APPROVAL OF AN UNORTHODOX
WELL LOCATION, EDDY COUNTY, NEW
MEXICO.**

CASE NO. 20189

AFFIDAVIT OF STAN MITCHELL

Stan Mitchell, of lawful age and being first duly sworn, declares as follows:

1. My name is Stan Mitchell. I work for Percussion Petroleum Operating, LLC ("Percussion") as a Landman.
2. I have not previously testified before the Oil Conservation Division.
3. I graduated from the University of Oklahoma with a B.B.A. in Energy Management in 2004. After graduation, I worked as an in-house Landman. My job responsibilities included title examination, curative, lease acquisition, surface use agreements, working with the geologists and engineers to prepare wells to be drilled and completed. I was hired by Percussion in August 2018 and my area of responsibility includes the Permian Basin in New Mexico.
4. I am a member of the AAPL and HAPL.

5. I am familiar with the applications filed by Percussion in these matters and familiar with the status of the lands in the subject areas.

6. Percussion has filed three applications with the Division:

- a. In Case No. 20187, Percussion seeks an Order pooling all uncommitted interests in the N. Seven Rivers; Glorieta-Yeso Pool (97565) comprised of the W/2 E/2 of Section 34, Township 19 South, Range 25 East, NMPM, Eddy County, New Mexico. This spacing unit will be dedicated to applicant's proposed **Lakewood Federal No. 4H Well**, which will be horizontally drilled from a surface location in the SW/4 SE/4 (Unit O) of Section 27 to a standard bottom hole location in the SW/4 SE/4 (Unit O) of Section 34. The completed interval is at an orthodox well location pursuant to the Statewide rules for oil wells.
- b. In Case No. 20188, Percussion seeks an order 1) pooling all uncommitted interests in the N. Seven Rivers; Glorieta-Yeso Pool (97565) comprised of the E/2 W/2 of Section 34, Township 19 South, Range 25 East, NMPM, Eddy County, New Mexico; and 2) approving an unorthodox well location. Said horizontal spacing unit is to be dedicated to applicant's proposed Lakewood Federal No. 9H Well, which will be horizontally drilled from a surface location in the SW/4 SE/4 (Unit O) of Section 27 to a bottom hole location in the SE/4 SW/4 (Unit N) of Section 34. The completed interval is at an unorthodox location.
- c. In Case No. 20189, Percussion seeks an order 1) pooling all uncommitted interests in the N. Seven Rivers; Glorieta-Yeso Pool (97565) comprised of the W/2 W/2 of Section 34, Township 19 South, Range 25 East, NMPM,

Eddy County, New Mexico; and 2) approving an unorthodox well location. Said horizontal spacing unit is to be dedicated to applicant's proposed **Lakewood Federal No. 15H Well**, which will be horizontally drilled from a surface location in the NW/4 NW/4 (Lot 4) of Section 3, Township 20 South, Range 25 East to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 34. The completed interval is at an unorthodox location.

7. **Percussion Exhibit No. 1A** contains a draft Form C-102 for each of the proposed wells. The Division District Office has informed me that all three wells have been placed in the N. Seven Rivers; Glorieta-Yeso Pool (97565). All lands in Section 34 are federal acreage.

8. In Case No. 20188, the completed interval for the proposed **Lakewood Federal No. 9H Well** will not comply with the Division's setback requirements because it is closer than permitted to the eastern boundary of the proposed spacing and proration unit. The completed interval is at an unorthodox location. The first take point is 100 feet from the North line, 2609 feet from the West line and the last take point is 100 feet from the South line, 2609 feet from the West line. Percussion is seeking an exception to the standard setbacks. Percussion provided notice to the interest owners toward which the non-standard well location encroaches.

9. In Case No. 20189, the completed interval for the proposed **Lakewood Federal No. 15H Well** will not comply with the Division's setback requirements because it is closer than permitted to the eastern boundary of the proposed spacing and proration unit. The first take point is 100 feet from the South line, 1205 feet from the West line and the last take point is 100 feet from the North line, 1205 feet from the West line. Percussion is seeking an exception to the standard setbacks. Percussion provided notice to the interest owners toward which the non-standard well location encroaches.

10. **Percussion Exhibit 1B** identifies ownership by tract in the W/2E/2 of Section 34, to be dedicated to the **Lakewood Federal No. 4H Well**. Percussion seeks to pool those interest owners highlighted in green. All interests that Percussion seeks to pool are working interest owners.

11. **Percussion Exhibit 1C** identifies ownership by tract in the E/2W/2 of Section 34, to be dedicated to the **Lakewood Federal No. 9H Well**. Percussion seeks to pool those interest owners highlighted in green. All interests that Percussion seeks to pool are working interest owners.

12. **Percussion Exhibit 1D** identifies ownership by tract in the W/2W/2 of Section 34, to be dedicated to the **Lakewood Federal No. 15H Well**. Percussion seeks to pool those interest owners highlighted in green. All interests that Percussion seeks to pool are working interest owners.

13. No interest owner that Percussion seeks to pool has indicated opposition to Percussion presenting this case by affidavit.

14. **Percussion Exhibit 1E** contains the well proposal letters along with an AFE for each of the three wells. In addition to sending well proposal letters and AFEs, I have called or emailed each of the working interest owners that I seek to pool and attempted to reach an agreement with them.

15. The costs reflected in the Statement of Estimated Well Costs are consistent with what other operators have incurred for drilling similar horizontal wells in the area in each of these formations.

16. An ownership depth severance exists within these proposed spacing units. However, Percussion has reached an agreement with all owners of depth severed interests and does not seek to compulsory pool any depth severed interests.

17. In addition to working interest owners, Percussion seeks to compulsory pool overriding royalty owners shown on **Exhibits 1B-1D**.

18. In compiling these notice lists, Percussion conducted a diligent search of all public records in the county where the proposed wells are located and of phone directories, including computer searches.

19. Percussion has estimated the overhead and administrative costs for drilling and producing the proposed wells at \$7,000 per month while drilling and \$700 per month while producing. These costs are consistent with what other operators are charging in this area for similar wells.

20. Percussion Exhibit Nos. 1A through 1E were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT

Stan Mitchell

To all working interest owners shown on enclosed Exhibit "A-3" as referenced below

RE: Well Proposal & Letter Agreement
Lakewood Federal 4H well
Section 34, T19S, R25E
Eddy County, New Mexico

Percussion Petroleum Operating, LLC ("Percussion") hereby proposes to drill and complete the Lakewood Federal 4H, to an approximate total vertical depth of 2,635' as a horizontal upper Yeso well (the "Subject Well") at the following proposed location (subject to change upon staking and survey).

Lakewood Federal 4H well – Horizontal Yeso Well, Eddy County, NM

- Proposed Surface Hole Location – 500' FSL & 1,690' FEL, Section 27, T19S-R25E
- Proposed Bottom Hole Location – 20' FSL & 1,686' FEL, Section 34, T19S-R25E

Attached in duplicate is AFE No. 1174 which specifies total drilling and completed costs to be estimated at \$4,407,000.

In support of this well and future development, Percussion proposes to form a Working Interest Unit covering the W2/E2 of Section 34 in Township 19 South, Range 25 East, Eddy County, New Mexico, containing 160 acres of land, more or less, insofar, and only insofar, as the same covers rights from the top of the Yeso formation to the base of the Yeso formation (the "WIU"). For purposes herein, top of the Yeso formation shall be 2,279' MD and the base of the Yeso formation shall be 4,460' MD based on the Len Mayer 1 (30-015-05926) RDL_Neutron_Porosity_21N log from Section 28-T18S-R26E, Eddy County, NM; and the term "horizontal well" shall be defined as a directional well bore with one or more laterals that extend a minimum of one hundred feet (100') horizontally in the target zone. The current Yeso formation working interest ownership is attached and this well will apply to depths above 3,100' subsurface.

Part of the proposed WIU, the W2/E2 of Section 34, is likely governed by operating agreements also covering the Yeso Formation which pertains to many of the same parties within this proposal and which would administer operations for vertical wells. For the mutually exclusive development within the WIU as to horizontal wells, and any concept wells (i.e. micro seismic wells, pilot hole wells), Percussion herein submits a new operating agreement ("NOA") dated October 31, 2018, a 1982 AAPL form, to govern proposals and operations within the WIU, and which shall supersede any existing operations only as to said horizontal well development and operations. The Exhibit "A" to the NOA will be completed in the near term pending transactional decisions of the working interest parties.

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. 1E

Submitted by: **PERCUSSION PETROLEUM LLC**
Hearing Date: January 10, 2019
Case Nos. 20187-20189

BEFORE THE OIL CONSERVATION DIVISION

As an alternative to participation, Percussion offers to acquire a party's leasehold rights as to the Yeso formation, only. Percussion will pay \$1,500/acre said leasehold rights. The selling party will deliver its leasehold interest effective January 1, 2018, exclusive of existing wellbores and production from said wellbores. The acquisition of the leasehold will be subject to a mutually acceptable sales agreement and assignment warranting title by the seller, by through and under, but not otherwise.

Please indicate your election as to the Subject Wells by marking any single item 1), 2) or 3) below in the space provided and returning a copy of this letter agreement to the undersigned within thirty (30) days of receipt, otherwise you may be subject to the compulsory pooling provisions of the State of New Mexico. If you mark any item that pertains to AFEs and/or the NOA, then please execute and return copies of the same together with your executed copy of this letter agreement to Percussion within said thirty (30) day period. Exhibit "A" to the NOA shall be provided at a later date after all of the working interest percentages of the non-operators have been determined.

If you have any questions regarding this proposal, please do not hesitate to contact the undersigned by e-mail at stan@percussionpetroleum.com or by phone at 713-331-0125. Thank you very much for your assistance and cooperation. We look forward to working with you on this matter.

Lakewood Federal 4H Well Election

_____ 1) Elect to participate in the drilling and completing of the Lakewood Federal 4H well based upon the calculation of its working interest as stated above in the formation of the WIU, and agrees to the terms and conditions of this letter agreement and NOA as stated above, with the cost and maintenance of all surface facilities, including any shared well pads, being reapportioned between each well drilled in the WIU.

_____ 2) Elect to sell all of its leasehold interest, including all right, title and interest in the Yeso formation, exclusive of existing wellbores, based upon a price of \$1,500.00 per net leasehold acre, delivering an assignment with special warranty on mutually agreed forms.

_____ 3) The undersigned elects not to participate in the drilling and casing of the proposed Lakewood Federal #4H.

RE: Well Proposal & Letter Agreement
Lakewood Federal 9H well
Section 34, T19S, R25E
Eddy County, New Mexico

Percussion Petroleum Operating, LLC ("Percussion") hereby proposes to drill and complete the Lakewood Federal 9H, to an approximate total vertical depth of 3,035' as a horizontal upper Yeso well (the "Subject Well") at the following proposed location (subject to change upon staking and survey).

Lakewood Federal 9H well – Horizontal Yeso Well, Eddy County, NM

- Proposed Surface Hole Location – 565.5' FSL & 2,355' FEL, Section 27, T19S-R25E
- Proposed Bottom Hole Location – 20' FSL & 2,628.6' FWL, Section 34, T19S-R25E

Attached in duplicate is AFE No. 1179 which specifies total drilling and completed costs to be estimated at \$4,407,000.

In support of this well and future development, Percussion proposes to form a Working Interest Unit covering the W2/E2 of Section 34 in Township 19 South, Range 25 East, Eddy County, New Mexico, containing 160 acres of land, more or less, insofar, and only insofar, as the same covers rights from the top of the Yeso formation to the base of the Yeso formation (the "WIU"). For purposes herein, top of the Yeso formation shall be 2,279' MD and the base of the Yeso formation shall be 4,460' MD based on the Len Mayer 1 (30-015-05926) RDL_Neutron_Porosity_21N log from Section 28-T18S-R26E, Eddy County, NM; and the term "horizontal well" shall be defined as a directional well bore with one or more laterals that extend a minimum of one hundred feet (100') horizontally in the target zone. The current Yeso formation working interest ownership is attached and this well will apply to depths above 3,100' subsurface.

Part of the proposed WIU, the E2/W2 of Section 34, is likely governed by operating agreements also covering the Yeso Formation which pertains to many of the same parties within this proposal and which would administer operations for vertical wells. For the mutually exclusive development within the WIU as to horizontal wells, and any concept wells (i.e. micro seismic wells, pilot hole wells), Percussion herein submits a new operating agreement ("NOA") dated October 31, 2018, a 1982 AAPL form, to govern proposals and operations within the WIU, and which shall supersede any existing operations only as to said horizontal well development and operations. The Exhibit "A" to the NOA will be completed in the near term pending transactional decisions of the working interest parties.

As an alternative to participation, Percussion offers to acquire a party's leasehold rights as to the Yeso formation, only. Percussion will pay \$1,500/acre said leasehold rights. The selling party will deliver its leasehold interest effective January 1, 2018, exclusive of existing wellbores and production from said wellbores. The acquisition of the leasehold will be subject to a mutually acceptable sales agreement and assignment warranting title by the seller, by through and under, but not otherwise.

Please indicate your election as to the Subject Wells by marking any single item 1), 2) or 3) below in the space provided and returning a copy of this letter agreement to the undersigned within thirty (30) days of receipt, otherwise you may be subject to the compulsory pooling provisions of the State of New Mexico. If you mark any item that pertains to AFEs and/or the NOA, then please execute and return copies of the same together with your executed copy of this letter agreement to Percussion within said thirty (30) day period. Exhibit "A" to the NOA shall be provided at a later date after all of the working interest percentages of the non-operators have been determined.

If you have any questions regarding this proposal, please do not hesitate to contact the undersigned by e-mail at stan@percussionpetroleum.com or by phone at 713-331-0125. Thank you very much for your assistance and cooperation. We look forward to working with you on this matter.

- Proposed Surface Hole Location - 430' FNL & 1,270' FWL, Section 3, T20S-R25E
- Proposed Bottom Hole Location - 20' FNL & 1,205' FWL, Section 34, T19S-R25E

Attached in duplicate is AFE No. 1185 which specifies total drilling and completed costs to be estimated at \$4,407,000.

In support of this well and future development, Percussion proposes to form a Working Interest Unit covering the W2/W2 of Section 34 in Township 19 South, Range 25 East, Eddy County, New Mexico, containing 160 acres of land, more or less, insofar, and only insofar, as the same covers rights from the top of the Yeso formation to the base of the Yeso formation (the "WIU"). For purposes herein, top of the Yeso formation shall be 2,279' MD and the base of the Yeso formation shall be 4,460' MD based on the Len Mayer 1 (30-015-05926) RDL_Neutron_Porosity_21N log from Section 28-T18S-R26E, Eddy County, NM; and the term "horizontal well" shall be defined as a directional well bore with one or more laterals that extend a minimum of one hundred feet (100') horizontally in the target zone. The current Yeso formation working interest ownership is attached and this well will apply to depths above 3,100' subsurface.

Part of the proposed WIU, the W2/W2 of Section 34, is likely governed by operating agreements also covering the Yeso Formation which pertains to many of the same parties within this proposal and which would administer operations for vertical wells. For the mutually exclusive development within the WIU as to horizontal wells, and any concept wells (i.e. micro seismic wells, pilot hole wells), Percussion herein submits a new operating agreement ("NOA") dated October 31, 2018, a 1982 AAPL form, to govern proposals and operations within the WIU, and which shall supersede any existing operations only as to said horizontal well development and operations. The Exhibit "A" to the NOA will be completed in the near term pending transactional decisions of the working interest parties.

As an alternative to participation, Percussion offers to acquire a party's leasehold rights as to the Yeso formation, only. Percussion will pay \$1,500/acre said leasehold rights. The selling party will deliver its leasehold interest effective January 1, 2018, exclusive of existing wellbores and production from said wellbores. The acquisition of the leasehold will be subject to a mutually acceptable sales agreement and assignment warranting title by the seller, by through and under, but not otherwise.

Please indicate your election as to the Subject Wells by marking any single item 1), 2) or 3) below in the space provided and returning a copy of this letter agreement to the undersigned within thirty (30) days of receipt, otherwise you may be subject to the compulsory pooling provisions of the State of New Mexico. If you mark any item that pertains to AFEs and/or the NOA, then please execute and return copies of the same together with your executed copy of this letter agreement to Percussion within said thirty (30) day period. Exhibit "A" to the NOA shall be provided at a later date after all of the working interest percentages of the non-operators have been determined.

If you have any questions regarding this proposal, please do not hesitate to contact the undersigned by e-mail at stan@percussionpetroleum.com or by phone at 713-331-0125. Thank you very much for your assistance and cooperation. We look forward to working with you on this matter.

Yours very truly,
Percussion Petroleum Operating, LLC

Stan Mitchell, CPL
Sr. Consulting Landman

Lakewood Federal 15H Well Election

_____ 1) Elect to participate in the drilling and completing of the Lakewood Federal 15H well based upon the calculation of its working interest as stated above in the formation of the WIU, and agrees to the terms and conditions of this letter agreement and NOA as stated above, with the cost and maintenance of all surface facilities, including any shared well pads, being reapportioned between each well drilled in the WIU.

_____ 2) Elect to sell all of its leasehold interest, including all right, title and interest in the Yeso formation, exclusive of existing wellbores, based upon a price of \$1,500.00 per net leasehold acre, delivering an assignment with special warranty on mutually agreed forms.

_____ 3) The undersigned elects not to participate in the drilling and casing of the proposed Lakewood Federal #15H.

Agreed to and Accepted this ____ day of _____, 2018, by:

Company: _____

CASE NO. 20189

AFFIDAVIT OF C.J. LIPINSKI

CJ Lipinski, of lawful age and being first duly sworn, declares as follows:

1. My name is CJ Lipinski. I work for Percussion Petroleum Operating, LLC.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by Percussion in this case and I have conducted a geologic study of the Glorieta and Yeso formations underlying the subject acreage.
4. Percussion is targeting the Yeso formation with its three proposed wells.

5. **Percussion Exhibit 2A** is a location map that I prepared for the subject spacing unit. This map shows the three proposed spacing units in Section 34 in red and the three proposed well in orange and blue. Offset Glorieta/Yeso producers are shown in green.

6. **Percussion Exhibit 2B** is a structure map that I prepared for the top of the Glorieta. The contour interval is 100 feet. The structure map shows that the area is gently dipping to the east-southeast. I do not observe any faulting, pinchouts, or other geologic impediments to developing this targeted interval with a horizontal well.

7. **Percussion Exhibit 2C** is a cross section location map showing the five wells penetrating the Yeso formation that I used to construct the cross-section from A to A'. I consider these wells to be representative of the geology of the area.

8. **Percussion Exhibit 2D** is a cross section using the representative wells depicted on Exhibit 2C. Each well in the cross-section contains gamma ray, resistivity, photoelectric absorption, density and neutron porosity logs. The proposed target interval for the 4H is labeled with a blue line. The proposed target for the 15H is shown with a red line. Finally, the proposed target for the 9H is shown with an orange line. The cross-section demonstrates that the targeted interval extends across each of the proposed spacing units.

9. In my opinion the north to south orientation of the proposed well in the Yeso formation is appropriate in order to effectively drain the targeted reservoir and is shown to be the standard pattern in the area.

10. Based on my geologic study of the area, the Yeso formation underlying the subject area and subject spacing units is suitable for development by horizontal wells and the acreage comprising the proposed spacing units will contribute more-or-less equally to the production from the wellbores.

11. In my opinion, the granting of Percussion's applications in each case will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

FURTHER AFFIANT SAYETH NOT.

TO: ALL INTEREST OWNERS SUBJECT TO POOLING PROCEEDINGS

**Re: Application of Percussion Petroleum Operating, LLC for compulsory pooling,
Eddy County, New Mexico.
Lakewood Federal No. 4HWell**

Ladies & Gentlemen:

This letter is to advise you that Percussion Petroleum Operating, LLC has filed the enclosed application with the New Mexico Oil Conservation Division. This application will be set for hearing before a Division Examiner at 8:15 a.m. on January 10, 2019. The hearing will be held in Porter Hall in the Oil Conservation Division's Santa Fe Offices, located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter please contact Josh Grisham at (713) 589-2337 or josh@percussionpetroleum.com.

Sincerely,

Jordan L. Kessler

Case No. 20187 Application of Percussion Petroleum Operating, LLC for compulsory pool-

ing, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order pooling all uncommitted interests in the N. Seven Rivers; Glorieta-Yeso Pool (97565) comprised of the W/2E/2 of Section 34, Township 19 South, Range 25 East, NMPM, Eddy County, New Mexico. Said horizontal spacing unit is to be dedicated to applicant's proposed **Lakewood Federal No. 4H Well**, which will be horizontally drilled from a surface location in the SW/4SE/4 (Unit O) of Section 27 to a standard bottom hole location in the SW/4SE/4 (Unit O) of Section 34. ~~The completed interval is at an ortho-~~dox well location pursuant to the Statewide rules for oil wells. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of Percussion Petroleum Operating, LLC as operator of the well and a 200% charge for risk involved in drilling said well. Said area is located approximately 11 miles southwest of Atoka, New Mexico.

**Re: Application of Percussion Petroleum Operating, LLC for compulsory pooling
and approval of an unorthodox well location, Eddy County, New Mexico.
Lakewood Federal No. 9H Well**

Ladies & Gentlemen:

This letter is to advise you that Percussion Petroleum Operating, LLC has filed the enclosed application with the New Mexico Oil Conservation Division. This application will be set for hearing before a Division Examiner at 8:15 a.m. on January 10, 2019. The hearing will be held in Porter Hall in the Oil Conservation Division's Santa Fe Offices, located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter please contact Josh Grisham at (713) 589-2337 or josh@percussionpetroleum.com.

Sincerely,

Jordan L. Kessler

Case No. 20188: Application of Percussion Pe-

troileum Operating, LLC for compulsory pooling and an unorthodox well location, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order 1) pooling all uncommitted interests in the N. Seven Rivers; Glorieta-Yeso Pool (97565) comprised of the E/2W/2 of Section 34, Township 19 South, Range 25 East, NMPPM, Eddy County, New Mexico; and 2) approving an unorthodox well location. Said horizontal spacing unit is to be dedicated to applicant's proposed Lakewood Federal No. 9H Well, which will be horizontally drilled from a surface location in the SW/4SE/4 (Unit O) of Section 27 to a bottom hole location in the SE/4SW/4 (Unit N) of Section 34. The completed interval is at an unorthodox location. The first take point is 100 feet from the North line, 2609 feet from the West line and the last take point is 100 feet from the South line, 2609 feet from the West line. Accordingly, the completed interval is closer than 330 feet to the East line and encroaches on the spacing unit to the east. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of Percussion Petroleum Operating, LLC as operator of the well and a 200% charge for risk involved in drilling said well. Said area is located approximately 11 miles southwest of Atoka, New Mexico.

TO: ALL INTEREST OWNERS SUBJECT TO POOLING PROCEEDINGS

**Re: Application of Percussion Petroleum Operating, LLC for compulsory pooling
and approval of an unorthodox well location, Eddy County, New Mexico.
Lakewood Federal No. 15H Well**

Ladies & Gentlemen:

This letter is to advise you that Percussion Petroleum Operating, LLC has filed the enclosed application with the New Mexico Oil Conservation Division. This application will be set for hearing before a Division Examiner at 8:15 a.m. on January 10, 2019. The hearing will be held in Porter Hall in the Oil Conservation Division's Santa Fe Offices, located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter please contact Josh Grisham at (713) 589-2337 or josh@percussionpetroleum.com.

Sincerely,

Jordan L. Kessler

Case No. 20189: Application of Percussion Petroleum Operating, LLC for compulsory pooling and an unorthodox well location, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order 1) pooling all uncommitted interests in the N. Seven Rivers; Glorieta-Yeso Pool (97565) comprised of the W/2W/2 of Section 34, Township 19 South, Range 25 East, NMPM, Eddy County, New Mexico; and 2) approving an unorthodox well location. Said horizontal spacing unit is to be dedicated to applicant's proposed **Lakewood Federal No. 15H Well**, which will be horizontally drilled from a surface location in the NW/4 NW/4 (Lot 4) of Section 3, Township 20 South, Range 25 East to a bottom hole location in the NW/4 NW/4 (Unit D) of Section 34. The completed interval is at an unorthodox location. The first take point is 100 feet from the South line, 1205 feet from the West line and the last take point is 100 feet from the North line, 1205 feet from the West line. Accordingly, the completed interval is closer than 330 feet to the East line and encroaches on the spacing unit to the east. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of Percussion Petroleum Operating, LLC as operator of the well and a 200% charge for risk involved in drilling said well. Said area is located approximately 11 miles southwest of Atoka, New Mexico.
