Mike,

The correct description of the first take point is 2,140' FSL and 940' FWL of Section 12.

Thanks for pointing out that my initial description of the first take point was incorrect – I apologize for the confusion.

Gary

Can you double check the first take point, because the surface location is in Unit K . Should it be approximately **2073 FSL and 990 FWL** of Section 12?

It seems odd that the first take point would be approximately 1600 feet from the surface location

Gary:

I need the first take point and last take point for Case 20212

The first take point is 2,073' FSL and 110' FEL in Section 12, T18S, R26E and the last take point is 2,140' FSL and 100' FWL in Section 11, T18S, R26E.

Do you have unlocatable interests?

There are no unlocatable interests.

Mike
