

cc0 Hearing Exhibit 62

July 30, 2020 10:10 AM from Revrac Noj to everyone: Answer:  
Secretary Kenney, because his actions and neglect of his public service have  
resulted in even more black and brown bodies not breathing.

July 30, 2020 10:10 AM from Kathy Wooten to everyone: Joining  
Valerie Gremillion's comment on "time" as a valuable commodity to all of us.

July 30, 2020 10:11 AM from Valerie Gremillion, Ph.D to everyone: no,  
Revrac, NMED in fact is not running this meeting, although the GroundWater agency  
is involved. EMNRD is I believe, the Department involved, please correct me hosts.

July 30, 2020 10:12 AM from Revrac Noj to everyone: The Oil and  
Gas people plan to waste our time until all the homo sapiens and animals are  
extinct☹️

July 30, 2020 10:12 AM from Valerie Gremillion, Ph.D to everyone: As  
I understand it, Ground Water will be monitoring (and those are the rules we would  
like to see) but I believe EMNRD is running the fracking show.

July 30, 2020 10:13 AM from Valerie Gremillion, Ph.D to everyone:  
FYI, Secretary Kenney is a strong advocate of climate mitigation and adaptation for  
New Mexico, arguments in this light would be welcomed, i believe.

July 30, 2020 10:14 AM from Revrac Noj to everyone: Kenney is  
the white supremacist murderer with the position and power to get the Gov. to ban  
fracking.

July 30, 2020 10:17 AM from Valerie Gremillion, Ph.D to everyone: My  
point would be that EMNRD is in charge of all resource utilization, mining, etc,  
NMED is not usually 'in charge' of such things but only their regulation and  
licensing, EMNRD is the agency that is extremely pro mining, oil and gas, other  
extraction resources. I appreciate if anyone has corrections to this. Meaning, pls  
attack the right ppl if that's what you are going to do, Revrac, it is EMNRD's  
mandate to do these harmful extractive industries.

July 30, 2020 10:18 AM from Revrac Noj to everyone: A STRONG  
advocate of ending Racist Climate Murder would ban "Produced Water" as it is so  
obviously at odds with public health. Kenney is a neo- lib pig. The only acceptable  
level of "monitoring" is making sure NO more toxic water is produced and NO more  
toxic clouds of radioactive frack farting is allowed whatsoever.

July 30, 2020 10:19 AM from nancy galloway to everyone: What is  
happening?

July 30, 2020 10:19 AM from Revrac Noj to everyone: Poisoned,  
Produced Water is soooo clearly incompatible with health for humans and our  
environment.

July 30, 2020 10:19 AM from Valerie Gremillion, Ph.D to everyone:  
Revrac, I do not disagree with your position although I will be backing my

statements up with monetary and other reasons the State understands, but Kenney is not in charge of any of this. At least get your targets right, and also, some of prefer civil discourse which i am certain you can manage.

July 30, 2020 10:20 AM from nancy galloway to everyone: Is this meeting adjourned? What's happening?

July 30, 2020 10:20 AM from Valerie Gremillion, Ph.D to everyone: Nancy, we don't know, they took a break for technical reasons after 45 minutes of uselessness, and were supposed to return at 10:05

July 30, 2020 10:20 AM from Kurt Anderson to everyone: Is anything happening? All I 'm getting are occasional noises.

July 30, 2020 10:21 AM from emmy koponen to everyone: this is unacceptable slaves on webex

July 30, 2020 10:21 AM from Valerie Gremillion, Ph.D to everyone: Also, check your email for the docs they are sending out, apparently that aspects of meetings has not been mastered by EMNRD.

July 30, 2020 10:21 AM from Noah Tamas-Parris to everyone: I have a question about the schedule of the hearing: Do we know when commeting will be opened up to the public?

July 30, 2020 10:21 AM from nancy galloway to everyone: Thanks, yes I saw someone speaking right at 10:08, then nothing.

July 30, 2020 10:21 AM from Noah Tamas-Parris to everyone: \*commenting

July 30, 2020 10:22 AM from Valerie Gremillion, Ph.D to everyone: 'WHEN' on nothing is clear, unfortunately, Noah.

July 30, 2020 10:22 AM from Valerie Gremillion, Ph.D to everyone: For the future, i formally request that at least one host monitor the chat thread to answer our questions.

July 30, 2020 10:22 AM from Norm Gaume to everyone: the chair came on briefly a little after 10:05. Said email distribution of docs to parties is slow because the files are large. No info as to when hearing will resume.

July 30, 2020 10:23 AM from Revrac Noj to everyone: 6 million Climate Deaths ain't a civil discourse situation in my opinion. It's completely fetid, foul, and obscene, and it impacts and will impact all our children. Civil Discourse is a big part of Institutionalized White Supremacy, it seems. If you're okay with monitoring frackwater then you are into black and brown and Native genociding, too.

July 30, 2020 10:23 AM from Revrac Noj to everyone: IF...

July 30, 2020 10:24 AM from Valerie Gremillion, Ph.D to everyone: I am certainly not ok with NOT monitoring \*anything\* the State of NM is doing.

July 30, 2020 10:24 AM from Revrac Noj to everyone: If you support any form of fracking then you, ipso facto, support White Supremacists.

July 30, 2020 10:24 AM from Revrac Noj to everyone: IF...

July 30, 2020 10:25 AM from Revrac Noj to everyone: Forget Monitoring Fracking. It has to be banned completely as it causes widespread human death, my friend.

July 30, 2020 10:25 AM from Valerie Gremillion, Ph.D to everyone: YOU can find my debate against fracking on youtube with Jeff Apodaca when he was running for governor. Feel free to google it. Most people on here are anti-fracking, you are needlessly insulting people who support your position, when we could have useful discussion.

July 30, 2020 10:27 AM from Revrac Noj to everyone: The Oil and Gas folks here, requesting the rule changes are not anti-fracking.

July 30, 2020 10:27 AM from Susan Selbin to everyone: Going to Kit Carson Park to meeting on dealing with the 35 federal agents coming to ABQ.

July 30, 2020 10:27 AM from Valerie Gremillion, Ph.D to everyone: Bye Susan. Duh, Revrac.

July 30, 2020 10:29 AM from Valerie Gremillion, Ph.D to everyone: so no one from the public can see these exhibits? does anyone have a link??

July 30, 2020 10:29 AM from Melissa Troutman to everyone: It is 12:26 Eastern. This is a waste of peoples' valuable time. There should have been a run through of this virtual hearing that ensured screensharing of exhibits in real time. Or exhibits should have been shared ahead of time.

July 30, 2020 10:29 AM from Revrac Noj to everyone: If it's so, duh, then why are we still in this meeting considering what to do with frack waste, when we should be locking up murderers.

July 30, 2020 10:30 AM from Samantha Ruscavage-Barz to everyone: <http://ocdimage.emnrd.state.nm.us/imaging/CaseFileView.aspx?CaseNo=21281>

July 30, 2020 10:30 AM from Valerie Gremillion, Ph.D to everyone: Thank you! :)

July 30, 2020 10:32 AM from Joyce Bogosian to everyone: I just called in via phone no. The meeting is in progress

July 30, 2020 10:32 AM from Revrac Noj to everyone: I object to the exhibits being submitted as it violates open meeting act compliance.

July 30, 2020 10:32 AM from Seth Frentheway to everyone: all the documents are available to everyone on this call at this link  
<http://ocdimage.emnrd.state.nm.us/imaging/CaseFileView.aspx?CaseNo=21281>

July 30, 2020 10:32 AM from Valerie Gremillion, Ph.D to everyone: I agree, these documents should have already been provided.

July 30, 2020 10:33 AM from Revrac Noj to everyone: Boo

July 30, 2020 10:33 AM from Rebecca Sobel to everyone: Hard to hear.

July 30, 2020 10:34 AM from Kurt Anderson to everyone: Since I have no access to the exhibits I cannot consider this meeting to be in compliance with the Open Meetings Act.

July 30, 2020 10:35 AM from Shelly Lemon (privately): cannot hear him. he needs to get closer to microphone or talk louder

July 30, 2020 10:35 AM from Seth Frentheway to everyone: all the documents are located here on the public website.  
<http://ocdimage.emnrd.state.nm.us/imaging/CaseFileView.aspx?CaseNo=21281>

July 30, 2020 10:35 AM from nancy galloway to everyone: I hear you

July 30, 2020 10:35 AM from Revrac Noj to everyone: please unmute and object.

July 30, 2020 10:36 AM from Mariel Nanasi to everyone: transparency

July 30, 2020 10:36 AM from Revrac Noj to everyone: Thanks, Valerie. Very nice 👍

July 30, 2020 10:37 AM from Rebecca Sobel to everyone: There are over 100 files in the hearing image folder, that are not labeled. Is there any way for you to reference which of these documents is being referenced as exhibits?

July 30, 2020 10:38 AM from Valerie Gremillion, Ph.D to everyone: Bleh. For the record, I requested a brief summary of each submission as we have only just now been provided dozens of documents to review, which is impossible in the time frame.

July 30, 2020 10:38 AM from Valerie Gremillion, Ph.D to everyone: I second Rebecca's request, we must say this out loud however it appears.

July 30, 2020 10:39 AM from Kathy Wooten to everyone: Thanks Valerie. It appears that "the public" is not privy to the documents in such a fashion as to make it possible for us to follow what is going on. Exhibit 1, etc

is not informing us, or even the intention of informing the public. If this is standard, we are in sorrier shape than even anticipated.

July 30, 2020 10:40 AM from Melissa Troutman to everyone: Once again, oil and gas doesn't play by the same rules as everyone else, and doesn't have to.

July 30, 2020 10:40 AM from Norm Gaume to everyone: Mr. Lazado is very hard to hear

July 30, 2020 10:41 AM from nancy galloway to everyone: He is very hard to hear

July 30, 2020 10:41 AM from Vita Rosella to everyone: Ridiculous.

July 30, 2020 10:41 AM from nancy galloway to everyone: Can he get close to his mic?

July 30, 2020 10:42 AM from Vita Rosella to everyone: Why doesn't he wear a mask?

July 30, 2020 10:43 AM from Norm Gaume to everyone: sorry. Attorney Lozano is hard to hear. Apologize for misspelling his name.

July 30, 2020 10:44 AM from Valerie Gremillion, Ph.D to everyone: Who is the woman speaking, can anyone say?

July 30, 2020 10:44 AM from Melissa Troutman to everyone: Can one of the parties reenter Dr. Gremillion's request on behalf of the public?

July 30, 2020 10:44 AM from Joyce Bogosian to everyone: Adrienne Sandoval

July 30, 2020 10:45 AM from Valerie Gremillion, Ph.D to everyone: For the record, I requested that the documents that they are submitting be also noted by the labels by which they are referred to on their website, and in the only form given to the public.

July 30, 2020 10:45 AM from Rebecca Sobel to everyone: Unfortunately, I don't even see labels on the files on the website.

July 30, 2020 10:45 AM from Kurt Anderson to everyone: The documents are NOT really available if they are unlabeled and can only be located by a document-by-document search through over 100 (108 at last count)

July 30, 2020 10:46 AM from Valerie Gremillion, Ph.D to everyone: You are right Rebecca, you must open one to see the title, otherwise they are labelled only by size and date.

July 30, 2020 10:48 AM from Vita Rosella to everyone: Typical Big Gas and Oil sliminess.

July 30, 2020 10:49 AM from Vita Rosella to everyone: This meeting is a toxic waste of time, so far.

July 30, 2020 10:50 AM from Kathy Wooten to everyone: Agreed, Vita. And one is left to wonder how much of this ill prepared process is strategy to get the public to run out of time to participate.

July 30, 2020 10:50 AM from Valerie Gremillion, Ph.D to everyone: Yes. But here's the thing - if we don't work the system, it works US. Even ust being here is important, multitask if you need to :). Being present may also give us some level of standing.

July 30, 2020 10:51 AM from Vita Rosella to everyone: Produced Water is poison. Sacrifice Zones are White Supremacy.

July 30, 2020 10:51 AM from Kathy Wooten to everyone: I am too confused (at the moment) to "work the system", although I take your point seriously.

July 30, 2020 10:52 AM from Valerie Gremillion, Ph.D to everyone: Yes, Kathy, a few of us should file formal complaints on the matter and means of this meeting.

July 30, 2020 10:52 AM from Valerie Gremillion, Ph.D to everyone: Is there a reporter from a publication here?

July 30, 2020 10:52 AM from Vita Rosella to everyone: This commission is supporting a farce that will soon extinct their own grandkids. True!

July 30, 2020 10:52 AM from Norm Gaume to everyone: Are the exhibits in the same order as they appear on web page  
<http://ocdimage.emnrd.state.nm.us/imaging/CaseFileView.aspx?CaseNo=21281>

July 30, 2020 10:54 AM from Vita Rosella to everyone: Good point, Daniel. Frackers ain't fair. They are Racist killers.

July 30, 2020 10:54 AM from Valerie Gremillion, Ph.D to everyone: 1. Timmons: No preliminary agenda available 72 hours in advance, was earlier agreed to be much earlier but did not meet even the 72-hour standard.

July 30, 2020 10:54 AM from Vita Rosella to everyone: NO AGENDA. NO ACTION!

July 30, 2020 10:55 AM from Vita Rosella to everyone: Excellent objection, Daniel.

July 30, 2020 10:55 AM from Vita Rosella to everyone: Cross-examination. Sounds Piggy to me.

July 30, 2020 10:55 AM from nancy galloway to everyone: Thank you,  
Daniel Timmons

July 30, 2020 10:55 AM from Vita Rosella to everyone: You aren't  
COPS are you

July 30, 2020 10:55 AM from Valerie Gremillion, Ph.D to everyone: 2.  
Cross examination not permissible for unsworn public comment, and is chilling of  
First Amendment Rights.

July 30, 2020 10:55 AM from madeleine carey to everyone: Why are  
there so many transparency issues with this hearing?

July 30, 2020 10:55 AM from Melissa Troutman to everyone: Thank you,  
Daniel!

July 30, 2020 10:56 AM from Vita Rosella to everyone: CHILLING is  
right!!!!

July 30, 2020 10:56 AM from Anita Rodriguez, PhD to everyone:  
Excellent objections, Daniel Timmons. Thank you so much!

July 30, 2020 10:56 AM from Kathy Wooten to everyone: No agenda  
was made available for this meeting - public notice stated that the agenda would be  
made available. I will file a formal complaint once I find out how.  
Simultaneously, Daniel Timmons is right on!

July 30, 2020 10:56 AM from Joyce Bogosian to everyone: Go Daniel!

July 30, 2020 10:57 AM from Vita Rosella to everyone: The State  
of NM is arresting protestors in violation of their 1st Amendment rights.

July 30, 2020 10:57 AM from Vita Rosella to everyone: Go  
Daniel!!!

July 30, 2020 10:57 AM from Valerie Gremillion, Ph.D to everyone:  
3.Seconds my objection regarding the +100 documents only labeled by size and date,  
serious block to ability of public to respond

July 30, 2020 10:58 AM from Melissa Troutman to everyone: Wow

July 30, 2020 10:58 AM from Vita Rosella to everyone: Adrienne is  
a big overruler.

July 30, 2020 10:58 AM from Valerie Gremillion, Ph.D to everyone:  
"you can click on each one of them and determine what it is" said Adrienne Sandoval

July 30, 2020 10:58 AM from Joyce Bogosian to everyone: We are  
being denied our rights to transparency and disclosure of documents in a timely  
fashion

July 30, 2020 10:58 AM from madeleine carey to everyone: where is the agenda on the OCD website?

July 30, 2020 10:58 AM from nancy galloway to everyone: I didn't hear Daniel's reply

July 30, 2020 10:59 AM from Valerie Gremillion, Ph.D to everyone: She believes this addresses Timmons' objections.

July 30, 2020 10:59 AM from Valerie Gremillion, Ph.D to everyone: Hilarious, as none were.

July 30, 2020 10:59 AM from nancy galloway to everyone: No, that doesn't address his objections adequately

July 30, 2020 10:59 AM from Valerie Gremillion, Ph.D to everyone: Does anyone mind if i keep summarizing?

July 30, 2020 10:59 AM from Melissa Troutman to everyone: Please do Valerie, I'm saving the chat.

July 30, 2020 10:59 AM from Vita Rosella to everyone: Go V. I appreciate it.

July 30, 2020 10:59 AM from Kathy Wooten to everyone: Observance of this meeting so far reinforces the fact that they are not interested in serving the public. We don't know your "typical" postings, etc., so we are not served in the least.

July 30, 2020 11:00 AM from Noah Tamas-Parris to everyone: Why am I going to be cross-examined as an individual wishing to give my input on the rulemaking process?

July 30, 2020 11:00 AM from nancy galloway to everyone: "Produced water", such orwellian terminology

July 30, 2020 11:00 AM from Valerie Gremillion, Ph.D to everyone: I will request CBada post her points later :)

July 30, 2020 11:00 AM from Vita Rosella to everyone: They are lame public servants. I was kicked out of the meeting in violation of my 1st Amendment rights. I had to sneak bavck on under an alias. Where's the Public Service for these people?

July 30, 2020 11:01 AM from Vita Rosella to everyone: Produced Water is poison.

July 30, 2020 11:02 AM from Vita Rosella to everyone: We need a declaration of Climate Emergency and a permanent end to all Fossil Fuel Extraction

and production.

July 30, 2020 11:02 AM from madeleine carey to everyone: this meeting needs to be cancelled. It doesn't seem like OCD has a handle on the digital public engagement

July 30, 2020 11:02 AM from madeleine carey to everyone: chats can be saved

July 30, 2020 11:03 AM from madeleine carey to everyone: they will be in a different file but you have to choose to do it. Meeting should be canceled until you can figure out how to support public comment

July 30, 2020 11:03 AM from Noah Tamas-Parris to everyone: how does cross-examining individuals giving public comment even work?

July 30, 2020 11:03 AM from Valerie Gremillion, Ph.D to everyone: I think that has been blocked, Noah, they said sth about it being missed and left in there.

July 30, 2020 11:04 AM from madeleine carey to everyone: lol you guys the agenda is not labeled as agenda on the website

July 30, 2020 11:04 AM from madeleine carey to everyone: that seems like suppression

July 30, 2020 11:04 AM from Valerie Gremillion, Ph.D to everyone: ! Which one is it and where?

July 30, 2020 11:04 AM from Joyce Bogosian to everyone: This supposed hearing is being held in violation of the public's rights to comment

July 30, 2020 11:04 AM from Valerie Gremillion, Ph.D to everyone: I'm calling my friends on twitter to tweet the Governor on this

July 30, 2020 11:05 AM from Vita Rosella to everyone: Methane sequestration is a proven technology for gathering Natural Gas (Methane) without drilling of any source. Rot some hemp, or capture cow farts and you'll have all the clean burning Natural Gas you need to supplement your solar/wind energy systems. You don't have to frack or extract to get gassy.

July 30, 2020 11:05 AM from Vita Rosella to everyone: And you don't have to destroy freshwater to sequester Methane.

July 30, 2020 11:06 AM from Noah Tamas-Parris to everyone: Dr.Gremillion, do you mean the objection to individuals being cross-examined was blocked, or do you mean that individuals giving public comment are no longer subject to cross-examination?

July 30, 2020 11:06 AM from Valerie Gremillion, Ph.D to everyone: I

think the latter, for the public. Not sure about the 'registered parties'

July 30, 2020 11:06 AM from madeleine carey to everyone: when I downloaded the webex package, it got a malware warning. Is the OCD sure this platform is safe? Are they trying to place malware on the public's laptop?

July 30, 2020 11:06 AM from Valerie Gremillion, Ph.D to everyone: NMOGA=NM Oil and Gas

July 30, 2020 11:07 AM from Vita Rosella to everyone: Oh, a big oil murdering pig is here, now.

July 30, 2020 11:07 AM from madeleine carey to everyone: Please don't use acronyms

July 30, 2020 11:07 AM from Noah Tamas-Parris to everyone: Thank you for the clarification.

July 30, 2020 11:07 AM from Vita Rosella to everyone: Fosssil Fuel Extraction is MURDer, Bozo.

July 30, 2020 11:08 AM from Valerie Gremillion, Ph.D to everyone: They are refeering to him as Namoga = NMOGA

July 30, 2020 11:09 AM from Vita Rosella to everyone: Mr. Feldew... is a White Supremacist Fracking Killer. His industry kills kids!!!

July 30, 2020 11:09 AM from Vita Rosella to everyone: Fracking is incompatible with Public Health!!!

July 30, 2020 11:09 AM from Vita Rosella to everyone: Go Daniel.

July 30, 2020 11:09 AM from Vita Rosella to everyone: LISTEN TO DANIEL!!!

July 30, 2020 11:09 AM from Valerie Gremillion, Ph.D to everyone: Timmons: (paraphrased) produced water act purpose to regulate these activities - "in a manner that protects public health, environment, and resources". OCD's proposal does nothing to protect any of these as the legislature intended

July 30, 2020 11:10 AM from Vita Rosella to everyone: Yes, do the SCIENCE, Racist pigs!

July 30, 2020 11:10 AM from Valerie Gremillion, Ph.D to everyone: Timmons requests scientific expert testimony

July 30, 2020 11:10 AM from Vita Rosella to everyone: This Commission is Institutional Racism in Action. The commissioners are all complicit with killings. Not very civil, is it?

July 30, 2020 11:11 AM from Vita Rosella to everyone: Adrienne,  
you are being a Racist, today.

July 30, 2020 11:11 AM from Valerie Gremillion, Ph.D to everyone:  
Timmons lists many of the toxic and radioactive contaminants already documented  
here in NM

July 30, 2020 11:11 AM from Vita Rosella to everyone: Your  
complicity with Native genocide is very apparent.

July 30, 2020 11:11 AM from Bianca Sopoci (privately): I cannot  
hear anything all of a sudden.

July 30, 2020 11:12 AM from Vita Rosella to everyone: Go,  
Daniel!!!!

July 30, 2020 11:12 AM from Charles Bennett to everyone: Poisoning  
of public water supplies and resources is not addressed within NM's Criminal Code.  
That Code needs to be ammended to make water poisoning a criminal act punishable  
with considerable imprisonment.

July 30, 2020 11:13 AM from Vita Rosella to everyone: OCD's hands  
off approach abets White Supremacist Climate Deaths!!!!

July 30, 2020 11:13 AM from Valerie Gremillion, Ph.D to everyone:  
Timmons: recent sci analysis found 86% of chemicals in produced water do not have  
established safety levels.... more... we do not know enough. 7000 spills since July  
2010 and first 6 mos of this year +600 spills, 171 MAJOR spills.

July 30, 2020 11:13 AM from Vita Rosella to everyone: Spills  
kill!!!!

July 30, 2020 11:13 AM from Vita Rosella to everyone: Produced  
Water Act is bullshit when this commission is so lame.

July 30, 2020 11:14 AM from Vita Rosella to everyone: FOSSIL FUEL  
EXTRACTION HAS KILLED OVER ^ MILLION INNOCENT HUMANS ACCORDING TO THE WORLD HEALTH  
ORG>

July 30, 2020 11:14 AM from Valerie Gremillion, Ph.D to everyone:  
Produced Water Act tried to address a clear line between the oil fields and  
communities of NM, while produced water is not addressed in its many phases, and  
its RISKS ARE NOT ADDRESSED especially those beyond the oilfields. OCDs proposal  
does nothing to address any of this.

July 30, 2020 11:14 AM from Vita Rosella to everyone: SIX MILLION  
DEAD

July 30, 2020 11:15 AM from Valerie Gremillion, Ph.D to everyone:  
Thank you Daniel Timmons!

July 30, 2020 11:15 AM from Vita Rosella to everyone: Sierra Club  
does Fossil Fuel Extraction, No?

July 30, 2020 11:16 AM from Vita Rosella to everyone: FOSSIL  
FUELS KILL MILLIONS. OVER 6 MILLION. MORE THAN THE NAZI REGime of WW2.

July 30, 2020 11:16 AM from Valerie Gremillion, Ph.D to everyone:  
Sierra Club (SC)/Meiklejohn: believes regs need to be modified to reflect intent  
of the act, strengthened w/r/t to regulation to protect freshwater and public  
health. Also requesting fresh water not be used; 2 witnesses upcoming.

July 30, 2020 11:16 AM from Vita Rosella to everyone: FOSSIL FUEL  
KILL CHILDREN IN NM.

July 30, 2020 11:17 AM from Vita Rosella to everyone: Michelle  
advocates for FOSSIL FUEL KILLINGS!!!!

July 30, 2020 11:17 AM from Vita Rosella to everyone: Michelle  
and Secretary Kenney are Racists.

July 30, 2020 11:18 AM from Vita Rosella to everyone: Michelle is  
ignoring CLIMATE DEATHS!!! What a hypocrite!!!

July 30, 2020 11:18 AM from Vita Rosella to everyone: Moral  
Standards! Like it!

July 30, 2020 11:19 AM from Valerie Gremillion, Ph.D to everyone:  
Mariel, NEE: Quotes @GovMLG as advocating for science for COVID and this should be  
APPLIED to produced water! Gov:"from day 1, my admin response has been grounded in  
science and data, the only way to get through this is take to heart ...experts...  
re schools should be grounded in the science and data

July 30, 2020 11:19 AM from Vita Rosella to everyone: Science  
clearly says that produced water and public health are deeply incompatible.

July 30, 2020 11:19 AM from Vita Rosella to everyone: SCIENCE,  
Big Oil Scumbags!

July 30, 2020 11:20 AM from Vita Rosella to everyone: Big Oil  
Racist Murdering Scum Bags!!!

July 30, 2020 11:20 AM from Vita Rosella to everyone:  
Carcinogenic. Oh we haven't even talked about all the FOSSIL FUEL CANCERS.

July 30, 2020 11:21 AM from Vita Rosella to everyone:  
Pennsylvania (Secretary Kenney's home state) is all fracked up. He had a big bloody  
murdering immoral hand in it.

July 30, 2020 11:21 AM from Norm Gaume (privately): I object to

Vita Rosella having been ejected from the meeting, reentering under an alias, and dominating the chat with emotional remarks and inuendo.

July 30, 2020 11:22 AM from Vita Rosella to everyone: IMMORAL MURDERERS support Produced Water, because they love killing children and elders.

July 30, 2020 11:22 AM from Valerie Gremillion, Ph.D to everyone: NEE: counters use AT ALL of produced water as it propagates carcinogenic compounds when used for paving roads or any other such use. - Environ Sci and Tech Doi: PLS supply.

July 30, 2020 11:22 AM from Vita Rosella to everyone: The Produced Water act is a Racist Document.

July 30, 2020 11:22 AM from Valerie Gremillion, Ph.D to everyone: Cites refs on high radium derived from this.

July 30, 2020 11:23 AM from Camilla Feibelman to everyone: Vita, every time you send a chat there is a ding that echos and it interrupts what Mariel is saying.

July 30, 2020 11:23 AM from Richard Welker to everyone: Reverb is making testimony almost impossible to hear.

July 30, 2020 11:23 AM from Vita Rosella to everyone: OVERWHELMING EVIDENCE OF THE RISKS AND HARMS OF FRACKING.

July 30, 2020 11:24 AM from Vita Rosella to everyone: Fracking is incompatible with PUBLIC HEALTH, clearly. BAN IT NOW!!!

July 30, 2020 11:24 AM from Kathy Wooten to everyone: Thank you NEE. Just the facts. Facts that O&G - and one wonders about the agencies and legislators - do not want to hear.

July 30, 2020 11:24 AM from Vita Rosella to everyone: FRACK BAN NOW!

July 30, 2020 11:25 AM from Vita Rosella to everyone: If you care about NM and want to serve its people you must ban all Racist fracking now, you bozo-pigs.

July 30, 2020 11:25 AM from Vita Rosella to everyone: Get you knees off our necks, PIGS!

July 30, 2020 11:26 AM from Vita Rosella to everyone: Defund White Supremacist Fossil Fuels Industry, NOW.

July 30, 2020 11:27 AM from Valerie Gremillion, Ph.D to everyone: NEE: )paraphrasing) RULE making is entirely premature and not based on science, if you (OCD) follow the edicts of this governor and legislature, then it is not in

compliance with cited rules on protecting public resources. She asks for a proper background of scientific study and provides sources and facts that must be included not just in this hearing but in any evaluation of this rule.

July 30, 2020 11:27 AM from Melissa Troutman to everyone:  
<http://concernedhealthny.org/compendium/>

July 30, 2020 11:27 AM from Valerie Gremillion, Ph.D to everyone:  
Thanks Mariel!

July 30, 2020 11:27 AM from Vita Rosella to everyone: 100s of studies about health and environmental risks of FRACK-Farting are being ignored by this Racist Commission.

July 30, 2020 11:28 AM from Valerie Gremillion, Ph.D to everyone: Ms. Sandoval: calls on registered public to speak when called on, they have extended public comment to 3pm today, anything else will be heard tomorrow morning.

July 30, 2020 11:29 AM from Rebecca Sobel to everyone: Can you provide a written list of public speakers?

July 30, 2020 11:30 AM from Mariel Nanasi to everyone: The 6th edition of the Compendium of Scientific, Medical, and Media Findings Demonstrating Risks and Harms of Fracking (Unconventional Gas and Oil Extraction) produced in June 2019 should be your bedside material. It must be included in this record:  
<http://concernedhealthny.org>

July 30, 2020 11:30 AM from Vita Rosella to everyone: Yay, Rebecca!

July 30, 2020 11:32 AM from Vita Rosella to everyone: NO MORE PRODUCED WATER!!!

July 30, 2020 11:32 AM from Valerie Gremillion, Ph.D to everyone: Michele Hunter, Chief of Groundwater Quality Dept.: NMED's meetings on this... w/r/t this rule, NMED is here to specify fresh-water reporting... after reading Sierra Club's request to divide this into 3 components (pls provide this, Sierra Club!)

July 30, 2020 11:32 AM from Vita Rosella to everyone: PRODUCED WATER KILLS BLACK AND BROWN BODIES< MICHELLE HUNTER>

July 30, 2020 11:33 AM from Vita Rosella to everyone: Go Rebecca!!!

July 30, 2020 11:33 AM from Vita Rosella to everyone: Studies, Science, and proof are being ignored by these Racist Climate Killers

July 30, 2020 11:34 AM from Vita Rosella to everyone: This process is severely underserving the public.

July 30, 2020 11:34 AM from Camilla Feibelman to everyone: SC filing - [http://ocdimage.emnrd.state.nm.us/Imaging/FileStore/santafeadmin/cf/20200717/21281\\_07\\_17\\_2020\\_03\\_40\\_04.pdf](http://ocdimage.emnrd.state.nm.us/Imaging/FileStore/santafeadmin/cf/20200717/21281_07_17_2020_03_40_04.pdf)

July 30, 2020 11:35 AM from Vita Rosella to everyone: Suspend,  
Now! Stakeholder engagement has been severely neglected.

July 30, 2020 11:36 AM from Vita Rosella to everyone: These rules  
are written by Big Slimy Oil and big Smelly Gas. Fuck these pigs.

July 30, 2020 11:36 AM from Vita Rosella to everyone: SOP  
FRACKING< NOW!!!!

July 30, 2020 11:36 AM from nancy galloway to everyone: Thankyou,  
Rebecca

July 30, 2020 11:36 AM from Valerie Gremillion, Ph.D to everyone:  
Rebecca Sobel, excellent statement on how NO public coment is supportive, and  
instead of making O and G fracking the public's problem, we must limit fracking if  
they can't handle it! Also other great stuff, pls fill in :)

July 30, 2020 11:36 AM from Vita Rosella to everyone: Than you,  
Rebecca!

July 30, 2020 11:37 AM from Kathy Wooten to everyone: Thank you,  
Rebecca!

July 30, 2020 11:38 AM from Noah Tamas-Parris to everyone: YES.  
PLEASE.

July 30, 2020 11:38 AM from Daniel Pritchard (privately): Please  
disable Vita Rosella and her ranting on the chat. Very offensive and not  
appropriate for this forum.

July 30, 2020 11:38 AM from nancy galloway to everyone: Notice???

July 30, 2020 11:38 AM from nancy galloway to everyone: What  
notice?

July 30, 2020 11:38 AM from Vita Rosella to everyone: Cross  
examination? Sounds PIGGY.

July 30, 2020 11:38 AM from Vita Rosella to everyone: Excellent  
Objection that this racist commission overruled.

July 30, 2020 11:39 AM from nancy galloway to everyone: thank you,  
Daniel

July 30, 2020 11:39 AM from Valerie Gremillion, Ph.D to everyone:  
Sounds WEIRD - lawyers, pls? When have public comments been open to

cross-examination, I would ask Adrienne Sandoval to provide a legal basis for this.

July 30, 2020 11:39 AM from Vita Rosella to everyone: Violation of 1st Amendment Rights, right?

July 30, 2020 11:39 AM from Noah Tamas-Parris to everyone: Yes, what notice?

July 30, 2020 11:39 AM from Vita Rosella to everyone: What Notice?

July 30, 2020 11:39 AM from Brittany Fallon to everyone: Requiring members of the public to be subject to cross-examination deters the public from giving comment. I believe this is inappropriate.

July 30, 2020 11:39 AM from nancy galloway to everyone: Thank you, Mariel

July 30, 2020 11:40 AM from Seth Frentheway to everyone: No one is under oath and at risk of penalty of perjury... so if there is a question the public does not want to answer they don't have to.

July 30, 2020 11:40 AM from Mariel Nanasi to everyone: Can't hear

July 30, 2020 11:40 AM from nancy galloway to everyone: I can hear

July 30, 2020 11:40 AM from Vita Rosella to everyone: Madame Chairwoman is a lousy publi servant, and Racist Frack advocate.

July 30, 2020 11:40 AM from nancy galloway to everyone: What is being said... it's too mumbled

July 30, 2020 11:40 AM from Mariel Nanasi to everyone: I can't hear Commissioner Kessler

July 30, 2020 11:41 AM from nancy galloway to everyone: Louder! Slower! speak clearly

July 30, 2020 11:41 AM from nancy galloway to everyone: Please

July 30, 2020 11:41 AM from Kathy Wooten to everyone: Can't understand what she is saying.

July 30, 2020 11:41 AM from Vita Rosella to everyone: Can't hear. Can't see. Can't speak. This is monkey business.

July 30, 2020 11:41 AM from Richard Welker to everyone: Unable to hear commissioner at all!

July 30, 2020 11:41 AM from nancy galloway to everyone: Can't

understand what she is saying.

July 30, 2020 11:41 AM from Noah Tamas-Parris to everyone: I can't hear anything.

July 30, 2020 11:41 AM from nancy galloway to everyone: Nothng is clear

July 30, 2020 11:41 AM from Vita Rosella to everyone: Why can't the commission keep their masks on in compliance with state law?

July 30, 2020 11:41 AM from Vita Rosella to everyone: Put your mask back on.

July 30, 2020 11:42 AM from Melissa Troutman to everyone: Commissioner Kessler: In favor of not cross-examination of public commenters. As far as I can hear...

July 30, 2020 11:42 AM from Seth Frentheway to everyone: Why does the public fear questioning to understand their concerns better?

July 30, 2020 11:42 AM from Richard Welker to everyone: Impossible to hear

July 30, 2020 11:42 AM from Rebecca Sobel to everyone: It's an intimidation tactic and deterrent for public engagement

July 30, 2020 11:42 AM from nancy galloway to everyone: It's a free speech issue. Trying to intimidate the public with the chance of being cross-examined

July 30, 2020 11:42 AM from Norm Gaume to everyone: I can't hear the Commissioners. Cutting out. Garbled. Very poor audio.

July 30, 2020 11:42 AM from Vita Rosella to everyone: Why do they have to use the term cross-examination? They like to criminalize citizens,

July 30, 2020 11:42 AM from Kathy Wooten to everyone: You may be able to hear in the hearing room and with the court reporter, but the public cannot follow what you are saying!

July 30, 2020 11:43 AM from Noah Tamas-Parris to everyone: Thank you, Daniel Timmons.

July 30, 2020 11:43 AM from Seth Frentheway to everyone: Isn't a dialogue that includes questioning an engagement with the public and not a suppression?

July 30, 2020 11:43 AM from Vita Rosella to everyone: Thanks, Daniel! You rock!

July 30, 2020 11:44 AM from Melissa Troutman to everyone: Seth, the purpose was not made clear beforehand and the public finds "cross-examination" in a hearing intimidating. If it was framed as a conversation for clarity, that would have helped. Along with a lot of other blunders today.

July 30, 2020 11:44 AM from Vita Rosella to everyone: Marathon Oil is White Supremacist!

July 30, 2020 11:44 AM from Valerie Gremillion, Ph.D to everyone: Marathon Oil talking: supports supposed rule-making.

July 30, 2020 11:44 AM from Valerie Gremillion, Ph.D to everyone: I would like to know WHY EXACTLY they support it. How much money does it save them?

July 30, 2020 11:45 AM from Vita Rosella to everyone: Deana is a Racist child killer.

July 30, 2020 11:45 AM from Vita Rosella to everyone: She supports sacrifice zones and Frack killings.

July 30, 2020 11:45 AM from Rebecca Sobel to everyone: Sonia Grant is having technical difficulties and unable to participate

July 30, 2020 11:45 AM from Kathy Wooten to everyone: Mr. Frentheway - too much philosophy and legal (or personal) opinion. We didn't come to a trial, we came to offer public comment. That needs to be on record as in all other hearings.

July 30, 2020 11:45 AM from Vita Rosella to everyone: Kathy is correct.

July 30, 2020 11:46 AM from Seth Frentheway to everyone: Who is the spokes person for the public to say what the public finds intimidating? Public comments are always filled with philosophy and personal opinion. Seems strange to object to questioning.

July 30, 2020 11:47 AM from Melissa Troutman to everyone: Members of the public having a conversation both here and offline are the spokespersons of the public, Seth.

July 30, 2020 11:47 AM from Kathy Wooten to everyone: Not so strange to adhere to established conduct of hearings seeking public comment.

July 30, 2020 11:48 AM from Valerie Gremillion, Ph.D to everyone: No one is paying me to cross-examine me without a lawyer and against all previous precedent. Although i am happy to be cross-examined as an expert witness.

July 30, 2020 11:48 AM from Mariel Nanasi to everyone: Marathon Oil wrote the rule

July 30, 2020 11:48 AM from Valerie Gremillion, Ph.D to everyone: In this case.

July 30, 2020 11:48 AM from Seth Frentheway to everyone: As a member of the public, I don't find asking the public questions about their concerns oppressive.

July 30, 2020 11:48 AM from emmy koponen to everyone: Rules are not upheld. great statements from WEG, mariel, earth care... so much is mumbled and the first speaker had a blank space in her opening statement. the system is totally broken

July 30, 2020 11:48 AM from Noah Tamas-Parris to everyone: What are they supposed to question? You're credibility as a member of the public?

July 30, 2020 11:48 AM from Valerie Gremillion, Ph.D to everyone: Good to know, Mariel, time to go after the \$\$\$

July 30, 2020 11:49 AM from Valerie Gremillion, Ph.D to everyone: O&G is and will bankrupt us.

July 30, 2020 11:50 AM from Valerie Gremillion, Ph.D to everyone: DON't know, Noah, but NO ONE is paying me, they would be probing for connections to discredit you with, probably.

July 30, 2020 11:50 AM from Richard Welker to everyone: Cannot hear the testimony. This Cisco technology is absolutely inadequate.

July 30, 2020 11:50 AM from Valerie Gremillion, Ph.D to everyone: I need a list of who is on the commission, and what exact scientists, if anyone has that info later.

July 30, 2020 11:50 AM from Noah Tamas-Parris to everyone: probing for connections to discredit me... like being a college student?

July 30, 2020 11:51 AM from Valerie Gremillion, Ph.D to everyone: you may be a rabid tree-hugger!!

July 30, 2020 11:51 AM from Kathy Wooten to everyone: No one used the term "oppressive" except Mr. Frentheway. We are referring to standard Hearing protocol per historical standard.

July 30, 2020 11:51 AM from Rebecca Sobel to everyone: The Commission is Chair Adrienne Sandoval, OCD Director; Commissioner Jordan Kessler, Deputy Commissioner State Land Office, and Dr. Thomas Engler, NMTech professor

July 30, 2020 11:51 AM from Valerie Gremillion, Ph.D to everyone: Yes, NMOGA is so oppressed. Time to look up his salary and that of their lobbyists.

July 30, 2020 11:51 AM from Valerie Gremillion, Ph.D to everyone:  
Thanks Rebecca

July 30, 2020 11:52 AM from Noah Tamas-Parris to everyone: I have  
never heard of giving a public comment as a member of the public, only to be  
cross-examined.

July 30, 2020 11:53 AM from Noah Tamas-Parris to everyone: the purpose  
of cross-examination is to discredit people, right? Would they try to claim that my  
input isn't valid because I'm a college student?

July 30, 2020 11:53 AM from Valerie Gremillion, Ph.D to everyone: no  
idea. They want to know who is against them and probably track us :)

July 30, 2020 11:54 AM from Noah Tamas-Parris to everyone: Like, WTF?

July 30, 2020 11:56 AM from Melissa Troutman to everyone: Justin's  
work if you haven't read it yet:  
<https://www.rollingstone.com/politics/politics-features/oil-gas-fracking-radioactive-investigation-937389/>

July 30, 2020 11:56 AM from Valerie Gremillion, Ph.D to everyone:  
Justin Nobel/dual master in journalism and environment, recently published  
Radioactivity Story from O & G in Rolling Stone -

July 30, 2020 11:56 AM from Melissa Troutman to everyone: And this by  
Justin:  
<https://www.desmogblog.com/2020/04/29/syrian-job-oil-industry-radioactive-secret>

July 30, 2020 11:57 AM from nancy galloway to everyone: whoever is  
coughing, please mute yourself!

July 30, 2020 11:57 AM from Rebecca Sobel to everyone: Thank you,  
Justin! Your work is vitally important when industry tries to silence science.

July 30, 2020 11:57 AM from nancy galloway to everyone: I ditto  
Rebecca, thanks, Justin

July 30, 2020 11:57 AM from Melissa Troutman to everyone: Justin is  
quoting INDUSTRY science on radioactivity and toxicity of oil and gas waste.

July 30, 2020 11:58 AM from nancy galloway to everyone: Thanks for  
the link, Melissa

July 30, 2020 11:59 AM from Kathy Wooten to everyone: Thanks,  
Justin. Can we get a copy of your comments?

July 30, 2020 12:00 PM from Valerie Gremillion, Ph.D to everyone:  
Proposed rule is nothing more than a free pass for industry to ..not protect o & g  
workers... 1982 Petroleum Industry paper - 1991 by Kohmer article - notes highly

dangerous radioactivity through out basins. Good stuff on radioactivity - time to do real COSTS to us they are externalizing to us.

July 30, 2020 12:00 PM from Mariel Nanasi to everyone: since starved! paltry regulations.

July 30, 2020 12:00 PM from Valerie Gremillion, Ph.D to everyone: "science-starved rule" -

July 30, 2020 12:01 PM from nancy galloway to everyone: Thank you, Justin!

July 30, 2020 12:01 PM from Valerie Gremillion, Ph.D to everyone: IIRC correctly, there are less than 50 state inspectors for more than 4000 (40,000?) wells. FIRST HIRE MORE INSPECTORS!

July 30, 2020 12:02 PM from Charles Bennett to everyone: If Oil & Gas is successful in obtaining these ammendments, our only recourse will be that of the presidence left to us in the 19th century when procecuting someone who had poisoned a pubic water supply.

July 30, 2020 12:05 PM from grietje laga to everyone: does anyone know if my name has been called, grietje laga, for providing a statement?

July 30, 2020 12:05 PM from Mariel Nanasi to everyone: the New Mexico Legislative Finance Committee (LFC) creates a "Performance Report Card for various regulatory agencies seeking financing from the Legislature. In its first quarter, fiscal year 2020, the LFC had this to report about EMNRD: "The Oil and Gas Conservation Division (OCD) attributes fewer inspections and a lack of compliance with permits and regulations to compliance officer vacancies; currently half of OCD's compliance officer positions are vacant."  
According to the New Mexico Oil Conservation Division, there were 1,523 reported spills in New Mexico in 2018. That's roughly 4.2 spills per day. That means on an average each day there are 252 bbls of produced water spilled; 44 barrels of crude oil spilled; 677,000 cubic feet of natural gas leaked.

July 30, 2020 12:07 PM from Mariel Nanasi to everyone: you haven't been called grietje

July 30, 2020 12:07 PM from Valerie Gremillion, Ph.D to everyone: 1. How will we be recompensed for health and other damage? What provisions are made to get adequate funding for cleanup by these companies when they (as usual) declare bankruptcy to avoid lawsuits? Do any of the proposed rules get up-front monies for these known problems?

July 30, 2020 12:07 PM from grietje laga to everyone: thank you so much, mariel!!!!

July 30, 2020 12:08 PM from Rebecca Sobel to everyone: Thank you

Arte and YUCCA!

July 30, 2020 12:11 PM from Valerie Gremillion, Ph.D to everyone: I signed up at 7:55 this morning, will do so again so i can speak tomorrow.

July 30, 2020 12:11 PM from Valerie Gremillion, Ph.D to everyone: Anyone who wants specific points made i am happy to speak to and suggest everyone have a prepared statement to be given to the court reporter so they won't stop us speaking quickly. :)

July 30, 2020 12:11 PM from Valerie Gremillion, Ph.D to everyone: well not everyone ;)

July 30, 2020 12:24 PM from Rebecca Sobel (privately): Hey - how did you become a host>?

July 30, 2020 12:28 PM from Rebecca Sobel to everyone: Do we know what the order/schedule is for the rest of the afternoon?

July 30, 2020 12:29 PM from Vita Rosella to everyone: Yeah, when do we start up again?

July 30, 2020 12:29 PM from Rebecca Sobel to everyone: 1PM is my understanding, but I'm not sure how long the public comment session will be and whether parties are presenting testimony/witnesses afterwards

July 30, 2020 12:30 PM from Vita Rosella to everyone: Okay, gives me time to Chat it up.

July 30, 2020 12:31 PM from Vita Rosella to everyone: Largest Driver of Climate Change: Greenhouse gases produced by Fossil Fuels.

July 30, 2020 12:33 PM from Vita Rosella to everyone: The U.S. is great again as the world's number 1 producer of Greenhouse Gases.

July 30, 2020 12:34 PM from Vita Rosella to everyone: Over 40% of U.S. produced Greenhouse Gases comes from the Fossil Fuel Industry in the beautiful State of New Mexico.

July 30, 2020 12:35 PM from Rebecca Sobel to everyone: PUBLIC SERVICE ANNOUNCEMENT: The Commission is obligated to respond to any questions made in public comment that are relevant to the hearing, in official rulemaking.

July 30, 2020 12:35 PM from Vita Rosella to everyone: Thanks. Good to know.

July 30, 2020 12:35 PM from Rebecca Sobel to everyone: PUBLIC SERVICE ANNOUNCEMENT: The Commission is obligated to hold the hearing for as long as is necessary to comply with ALL public comment requests.

July 30, 2020 12:36 PM from Rebecca Sobel to everyone: So manke  
sure to sign up by 3 PM today!!

July 30, 2020 12:36 PM from Vita Rosella to everyone: Do you mean  
Sign up for tomorrow

July 30, 2020 12:36 PM from Vita Rosella to everyone: ?

July 30, 2020 12:38 PM from Vita Rosella to everyone: The World  
Health Organization reports well over six million Climate Deaths due to Climate  
Change, driven by the Fossil Fuel Industry.

July 30, 2020 12:39 PM from Vita Rosella to everyone: Climate  
Change is bad for public health to say the least, so Fossil Fuel Extraction is bad  
for public health, to say the least.

July 30, 2020 12:39 PM from Vita Rosella to everyone: SIX MILLION  
is a big number.

July 30, 2020 12:40 PM from Rebecca Sobel to everyone: Sign up for  
tomorrow. Or the the days after if they don't get a chance to hear all the public  
comments

July 30, 2020 12:46 PM from Vita Rosella to everyone: How does  
the Commission and Commissioners defend themselves against the accusation that  
Fracking in New Mexico and making rules about it rather than banning it, is  
disproportionately killing People of Color worldwide, and that since the ten  
largest Fossil Fuel Execs in the U.S. are all white Republicans supporting the  
Fossil Fuel Industry is supporting a White Supremacist Industry and therefore a  
complicit act of Racism. Also, how will these rules changes help reduce the number  
of climate deaths worldwide and in New Mexico. Please respond in writing.

July 30, 2020 12:47 PM from Vita Rosella to everyone: How will  
these rule changes acknowledge the vast amount of science that says Fracking and  
Public Health are incompatible? Please respond in writing.

July 30, 2020 12:48 PM from Vita Rosella to everyone: Will these  
rule changes address the sacrifice zones specifically? Please resond in writing.

July 30, 2020 12:49 PM from Vita Rosella to everyone: How will  
these rule changes effect the use of produced water in the sacrifice zones? Please  
respond in writing.

July 30, 2020 12:52 PM from Vita Rosella to everyone: Are the  
Commissioner, as they consider these rule changes in any way skeptical of my claims  
that the World Health Organization has reported over 6 million Climate Deaths/  
Please respond in writing.

July 30, 2020 12:59 PM from Rebecca Sobel to everyone: How do  
these rule changes accomodate environmental justice obligations? Please respond in

writing.

July 30, 2020 1:02 PM from Rebecca Sobel to everyone: Can you please clarify what the schedule is for the rest of the day?

July 30, 2020 1:04 PM from Rebecca Sobel to everyone: Will the people who missed their chance to give public comment be contacted and informed that they are able to provide comment tomorrow?

July 30, 2020 1:04 PM from Valerie Gremillion, Ph.D to everyone: Suggest you also email al this, Rebecca.

July 30, 2020 1:05 PM from Valerie Gremillion, Ph.D to everyone: Also I suggest we all compile a list of what appear to be tactics to stonewall and deny public participation - it's either that or completely unacceptable and total INCOMPETENCE.

July 30, 2020 1:05 PM from nancy galloway to everyone: You're breaking up really bad

July 30, 2020 1:07 PM from Linda Burchfiel to everyone: is there a good reason to use webex instead of zoom? Stonewalling?

July 30, 2020 1:09 PM from emmy koponen to everyone: unprofessionalism unreal,

July 30, 2020 1:10 PM from Noah Tamas-Parris to everyone: so it's fine if people consume trace amounts of radium?

July 30, 2020 1:12 PM from Valerie Gremillion, Ph.D to everyone: Should go on the list, along with requiring public commenters to be cross-examined (!) , delaying the meeting by 90 minutes for technical reasons of incompetence; not publicizing the Agenda in accordance with the law, posting the relevant documents in the most obscured and absolutely non-standard way possible, with file labels being literally ONLY the file size and date, when they are pdfs that could be posted AS IS STANDARD by name - this was done for over 100 documents, and seems deliberately obscurative.

July 30, 2020 1:15 PM from emmy koponen to everyone: as is the quality of this web ex

July 30, 2020 1:20 PM from nancy galloway to everyone: i agree, Oliver

July 30, 2020 1:21 PM from madeleine carey to everyone: Madeleine Carey is here, I had to step away for a prior scheduled meeting and am here

July 30, 2020 1:24 PM from Charles Bennett to everyone: Would any who advocate for imposing "produced water" be willing to subject themselves to drinking the product that they intend on imposing upon the public?

July 30, 2020 1:25 PM from nancy galloway to everyone: Thank you  
madeline

July 30, 2020 1:34 PM from Kathy Wooten to everyone: Will we  
have access to the record of this entire chat stream?

July 30, 2020 1:35 PM from Rebecca Sobel to everyone: Thank you,  
Yang for your powerful and truthful words.

July 30, 2020 1:36 PM from Valerie Gremillion, Ph.D to everyone:  
Adreienne Sandoval, Madeleine Carey is here too

July 30, 2020 1:37 PM from Valerie Gremillion, Ph.D to everyone: Who  
is speaking?

July 30, 2020 1:37 PM from Cara Lynch to everyone: Who is  
speaking?

July 30, 2020 1:38 PM from oliver to everyone: Grietje Laga

July 30, 2020 1:39 PM from Valerie Gremillion, Ph.D to everyone: thx

July 30, 2020 1:39 PM from Rebecca Sobel to everyone: ++++!

July 30, 2020 1:41 PM from Daniel Timmons - WildEarth Guardians to  
everyone: save the chat, everyone!

July 30, 2020 1:42 PM from Valerie Gremillion, Ph.D to everyone:  
grietje, wd love to be in touch, i am near u i think

July 30, 2020 1:43 PM from Kathy Wooten to everyone: Daniel -  
It's true - I don't know how to save the chat. Is it possible to coach that via  
this chat process, or no? Thank you.

July 30, 2020 1:44 PM from Valerie Gremillion, Ph.D to everyone:  
EXCELLENT points on likely TOXIC EXPORTS of NM of hay and other agricultural  
products, thank you - this is direct leverage over the governor, or seen otherwise,  
our moral responsibility to let the rest of the nation know the toxic things we are  
exporting.

July 30, 2020 1:45 PM from Daniel Timmons - WildEarth Guardians to  
everyone: You can copy and paste it into a different document (CTRL C; CTRL  
V), but not sure if participants can save it in "native format"

July 30, 2020 1:46 PM from grietje laga to everyone: valerie,  
YUCCA and NEE have my contact info. no desire to put that on this chat. thank you  
for understanding and reaching out.

July 30, 2020 1:46 PM from Valerie Gremillion, Ph.D to everyone: of

course! just wanted you to know, i'll find you :)

July 30, 2020 1:49 PM from Kathy Wooten to everyone: Thank you, Daniel.

July 30, 2020 1:50 PM from Rebecca Sobel to everyone: C

July 30, 2020 1:50 PM from Linda Burchfiel to everyone: I'm having trouble with audio. Could someone please give the phone number for calling in?

July 30, 2020 1:51 PM from Valerie Gremillion, Ph.D to everyone: Sny of you on Twitter, my pal @MandaravaN is tweeting on what i am passing on to her, pls follow her if you can and retweet.

July 30, 2020 1:51 PM from Rebecca Sobel to everyone: Can the Commission please clarify the procedural order -- Does the Commission intend to make a final decision on the proposed rule at the end of this hearing, tomorrow July 31?

July 30, 2020 1:51 PM from emmy koponen to everyone: well said last speaker

July 30, 2020 1:53 PM from Valerie Gremillion, Ph.D to everyone: Linda, here it is for today and tomorrow:

July 30, 2020 1:53 PM from Valerie Gremillion, Ph.D to everyone: July 30th

OCC - (Day 1) Produced Water Rule Making

Access code: 963 288 479

July 30, 2020 1:53 PM from Rebecca Sobel to everyone: Also - will the speakers who missed their allotted times be contacted directly by OCD and informed they can speak tomorrow? Please let us know if it is incumbent on the public to inform public citizens of their change in public comment time.

July 30, 2020 1:56 PM from Valerie Gremillion, Ph.D to everyone: --Let's reframe this issue, we need to change the FALSE LANGUAGE being used by Oil and Gas

July 30, 2020 2:02 PM from nancy galloway to everyone: I signed up before 5 yesterday! Why is my name not being called?

July 30, 2020 2:03 PM from Mariel Nanasi to everyone: Dr. Gremillion don't you want to speak?

July 30, 2020 2:03 PM from nancy galloway (privately): I signed up before 5 and I was told that I could speak today. I've been waiting all day

July 30, 2020 2:03 PM from nancy galloway (privately): Why isn't my name being called?

July 30, 2020 2:03 PM from Valerie Gremillion, Ph.D to everyone: Yes but not until tomorrow, they rejected my request to speak today early this morning, I will be prepared tomorrow.

July 30, 2020 2:03 PM from Mariel Nanasi to everyone: They just called your name

July 30, 2020 2:04 PM from Valerie Gremillion, Ph.D to everyone: I re-sent my request being more explicit an hour ago. Yes, i know. But Nancy, who got her request in by 5pm yesterday, should speak first.

July 30, 2020 2:04 PM from Valerie Gremillion, Ph.D to everyone: And i believe i was third.

July 30, 2020 2:04 PM from Valerie Gremillion, Ph.D to everyone: I will yield to her for today

July 30, 2020 2:05 PM from Valerie Gremillion, Ph.D to everyone: Anyone else get their request in by 5pm yesterday? Nancy are you here?

July 30, 2020 2:06 PM from Valerie Gremillion, Ph.D to everyone: oh good duh.

July 30, 2020 2:10 PM from nancy galloway to everyone: She called me.

July 30, 2020 2:10 PM from nancy galloway to everyone: I was so nervous. I hope it made sense.

July 30, 2020 2:11 PM from Rebecca Sobel to everyone: Thank you Nancy!!

July 30, 2020 2:11 PM from Valerie Gremillion, Ph.D to everyone: You are excellent, Nancy!

July 30, 2020 2:11 PM from nancy galloway to everyone: :)

July 30, 2020 2:11 PM from Valerie Gremillion, Ph.D to everyone: AND

your words too :)

July 30, 2020 2:11 PM from nancy galloway to everyone: Thanks :)

July 30, 2020 2:12 PM from Valerie Gremillion, Ph.D to everyone: Oh this should be fun, i am recording this.

July 30, 2020 2:12 PM from Rebecca Sobel to everyone: If people aren't here to hear that announcement, how will they know they are permitted to give public comment tomorrow? Again I ask, does OCD intend to contact each individual that missed their opportunity to comment?

July 30, 2020 2:12 PM from Linda Burchfiel to everyone: I will not be available to speak tomorrow. Where can I send in my comments?

July 30, 2020 2:12 PM from Rebecca Sobel to everyone:  
florene.davidson@state.nm.us

July 30, 2020 2:13 PM from Camilla Feibelman to everyone:  
florene.davidson@state.nm.us

July 30, 2020 2:13 PM from mary ogle to everyone: Hi All, I've been here whole time, but couldn't get my audio to work. Hope I can tomorrow.

July 30, 2020 2:13 PM from Cara Lynch to everyone: Hi I can't hear.

July 30, 2020 2:14 PM from nancy galloway to everyone: Can't understand him... breaking up

July 30, 2020 2:14 PM from Cara Lynch to everyone: The testimony is fading in and out.

July 30, 2020 2:14 PM from nancy galloway to everyone: please repeat

July 30, 2020 2:14 PM from Norm Gaume to everyone: The audibility of the OCD lawyer and witness is unacceptably poor. Much better without mask.

July 30, 2020 2:17 PM from Rebecca Sobel to everyone: The Produced Water Research Consortium is an industry funded effort. What other research efforts is EMNRD undertaking?

July 30, 2020 2:17 PM from Valerie Gremillion, Ph.D to everyone: Who will be allowed to cross-examine these witnesses?

July 30, 2020 2:17 PM from Valerie Gremillion, Ph.D to everyone: It seems we should form our own scientific group that they also must work with. Scientists and doctors and experts let's do it, I am sick of this.

July 30, 2020 2:18 PM from Rebecca Sobel to everyone: Is the Dept. testifying that methane rules are part of Produced Water rulemaking?

July 30, 2020 2:19 PM from Valerie Gremillion, Ph.D to everyone: they seem somehow linked....

July 30, 2020 2:21 PM from Rebecca Sobel to everyone: Can you qualify the geographic metrics of what constitutes "within the oil and gas industry"?

July 30, 2020 2:21 PM from Valerie Gremillion, Ph.D to everyone: SO it will be out of their jurisdiction, that does not mean they won't use it for agriculture, just that these guys won't be concerned with it then - if i heard him correctly.

July 30, 2020 2:22 PM from Camilla Feibelman to everyone: That methane rule deals pipelines, that those rules could be a model for produced water pipelines.

July 30, 2020 2:22 PM from Rebecca Sobel to everyone: the industry is expansive. Communities are embedded within oil and gas fields. The "produced water" explosion that happened in January was in a family's backyard: <https://nmpoliticalreport.com/2020/01/24/it-was-raining-on-us-family-awoken-by-produced-water-pipe-burst-near-carlsbad/>

July 30, 2020 2:23 PM from Rebecca Sobel to everyone: Besides TDS, what other qaulifiers help to distinguish the fluid? i.e. how is the Division accounting for measuring radium 224 and radium 226 as a qualifier for "water" other than "produced water"

July 30, 2020 2:24 PM from Valerie Gremillion, Ph.D to everyone: yes but he just specified 3 uses of produced water that are ALL they will regulate, if i understand, that won't regulate produced water being used for other things like roads, agriculture etc

July 30, 2020 2:25 PM from Valerie Gremillion, Ph.D to everyone: so the question is where/when have those uses been approved, and under whose purview?

July 30, 2020 2:25 PM from Rebecca Sobel to everyone: Can you please provide the language in question?

July 30, 2020 2:27 PM from Rebecca Sobel to everyone: Will the Division be providing a new redlined document of the proposed rule?

July 30, 2020 2:29 PM from Rebecca Sobel to everyone: In what ways was the oil and gas industry NOT encouraged to reuse "produced water" wihtin the oil and gas industry before the Produced Water Act? There were no new permissions given or restrictions lifted, just a slippery slope to deregulate the waste.

July 30, 2020 2:31 PM from Valerie Gremillion, Ph.D to everyone: I would like a schedule of the fines, fees, licensing etc for any mal-use of toxic fracking water 'produced' by the O&G industry, how many wells they have, and how many inspections per year they are given.

July 30, 2020 2:32 PM from Mariel Nanasi to everyone: Mr, Feldewert cannot share screen

July 30, 2020 2:32 PM from Eleanor Bravo to everyone: No matter what rules may be made, no agency in NM has the capacity to enforce

July 30, 2020 2:33 PM from Valerie Gremillion, Ph.D to everyone: As far as I can find out, they have 32 inspectors for 40,000-120,000 wells

July 30, 2020 2:33 PM from Rebecca Sobel to everyone: Yes - What capacity does OCD have to enforce any "produced water" rules promulgated during this hearing?

July 30, 2020 2:34 PM from Valerie Gremillion, Ph.D to everyone: Yes, what fines, incentives, inspections, courts, jurisdictions are involved? What bonds or assurances do they provide to cover environmental or other negative impacts?

July 30, 2020 2:34 PM from Eleanor Bravo to everyone: I believe now it's 16 or fewer inspectors

July 30, 2020 2:35 PM from Rebecca Sobel to everyone: Does that limit "water" to definition within those categories???

July 30, 2020 2:35 PM from Rebecca Sobel to everyone: That seems very dangerous

July 30, 2020 2:36 PM from Rebecca Sobel to everyone: Please define "secondary recovery"

July 30, 2020 2:37 PM from Valerie Gremillion, Ph.D to everyone: "Research using produced water is to be encouraged..should find out what THAT includes

July 30, 2020 2:37 PM from Valerie Gremillion, Ph.D to everyone: We need a list of terms REQUIRED to be defined.

July 30, 2020 2:39 PM from Valerie Gremillion, Ph.D to everyone: Public notice did not note phased rule-making , nor many other critical aspects the public should be informed of.

July 30, 2020 2:40 PM from Valerie Gremillion, Ph.D to everyone: Oh good, the Pandemic wins again - let's shut down all fracking now then during the Pandemic, no?

July 30, 2020 2:45 PM from Norm Gaume to everyone: Lots of interference from unmuted microphones or feedback.

July 30, 2020 2:46 PM from Valerie Gremillion, Ph.D to everyone: Yes, everyone PLEASE mute!

July 30, 2020 2:46 PM from Rebecca Sobel to everyone: I think it's coming from Adrienne Sandoval's screen

July 30, 2020 2:54 PM from Rebecca Sobel to everyone: Where is "the oil and gas industry"??

July 30, 2020 2:54 PM from Rebecca Sobel to everyone: Is that people

July 30, 2020 2:54 PM from Rebecca Sobel to everyone: s homes?

July 30, 2020 2:55 PM from Valerie Gremillion, Ph.D to everyone: corps? entities? industry orgs, lobbyists, oil companies?

July 30, 2020 2:55 PM from Valerie Gremillion, Ph.D to everyone: NMED ppl have NO idea they are going to be doing a database on this as Brancard said.

July 30, 2020 2:56 PM from Valerie Gremillion, Ph.D to everyone: "They would have to talk to us and they have not"

July 30, 2020 3:00 PM from Valerie Gremillion, Ph.D to everyone: IT IS A HAZARDOUS WASTE!

July 30, 2020 3:02 PM from Valerie Gremillion, Ph.D to everyone: So you won't make rules until you have been as rigorous with produced water as you will be methane?

July 30, 2020 3:04 PM from Rebecca Sobel to everyone: I'm confused, did the Chair just announce another process related to this rulemaking??

July 30, 2020 3:04 PM from Valerie Gremillion, Ph.D to everyone: Well we won't know how to be specific in the rule-making unless we know that these are useless rules, nothing like real regulation seen with methane. So no real rulemaking yet then, and we can expect NO RULES YET THEN?

July 30, 2020 3:05 PM from Valerie Gremillion, Ph.D to everyone: yes i think so Rebecca, they are acting like this is preliminary??

July 30, 2020 3:05 PM from Valerie Gremillion, Ph.D to everyone: and 'more specific rule-making will of course follow' but i see no evidence of this

July 30, 2020 3:06 PM from Rebecca Sobel to everyone: I

understood the order to show the Commission intends on ruling at the end of the hearing

July 30, 2020 3:06 PM from Rebecca Sobel to everyone: I don't see anything in the procedural order that indicates another hearing process or rigorous debate opportunity

July 30, 2020 3:08 PM from Valerie Gremillion, Ph.D to everyone: We should press Florene on this before 5pm, also Adrienne

July 30, 2020 3:08 PM from Morgan Chavez to everyone: Does anyone know if and where this recording will be posted?

July 30, 2020 3:14 PM from Rebecca Sobel to everyone: What does "treated produced water" mean? Are there any standards??

July 30, 2020 3:18 PM from Valerie Gremillion, Ph.D to everyone: We have identified uses we could outlaw, outright, NOW.

July 30, 2020 3:21 PM from Rebecca Sobel to everyone: Also the July 2016 WPX explosion in GReater Chaco:  
<https://www.ecowatch.com/massive-fracking-explosion-in-new-mexico-1919567359.html>

July 30, 2020 3:21 PM from Rebecca Sobel to everyone: of produced water storage tanks

July 30, 2020 3:22 PM from Valerie Gremillion, Ph.D to everyone: I have not found any standards for 'treated produced water'

July 30, 2020 3:29 PM from Kurt Anderson to everyone: I left for 2 minutes. Did the proceedings end?

July 30, 2020 3:30 PM from Rebecca Sobel to everyone: No, they are taking a break. I am not clear when the start time is though.

July 30, 2020 3:32 PM from Kathy Wooten to everyone: Wow - so sorry that I have to leave the meeting without hearing from Sierra Club and New Energy Economy. Does anyone know if this recorded meeting will be available to the Public? Thanks.

July 30, 2020 3:39 PM from Rebecca Sobel to everyone: Is it possible to do a screen share when discussing language changes? It's hard to follow along.

July 30, 2020 3:40 PM from Rebecca Sobel to everyone: Can the Division please list the stakeholders contacted for prehearing engagement?

July 30, 2020 3:44 PM from Reena Szczepanski (privately): Can written comments still be submitted?

July 30, 2020 3:58 PM from Rebecca Sobel to everyone: How can the public track the use or reuse of produced water at facilities that may disproportionately impact them?

July 30, 2020 3:58 PM from Valerie Gremillion, Ph.D to everyone: How is volume tracked, as well as overall toxicity, location, and suitability of location.

July 30, 2020 4:03 PM from Rebecca Sobel to everyone: .. what's the rush?

July 30, 2020 4:06 PM from Valerie Gremillion, Ph.D to everyone: rushed enough that they are not inspecting most wells before approving them

July 30, 2020 4:07 PM from Valerie Gremillion, Ph.D to everyone: 'we want to be sure that EMNRD is not responsible for all the costs of this, just the goodies that we can extract'

July 30, 2020 4:13 PM from Rebecca Sobel to everyone: .. Do you still think it's a good idea?

July 30, 2020 4:13 PM from Rebecca Sobel to everyone: Do the rules permit 4+ pw spills a day?

July 30, 2020 4:14 PM from Valerie Gremillion, Ph.D to everyone: "we can now tell them to go across the street..." "Where there are no rules (NMED)?" "yes, where there are no rules"

July 30, 2020 4:14 PM from Gabrielle to everyone: Did he say earlier that to "better understand" treatment of produced water you find out the process after treatment? Did he say that to say "why should they ask produce water users to submit a plan?"... Is this the same as refusing to ask PW users to at least consider protecting communities and the surrounding environment?

July 30, 2020 4:16 PM from Kurt Anderson to everyone: What are needed are rules providing significant penalties for "accidental" spills in addition to the requirements for reporting and clean-up. Are there any penalties now?

July 30, 2020 4:17 PM from Rebecca Sobel to everyone: Were those NMED fines or EMNRD fines?

July 30, 2020 4:20 PM from nancy galloway to everyone: It'ss totally relevant

July 30, 2020 4:20 PM from Valerie Gremillion, Ph.D to everyone: don't think NMED,

July 30, 2020 4:20 PM from Valerie Gremillion, Ph.D to everyone: This is THE POINT, IT IS COMPLETELY RELEVANT

July 30, 2020 4:22 PM from Valerie Gremillion, Ph.D to everyone:  
Ground water department: 58 positions total, 12 vacant - but 5 of those are in the  
pollution prevention section

July 30, 2020 4:23 PM from Rebecca Sobel to everyone: so there  
are no standards?

July 30, 2020 4:25 PM from Valerie Gremillion, Ph.D to everyone:  
Looks like they are shoving it over to NMED, who except for Susanna Martinez  
appointees, no one seems aware they will have anything to do with this

July 30, 2020 4:25 PM from Valerie Gremillion, Ph.D to everyone: and  
NMED has no standards that i can find now, will look.

July 30, 2020 4:30 PM from nancy galloway to everyone: Rule-making  
must be based on substantial evidence. What a concept!

July 30, 2020 4:31 PM from Dale Doremus to everyone: WQCC  
Standards 20.6.2.3103 NMAC and toxic pollutants listed in 20.6.2..7.T

July 30, 2020 4:31 PM from emmy koponen to everyone: guilty

July 30, 2020 4:31 PM from emmy koponen to everyone: for neglect

July 30, 2020 4:31 PM from Gabrielle to everyone: Hmm, the House Bill  
seems like a intention not "evidence". Why does he keep calling the House Bill  
evidence?

July 30, 2020 4:32 PM from Gabrielle to everyone: Doesn't he need  
evidence to prove the rules are pursuant of the HB?

July 30, 2020 4:32 PM from Valerie Gremillion, Ph.D to everyone: HB  
546 is their cover

July 30, 2020 4:32 PM from Rebecca Sobel to everyone: Does the  
Division anticipate recommending any other statutory changes to comply with HB 546?

July 30, 2020 4:35 PM from Valerie Gremillion, Ph.D to everyone: for  
our aquifers, and in generating earthquakes

July 30, 2020 4:35 PM from Gabrielle to everyone: How is it out of  
the scope?? She's asking about where produced water go's? This is a hearing about  
produced water.

July 30, 2020 4:36 PM from Valerie Gremillion, Ph.D to everyone: How  
can they afford a million gallons of fresh water per well? or do they not PAY?

July 30, 2020 4:41 PM from emmy koponen to everyone: they steal  
the water from public lands. they get breaks like big ag and i am sure more

July 30, 2020 4:42 PM from Valerie Gremillion, Ph.D to everyone: TWO YEARS AGO IT WAS ALREADY HUGE!

July 30, 2020 4:42 PM from nancy galloway to everyone: poisoning the environment is not a public issue?!

July 30, 2020 4:42 PM from Valerie Gremillion, Ph.D to everyone: Earthquakes induced by deep injection wells are a massive issue!

July 30, 2020 4:43 PM from Kurt Anderson to everyone: In New Mexico they pay NOTHING if they have the water rihHat's why they are buying up land (e.g., near Jal) with associated water rights. I'm not sure what they are paying for water from someone elses' righted wells or from Texas.

July 30, 2020 4:43 PM from emmy koponen to everyone: bottom line: well s capped, no new wells, safely closing wells

July 30, 2020 4:43 PM from Valerie Gremillion, Ph.D to everyone: Ms Sandoval, she was ASKED a question

July 30, 2020 4:44 PM from Valerie Gremillion, Ph.D to everyone: What is the inspector to well ratio?

July 30, 2020 4:45 PM from Gabrielle to everyone: Two years ago we were having these same conversations with the same people.

July 30, 2020 4:53 PM from Rebecca Sobel to everyone: Are roads trucks drive to transport pw considered inside or outside oil and gas activities?

July 30, 2020 4:54 PM from Rebecca Sobel to everyone: What is the difference between a "spill" and a "leak" or an "explosion"?

July 30, 2020 4:54 PM from Camilla Feibelman to everyone: Will the meeting end at 5pm?

July 30, 2020 4:55 PM from Norm Gaume to everyone: Inaudible

July 30, 2020 4:55 PM from nancy galloway to everyone: what did she answer about the time? I couldn't undrstand her.

July 30, 2020 4:55 PM from Rebecca Sobel to everyone: She said they would go a little past 5

July 30, 2020 4:55 PM from Mariel Nanasi to everyone: Well inspections were down in FY 2019 due to high vacancy rates in OCD field offices." Energy Minerals Natural Resource Department annual report, 2019, [http://www.emnrd.state.nm.us/documents/EMNRD\\_AnnualReport\\_2019\\_nm.pdf](http://www.emnrd.state.nm.us/documents/EMNRD_AnnualReport_2019_nm.pdf), p. 63. "In calendar year 2019 the OCD inspected 27,756 oil and gas wells and facilities out of 65,062 total facilities." p. 60. "Timely approval of [application] permits [to

drill] in conjunctions with the OCD's inspection program ensures that the oil and gas industry can thrive [.]” pp. 60-61. In 2016 a total of 49,624 were inspected; in 2017 a total of 37,928 were inspected; in 2018 a total of 42,880 were inspected; and in 2019 a total of 31,043 were inspected. p. 63.

July 30, 2020 4:56 PM from Norm Gaume to everyone: She said the Commissioner's cross examination of Brancard will be the last activity today.

July 30, 2020 4:56 PM from Mariel Nanasi to everyone: 15. The number of well inspections has decreased by 28% between the administrations of Governor Martinez (42,880 inspections in 2018) and Governor Lujan Grisham (31,043 inspections in 2019).

July 30, 2020 4:56 PM from Rebecca Sobel to everyone: Can you please list "those folks"?

July 30, 2020 4:57 PM from Kurt Anderson to everyone: End at 5:00? We'll know shortly. I'll have to leave now in any case. For the rest of you, Enjoy!

July 30, 2020 4:57 PM from Rebecca Sobel to everyone: Who, besides agency officials and oil and gas officials were consulted in the informal pre hearing process?

July 30, 2020 4:58 PM from Valerie Gremillion, Ph.D to everyone: he said 'pretty much only O&G and environment'

July 30, 2020 4:58 PM from Rebecca Sobel to everyone: abd "environment" was Sierra Club? I'm not sure that's accurate, even. Can the Sierra Club confirm?

July 30, 2020 4:59 PM from Norm Gaume to everyone: Commissioner Engler is not visible on video

July 30, 2020 5:00 PM from Norm Gaume to everyone: Engler audio is hard to understand, as opposed to Brancard

July 30, 2020 5:02 PM from Mariel Nanasi to everyone: WPX illegally dumped at least 13 bbls of produced fracked waste water on land causing a saturation depth approximately 3 inches; Incident ID NRM2006956859. Similar to past violations, WPX and other industrial facilities receive limited or no punishment for their violations, are allowed to continue to operate, leading to the occurrence of major accidents. WPX and the other O&G industries' deplorable record of spills make the risk of damage even more likely. Governmental entities do not engender confidence in its ability to 1) prevent incidents from occurring; 2) notify impacted landowners and/or community members of the damage caused; and 3) remediate the problem.

July 30, 2020 5:02 PM from Rebecca Sobel to everyone: The Permian

Basin spans all of southwest NM - Roswell to Jal and beyond. Is this whole area "oilfield"?

July 30, 2020 5:04 PM from Valerie Gremillion, Ph.D to everyone: How many companies have cleaned up their spills completely? How many have declared bankruptcy and done little to no cleanup? How much money has the State spent on cleaning up after O&G companies that have not complied or disappeared?

July 30, 2020 5:04 PM from Rebecca Sobel to everyone: Is ALL of Greater Chaco an "oil field"? Where are those lines drawn when industry necessarily and routinely steps off the wellpad?

July 30, 2020 5:08 PM from Rebecca Sobel to everyone: It was explicitly illegal before, and now the door is open.

July 30, 2020 5:08 PM from Valerie Gremillion, Ph.D to everyone: Damn really!!
