POOLING, LEA COUNTY, NEW MEXICO.**

CASE NO. 21143

APPLICATION

Chisholm Energy Operating, LLC ("Applicant") (OGRID No. 372137), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Wolfcamp formation underlying a standard 240-acre, more or less, horizontal spacing unit comprised of the E/2 W/2 of irregular Section 1, Township 21 South, Range 32 East, NMPM, Lea County, New Mexico. In support of its application, Chisholm states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to dedicate the above-referenced horizontal spacing unit to the proposed initial **Minis 1 Fed Com WCA #13H well** to be horizontally drilled from a surface location in the NW/4 NW/4 (Lot 4) of Section 1 to bottom hole location in the SE/4 SW/4 (Unit N) of Section 1.
3. The completed interval of the proposed well will comply with Statewide setbacks for oil wells.
4. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all the working interest owners in the subject spacing unit.

5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

6. In order to permit Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this horizontal spacing unit should be pooled, and Applicant should be designated the operator of the proposed horizontal well and spacing unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on March 5, 2020, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the horizontal spacing unit;
- B. Designating Applicant operator of this horizontal spacing unit and the horizontal well to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, equipping, and completing the well;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

POOLING, LEA COUNTY, NEW MEXICO.**

CASE NO. 21143

AFFIDAVIT OF JACOB DANIELS

Jacob Daniels, of lawful age and being first duly sworn, declares as follows:

1. My name is Jacob Daniels. I work for Chisholm Energy Operating, LLC (“Chisholm”) as a Landman.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by Chisholm in this case, and I am familiar with the status of the lands in the subject area.
4. None of the uncommitted parties in this case has indicated opposition to this pooling application, and therefore I do not expect any opposition to the presentation of this case by affidavits at the hearing.
5. Chisholm is seeking an order pooling all uncommitted interests in the Wolfcamp formation underlying a standard 238.81-acre, more or less, horizontal spacing unit comprised of the E/2 W/2 of irregular Section 1, Township 21 South, Range 32 East, NMPM, Lea County, New Mexico.
6. Chisholm seeks to dedicate this standard spacing unit to the proposed initial **Minis 1 Fed Com WCA #13H well** (API No. 30-025-45130) to be horizontally drilled from a surface

location in the NW/4 NW/4 (Lot 4) of Section 1 to bottom hole location in the SE/4 SW/4 (Unit N) of Section 1.

7. The completed interval for the **Minis 1 Fed Com WCA #13H well** will comply with statewide setback requirements for oil wells.

8. **Chisholm Exhibit C-1** is the Form C-102 for the proposed **Minis 1 Fed Com WCA #13H well**.

9. The Pool Code for this well is 98282 (WC-025 G-08 S213201D; UPR WOLFCAMP Pool).

10. There are no depth severances in the Wolfcamp formation.

11. **Chisholm Exhibit C-2** contains a plat outlining the unit being pooled, identifies the tracts of land comprising the proposed spacing unit, and identifies the working interests in each tract and their interest in the horizontal spacing unit. This proposed spacing unit includes federal lands. Chisholm is seeking to pool both the highlighted working interest owners as well as the overriding royalty interest owners included on **Exhibit C-2**. There are no unleased mineral interest owners.

12. There are no unleased mineral interest owners.

13. **Chisholm Exhibit C-3** is a copy of the well proposal letter that Chisholm sent to the working interest owners, along with an AFE for this well. The costs reflected in the AFE are consistent with what other operators have incurred for drilling similar horizontal wells in the area.

14. Chisholm seeks approval of overhead and administrative costs at \$7,500/month while drilling and \$750/month while producing. These costs are consistent with what Chisholm and other operators are charging in this area for these types of wells. Chisholm respectfully

requests that these administrative and overhead costs be incorporated into any order entered by the Division in this case, together with a 200% charge for the risk against any non-consenting parties.

15. Chisholm has been able to locate contact information for all parties it seeks to pool and has undertaken good faith efforts to reach an agreement with the uncommitted interest owners after the transmission of the well proposal letters, with telephone and email correspondence on December 16, 2019 and telephone correspondence again on February 17, 2020.

16. In my opinion, Chisholm has made good faith efforts to reach an agreement with the parties it seeks to pool. If Chisholm reaches an agreement with any of the proposed pool parties before the Division enters any order, I will let the Division know that Chisholm is no longer seeking to pool that party.

17. I provided the law firm of Holland & Hart LLP a list of names and addresses for the uncommitted interest owners shown on Exhibit C-2. In compiling these addresses, Chisholm conducted a diligent search of all public records in the county where the proposed wells are located and of phone directories, including computer searches. All parties were locatable.

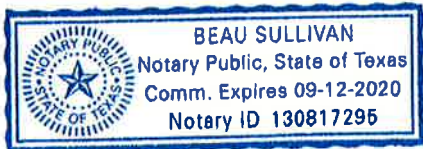

18. **Chisholm Exhibits C-1 through C-3** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.

RE: Minis 1 Fed Com WCA #13H Well Proposal
E/2 W/2 of Section 1-T21S-R32E
Lea County, New Mexico

To whom it may concern,

Chisholm Energy Operating, LLC ("Chisholm") hereby proposes the drilling of a horizontal Wolfcamp well to a Measured Depth of approximately 19,380'. The expected surface location for this well is approximately 135' FNL & 1,280' FWL of Section 1-T21S-R32E with a bottom hole location of 100' FSL & 2,500' FWL of Section 1-T21S-R32E. Enclosed is our Authority for Expenditure ("AFE") reflecting estimated costs of \$5,631,797 for a completed well.

Chisholm is proposing to drill this well under the terms of a modified 1989 AAPL form Operating Agreement covering the W/2 of Section 1, Township 21 South, Range 32 East, which will be provided upon request. Said Operating Agreement contains the following general provisions:

- 100%/300%/300% Non-consenting penalty
- \$7,500/\$750 Drilling and Production rate
- Chisholm Energy Operating, LLC named as Operator

According to our ownership, Marathon Oil Permian, LLC, owns an undivided 0.04186902 interest in the above captioned unit. Chisholm respectfully requests that you select one of the following options:

1. Participate with your interest in the drilling of the proposed well and execute the enclosed Operating Agreement.
2. Farmout/Assign your interest in the above captioned project area, subject to mutually agreeable terms.

Please indicate your election in the space provided below and return one copy of this letter to the undersigned. In the event all parties do not enter into an agreement to develop the proposed project area(s), Chisholm intends to file application(s) for compulsory pooling with the New Mexico Oil Conservation Division.

Please call at your earliest convenience to discuss our proposal.

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF CHISHOLM ENERGY
OPERATING, LLC FOR COMPULSORY
POOLING, LEA COUNTY, NEW MEXICO.**

CASE NO. 21143

AFFIDAVIT OF JOSH KUHN

Josh Kuhn, of lawful age and being first duly sworn, declares as follows:

1. My name is Josh Kuhn. I work for Chisholm Energy Operating, LLC (“Chisholm”) as a Geologist.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by Chisholm in this case, and I have conducted a geologic study of the lands in the subject area.
4. In this case, Chisholm is targeting the Wolfcamp “A” within the Wolfcamp formation.
5. **Chisholm Exhibit D-1** is a project locator map showing the standard horizontal spacing unit for the **Minis 1 Fed Com WCA #13H well** in relation to the surrounding area.
6. **Chisholm Exhibit D-2** is a subsea structure map that I prepared for the top of the Wolfcamp formation. The contour interval is 50 feet. The map also identifies wells used to create this Wolfcamp subsea structure map. Within Section 1, the dashed line on the map reflects the path of the proposed wellbore for the **Minis 1 Fed Com WCA #13H well**. The structure map shows that the Wolfcamp is dipping gently to the south/southeast. The structure appears consistent in this

section. I do not observe any faulting, pinchouts, or other geologic hazards to developing a horizontal well.

7. **Chisholm Exhibit D-2** also shows the location of the four wells, depicted by the red line, that were used to construct a cross-section from A to A'. I consider these wells to be representative of the geology of the area.

8. **Chisholm Exhibit D-3** is a stratigraphic cross section prepared by me for the four representative wells from A to A' and shows the following logs: gamma ray, resistivity, and porosity. The proposed target interval is labeled and depicted with green shading. The logs in the cross-section demonstrate that the target interval within the Wolfcamp "A" is consistent in thickness, across the entire spacing unit.

9. Based on my geologic study of the area, I have not identified any geologic impediments to drilling horizontal wells in the area.

10. In my opinion, the stand-up orientation of the proposed wells is the preferred orientation for horizontal well development in this area and is appropriate to efficiently and effectively develop the subject acreage.

11. In my opinion, each tract comprising the proposed spacing units will be productive and contribute more-or-less equally to production from the wellbore.

12. In my opinion, the granting of Chisholm's applications in this case is in the best interest of conservation, the prevention of waste, and protection of correlative rights.

13. **Chisholm Exhibits D-1 through D-3** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.

TO: ALL INTEREST OWNERS SUBJECT TO POOLING PROCEEDINGS

**Re: Application of Chisholm Energy Operating LLC for compulsory pooling, Lea County, New Mexico.
Minis 1 Fed Com WCA #13H Well**

Ladies & Gentlemen:

This letter is to advise you that Chisholm Energy Operating, LLC has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on March 5, 2020, and the status of the hearing can be monitored through the Division's website at <http://www.emnrd.state.nm.us/ocd/>. Division hearings will commence at 8:15 a.m. in Porter Hall at the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact Jacob Daniels, at (817) 953-0737 or jdaniels@chisholmenergy.com.

Sincerely,

Michael H. Feldewert
