John,

Attached are revised pooling order Exhibit A's for your review in each of the above-referenced cases; thank you for bringing the OGRID and pool code to my attention. As for Case **Nos. 20788** and **20789**, these units are both located in the Purple Sage Wolfcamp pool, with 320-acre building blocks, which does not require proximity wells to pull in the tracts to create the spacing units under these circumstances.

Please let us know if you have any other questions. Have a nice weekend.

Best,

Kaitlyn

Kaitlyn,

I have a few questions in regards to the above listed cases.

- 1) All Exhibit As received have an OGRID listed as 229137 however all applications and exhibits have the OGRID as 16696. I have 229137 showing up as COG Operating LLC.
- 2) Case 20786 the Exhibit A has the pool listed as the Pierce Crossing; Bone Spring East (96473) I have confirmed with the district geologist that these wells will be in the Cedar Canyon Bone Spring (11520)
- 3) Case 20813 the Exhibit A has the pool listed as the Pierce Crossing; Bone Spring East (96473) I have confirmed with the district geologist that these wells will be in the Cedar Canyon Bone Spring (11520)
- 4) In case 20788 I'm curious on why 32H isn't considered a proximity tract as it is within 90 feet from the unit line?
- 5) In case 20789 I'm curious on why 35H isn't considered a proximity tract as it is within 10 feet from the unit line?

If you could mend the exhibit A's for any changes needed.

Thank you,

John Garcia

John,

Thanks for reaching out. Because the parties have not reached an agreement and orders are still required, please find attached the proposed Exhibit A's to the pooling orders. Let us know if you have any questions or concerns. We appreciate your ongoing assistance with these orders.

Best,

Kaitlyn

Kaitlyn,

I am attempting to draft the Hearing Orders in the above captioned cases and have a couple questions.

1. Have the parties reached an agreement between themselves, obviating the need for an orders?
2. If not, can you please provide a copy of Exhibit A for each case number, so the order can be drafted and sent up for signature?

Thank you,
