of the lease premises will be executed by Lessor. Lessor further warrants that they will not extend or amend the existing lease.

#### SEE ATTACHED EXHIBIT "A" FOR ADDITIONAL PROVISIONS

This Lease is executed by the Leasor as of the date of the acknowledgment below, but shall be deemed effective as of the Effective Date stated above.

Lessor:

Pardue Limited Company

#### EXHIBIT "A"

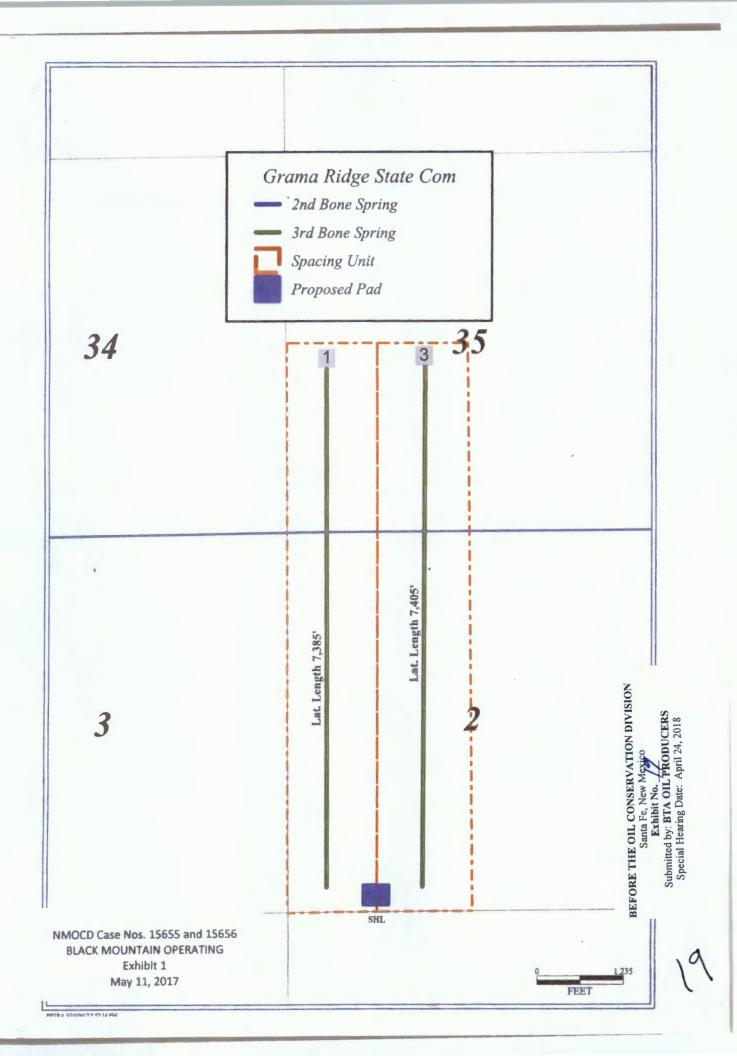

Exhibit "A" being attached to and made a part of that certain Oil & Gas Lease dated 11th day of January, 2016, but effective August 24, 2016, by and between Pardue Limited Company ("Lessor"), and Featherstone Development Corporation, ("Lessee").

- 13. Notwithstanding anything contained herein to the contrary, Lessee shall not be allowed after the end of the primary term to maintain this lease in force and effect as to any portion of the leased premises by payment of shut-in gas well royalty payments for any period longer than two (2) in aggregate years, at which time this Lesse shall automatically terminate.
- 14. Notwithstanding anything contained herein to the contrary, at the expiration of the primary term hereof, this lease shall terminate as to all lands which are not included within a lawful proration unit established by the New Mexico Oil Conservation Division for wells producing in paying quantities, unless Lessee is then engaged in drilling operations and completes a well, either as a dry hole or a producer, within one hundred twenty (120) days from the expiration date of the primary term. If Lessee is, at the expiration of the primary term, then engaged in actual drilling operations and Lessee completes a well within one hundred twenty (120) days from the expiration date of the primary term, either as a dry hole or a producer, this lease shall remain in full force and effect as to all lands and depths covered hereby for so long as diligent operations shall continue to completion or abandonment of each well, and for so long thereafter as operations for drilling continue to be conducted with no more than one hundred twenty(120) days clapsing between the completion or abandonment of one well and the commeacement of actual drilling operations of the next well. After the expiration of the primary term or the continuous drilling program, whichever occurs last, Lessee shall thereupon within thirty (30) days record a written Release in the records of Eddy County, New Maxico, of all acreage not dedicated to a producing proration unit for wells producing in paying quantities, together with all depths and horizons which are one hundred feet (100') below the stratigraphic equivalent of the deepest producing depth by Leases for each well capable of producing in paying quantities. In the event Lessee fails to so record such Release, then following Lessee's failure to do so within thirty (30) days from the date of written demand for such Release is mailed from Lessor to Lessoe, Lessor may thereafter proceed to execute and file such Release in the county records which shall have the same effect as if filed by Lessee and Lesses irrevocably appoints Lessor as its agent to so execute and file the Release in accordance with the terms of this paragraph. "Producing in paying quantities" shall be construed to mean production of oil or gas in sufficient quantities as to yield a profit in excess of operating costs calculated on a monthly basis. A well shall be determined to be completed on the day Lessee releases the drilling rig used to drill such well, or the date such rig is moved off the location, whichever date occurs first, and a well shall be determined to be commenced when such well is spudded.

15. Norwithstanding anything contained herein to the contrary, it is expressly agreed that all royalty to be paid under this Lease shall be delivered to Lessor free and without charge of all costs of transportation, compression, processing, treatment, purification, dehydration, separation, stabilization, manufacturing, measuring, or marketing the oil, gas, or other hydrocarbons covered by this Lease.

END OF EXHIBIT "A"

## STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

IN THE MATTER OF THE HEARING CALLED BY THE OIL CONSERVATION DIVISION FOR THE PURPOSE OF CONSIDERING:

APPLICATION OF BLACK MOUNTAIN OPERATING, LLC FOR A NONSTANDARD OIL SPACING AND PRORATION UNIT, COMPULSORY POOLING AND AN UNORTHODOX WELL LOCATION, LEA COUNTY, NEW MEXICO. CASE NO. 15655

Consolidated with

APPLICATION OF BLACK MOUNTAIN OPERATING, LLC FOR A NONSTANDARD OIL SPACING AND PRORATION UNIT, COMPULSORY POOLING AND AN UNORTHODOX WELL LOCATION, LEA COUNTY, NEW MEXICO. CASE NO. 15656

Consolidated with

APPLICATION OF GMT EXPLORATION COMPANY, LLC FOR A NONSTANDARD OIL SPACING AND PRORATION UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NO. 15659

Consolidated with

APPLICATION OF GMT EXPLORATION COMPANY, LCC FOR A NONSTANDARD OIL SPACING AND PRORATION UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NO. 15660

REPORTER'S TRANSCRIPT OF PROCEEDINGS

EXAMINER HEARING

July 20, 2017

Santa Fe, New Mexico

BEFORE: MICHAEL McMILLAN, CHIEF EXAMINER

WILLIAM V. JONES, TECHNICAL EXAMINER

DAVID K. BROOKS, LEGAL EXAMINER

- 1 A. Yes.
- Q. Marathon's not exactly a new entrant into
- 3 New Mexico, correct?
- 4 A. Correct. Marathon's operated and has had
- 5 operated and nonoperated positions in New Mexico for the
- 6 past several decades. We're also very active in three
- 7 other shale plays in the U.S. We're currently running
- 8 three rigs in the Permian at this time and have plans to
- 9 potentially add some more next year. And we also have
- 10 plans to -- as you can see on Exhibit 17, to continue to
- 11 develop this area in Section 25 and 36 as well.
- 12 Q. All right. Is Marathon looking at the Wolfcamp
- 13 as well?
- 14 A. Yes, sir.
- 15 Q. In your opinion, would the granting of Black
- 16 Mountain's and Marathon's application be in the interest
- 17 of conservation and the prevention of waste and the
- 18 protection of correlative rights?
- 19 A. Yes. It would allow for the development of 330
- 20 feet on either side of 35 and 2 that otherwise would not
- 21 be reached.
- 22 Q. And were Exhibits 15 through 17 prepared by you
- 23 or derived from company records maintained in the
- 24 ordinary course?
- 25 A. Yes.

1 and landing zone uncertainty, as we saw with the Devon

- 2 example -- just some slight variation in the landing
- 3 zone along the lateral could vastly affect what your
- 4 well performance and EUR is. So I think the 1 percent
- 5 porosity -- I think we're getting hung up on a -- not
- 6 hung up. I mean, it is an important issue, but we're
- 7 talking about one part of what ultimately contributes to
- 8 a well's EUR. And that 1 percent change in how we
- 9 determine a net -- or net reservoir cutoff, I don't
- 10 believe would -- should vastly change that, not by 12
- 11 percent.
- 12 Q. All right. Do you have an opinion whether
- developing Section 2 with one-mile laterals as opposed
- 14 to developing Sections 2 and 35 with mile-and-a-half
- 15 laterals would result in waste?
- 16 A. Sure. I think the first scenario of one-mile
- 17 laterals would result in waste.
- 18 Q. All right. And if you develop these wells
- 19 respecting the 330 setback for one-mile laterals on
- 20 either side of the section line, are you leaving 660
- 21 feet of reservoir unrecovered?
- 22 A. You would be.
- 23 Q. And would that result in waste?
- 24 A. Yes.
- Q. Anything further to add?

- 1 A. No.
- 2 MR. HALL: That concludes my direct of
- 3 Mr. Wilty.
- 4 EXAMINER McMILLAN: Please proceed.
- 5 MR. BRUCE: Well, Mr. Examiner, I could
- 6 spend a lot of time requesting or with your permission,
- 7 after Mr. Wilty is done, I can put Mr. Dilli up and ask
- 8 him three questions and get that out of the way rather
- 9 than cross-examining this witness.
- MR. HALL: My understanding is he was
- 11 offered for rebuttal.
- 12 EXAMINER BROOKS: Explain what's going on
- 13 here.
- 14 MR. BRUCE: Okay. Well, I'll just --
- there's nothing secret about this. I'll ask Mr. Wilty a
- 16 couple of questions.
- 17 The one thing I want that Mr. Dilli can
- 18 state -- Mr. Wilty said, Well, he's saying basically all
- 19 of the southwest quarter of Section 35 is 20 feet of 8
- 20 percent porosity, he said. And then his next statement
- 21 was, Well, unless there is regional mapping or points
- 22 outside of the plat submitted, that can have an effect
- 23 on these trends. And he didn't really say it that way,
- 24 but Mr. Dilli, he's -- as he stated, he mapped,
- 25 basically, all of the Bone Spring, and he has a lot of
