Case No. 16436

NOTICE OF INTERVENTION

This Notice of Intervention is submitted by Douglas C. McLeod ("McLeod") and Petrogulf Corporation ("Petrogulf") as required by the regulations of the Oil Conservation Division.

INTERVENOR'S NAME

NATURE OF INTERVENOR'S INTEREST

Chevron U.S.A. Inc. ("Chevron") seeks approval of its Javelina Unit containing approximately 5,119.76 acres of state and federal lands situated in all of Sections 1, 2, 9, 10, 11, 12, 15 and 16 of Township 24 South, Range 31 East, N.M.P.M., Eddy County, New Mexico. The unitized interval includes all formations of the below the top of the Bone Spring formation. In addition, Chevron seeks approval to surface commingle production from the Bone Spring and Wolfcamp formations underlying the unit.

McLeod owns working interests (varying by depth) in the S/2 of Section 11. Petrogulf is the operator for McLeod. In other cases pending before the Division, Chevron has proposed wells (which will be Unit wells) which include McLeod's acreage. McLeod is interested in the development of his acreage, and thus is interested in Chevron's development plan for the Unit.

McLeod and Petrogulf do not oppose formation of the Unit.

Respectfully submitted,

James Bruce
