**Re: Statement of Estimated Well Costs
Parkway 15-14 North State Corn 1H
N2N2 Sections 15 and 14, Township 19 South, Range 29 East
Lea County, New Mexico**

Dear Pooled Working Interest Owner,

Pursuant to Order No. R-20795, ¶10 of the New Mexico Oil Conservation Division, Cimarex Energy Co. hereby submits its estimated schedule of the cost of drilling, completing and equipping its Parkway 15-14 North State Corn 1H well, which have materially decreased since the original well proposal sent on December 10, 2018. This statement reflects Cimarex's updated engineering plan for drilling for the well which will shift the intended SHL from 1220 feet from the North line of Section 15 to 1210 feet from the North line of Section 15 and the BHL from 635 feet from the North line of Section 14 to 918 feet from the North, but did not materially change the estimated cost for drilling, completing and equipping the well.

Please call the undersigned with any questions or comments.

Respectfully,

A handwritten signature in blue ink, appearing to read "Riley Morris", written over a horizontal line.
