Scott and Jim -

Concho has only had a couple of days to study the impact of Rover's application. Concho and Rover are talking and we will continue to do so. We know broadly what our concerns are but need time to fully understand what we want to ask for to protect existing and future wells from the impact of increased pressures. I'm very hopeful that we will work through our issues with Rover. But realistically it's not going to happen today or even this week.

Therefore Concho requests a continuance until 9/6.

Thanks,  
Ocean

>> COG Operating LLC requests a continuance of Cases 16354 & 16355, Applications of Rover Operating which is scheduled for the August 9th docket. I have contacted Jim Bruce, attorney for Rover and he is waiting on a response from his client. Depending on Rover's response, I would appreciate Mr. Bruce weighing in on the length of the continuance (hence why I'm not being specific at this time).
