CASE NO. 16152

APPLICATION

Chevron U.S.A. Inc. ("Chevron"), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17, for an order (1) creating a non-standard 640-acre spacing and proration unit comprised of the W/2 of Section 15, Township 23 South, Range 28 East, and the W/2 of Section 22, Township 23 South, Range 28 East, N.M.P.M., Eddy County, New Mexico; and (2) pooling all mineral interests in the Wolfcamp formation underlying this acreage. In support of its application, Chevron states:

1. Chevron is a working interest owner in proposed non-standard unit and has the right to drill thereon.
2. Chevron proposes to dedicate the above-referenced spacing and proration unit as the project area for three proposed wells: the proposed **CB SO 15 22 004 1H Well**, the proposed **CB SO 15 22 004 2H Well**, and the proposed **CB SO 15 22 004 3H Well**, which will be simultaneously drilled and completed. The three proposed horizontal wells will be pad drilled from a surface location in the NW/4 SW/4 (Unit D) of Section 15 to a bottom hole locations in the SW/4 SW/4 (Unit M) of Section 22 for the **CB SO 15 22 004 1H Well** and the **CB SO 15 22 004 2H Well** and in the SE/4 SW/4 (Unit N) of Section 22 for the **CB SO 15 22 004 3H Well**.

3. The completed interval for each well will remain within the 330-foot offset required by the Special Rules for the Purple Sage Wolfcamp Gas Pool (Pool Code 98220).

4. Chevron has sought and been unable to obtain voluntary agreement for the development of these lands from all of the working interest owners in the subject spacing unit.

5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

6. Since the proposed wells will be simultaneously drilled and completed, Chevron requests an extension of the 120-day time period to drill and complete the wells provided by the Division's standard pooling order.

7. In order to permit Chevron to obtain its just and fair share of the oil and gas underlying the subject lands, all interests in this non-standard spacing unit should be pooled and Chevron should be designated the operator of this proposed horizontal wells and spacing unit.

WHEREFORE, Chevron requests that this application be set for hearing before an Examiner of the Oil Conservation Division on May 17, 2018, and, after notice and hearing as required by law, the Division enter an order:

- A. Creating a 640-acre non-standard spacing and proration unit in the Wolfcamp formation, comprised of the W/2 of Section 15, Township 23 South, Range 28 East, and the W/2 of Section 22, Township 23 South, Range 28 East, N.M.P.M., Eddy County, New Mexico;
- B. Pooling all mineral interests in the non-standard spacing and proration unit;
- C. Designating Chevron U.S.A. Inc. operator of this non-standard spacing unit and the horizontal wells to be drilled thereon;
- D. Authorizing Chevron to recover its costs of drilling, equipping and completing the wells;

- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures;
- F. Imposing a 200% penalty for the risk assumed by Chevron in drilling, completing and equipping the wells against any working interest owner who does not voluntarily participate in the drilling of the well; and
- G. Providing an extension of the 120-day period to drill and complete the wells provided by the Division's standard pooling order.

Respectfully submitted,

HOLLAND & HART LLP
