Hi John,

Marathon had discussions with Paul Kautz at the district office about this pool, and that it is a Wolfbone pool. I looked up the pool code on OCD's website. 98098 is the only Wolfbone pool code on the OCD's pool report, which is why I selected that pool code. If there is a different pool code I should have used, please let me know.

Thanks,

Deana

Deana,

For case number 20948 and 20950 the Exhibit A references the Wolfbone (Pool Code 98098), however the application does not reference any pool code in it. I would like to confirm this is the correct pool code for these two wells and how you obtained the code number.

Thank you,

I simply entered an appearance for ConocoPhillips. I haven't heard back from my client yet on your inquiry, but I have no problem with issuance of orders.

Deana,

Note: This email is a resend as the last one failed to send to James Bruce

I am attempting to draft the Hearing Orders in the above captioned cases and have a couple questions.

1. Have the parties reached an agreement between themselves, obviating the need for an orders?
2. If not, can you please provide a copy of Exhibit A for each case number, so the order can be drafted and sent up for signature?

Thank you,
