Re: Application for Simultaneous Dedication  
Morris Gas Com C 1E  
API: 30-045-07998  
SHL: T29N-R10W: Section 26 UL 1  
BHL: T29N-R10W: Section 26 UL 1  
San Juan County, New Mexico

Dear Ms. Riley:

Hilcorp Energy Company respectfully requests authorization to simultaneously dedicate the Morris Gas Com C 1E (API: 3004523567) well to an existing standard 320 acre gas spacing and proration unit ("GPU") in the Blanco Mesaverde Gas Pool (72319) comprising the S/2 of Section 26, Township 29 North, Range 10 West, San Juan County, New Mexico. The GPU is currently dedicated to the following described wells:

MORRIS GAS COM C 1Y	API: 3004534738	UL N: T29N-R10W: Sec. 26
ABRAMS L 1	API: 3004525670	UL M: T29N-R10W: Sec. 26
ABRAMS L 1A	API: 3004525616	UL I: T29N-R10W: Sec. 26

SE/SW  
SW/SW  
NE/SE

The Morris Gas Com C 1E has a surface location in Unit I of Section 26, Township 29 North, Range 10 West, San Juan County, New Mexico. Completion of this well at that location within the GPU conflicts with the prescribed well location requirements provided in the applicable Blanco Mesaverde Gas Pool Special Pool Rules I.B, which governs the locations of infill wells. The special rules provide, however, that the Division Director may administratively grant exceptions to infill well locations upon application with the Division and notice, by certified mail-return receipt requested, to affected parties.

The Morris Gas Com C 1E is currently completed in the Basin Dakota pool. The Morris Gas Com C 1Y is currently completed in the Armenta Gallup, Otero Chacra, Basin Dakota and Blanco Mesaverde pool as a commingled well. The Abrams L 1 is currently completed in the Armenta Gallup and Blanco Mesaverde pool as a commingled well. The Abrams L 1A is currently completed in the Armenta Gallup and Blanco Mesaverde pool as a commingled well. The Morris Gas Com C 1Y, Abrams L 1 and Abrams L 1A wells are all currently dedicated to to an existing 320 acre gas spacing unit comprising the S/2 of Section 26 in the Blanco Mesaverde Gas Pool.

The proposed completion of the Blanco Mesaverde pool within the Morris Gas Com C 1E will increase the gas recovery from the Mesaverde formation within the S/2 of Section 26, thereby preventing waste.

Attached hereto for each well is a copy of Division Form C-102 for these wells that show the surface and bottom hole locations of each well. In addition, also enclosed is a map of the offset operators of all offsetting spacing units. Hilcorp Energy Company is the operator of all offsetting spacing units and owns 100% working interest in all offsetting spacing units with the exception of the W/2 of Section 36. Hilcorp has mailed, via USPS Certified Mail, Notice to the Affected Parties that this application has been submitted. A copy of the Notice to the Affected Parties is also attached.

In summary, administrative approval of the application is permitted under the special rules for the Blanco Mesaverde Gas Pool and will afford Hilcorp Energy Company the opportunity to recover additional gas reserves from the pool in the S/2 of Section 26 that may otherwise not be recovered by the existing wells, thereby preventing waste, and not violating correlative rights. Hilcorp's proposed simultaneous dedication of these wells does not exceed the well density requirements imposed by the special rules.

If you have any questions or need additional information, please contact me at 713-289-2793 or [bpearson@hilcorp.com](mailto:bpearson@hilcorp.com).

Sincerely,

A handwritten signature in cursive script that reads 'Bradley W. Pearson'.

Brad:

Your administrative application for the Maddox Gas Com C Well No. 1 cannot be approved administratively.

Special Pool rules for the Blanco Mesaverde does not allow two wells in the same quarter-quarter section.

These can only be approved at Hearing.

Thanks

Michael,

My apologies. The correct API for the Morris Gas Com C 1E is 30-045-23567. Will this one also not be an administrative approval case?

Thanks,

Brad:

Your need to clarify the cover letter. The API number and the well name of the application does not match.

You listed that application as the Morris Gas Com C Well No. 1E.

Your API is for the Martinez Gas Com F Well No. 1.
