Township 23 South, Range 32 East, N.M.P.M.  
Section 33: W/2  
Lea County, New Mexico

Dear Mr. Reker,

EOG Resources, Inc. ("EOG") has received and reviewed the COG Operating LLC ("COG") proposals to drill 15 wells identified in Exhibit "A" attached herein. It is EOG's understanding that these wells are set with bottom hole locations in the W/2 of Section 33, T23, R23E, traversing EOG Lease NMNM-77063. This proposal conflicts with EOG's 2 mile development plans for the W/2 of Section 33, T23S, R32E that predates the Mastiff proposals. A breakdown of EOG's planned wells targeting both the Bone Spring formation and the Wolfcamp formation are included in Exhibit "B" attached herein. Therefore, EOG declines to participate in your plans and requests that you exclude lease NMNM-77063 from your development plans.

Should you have any questions or concerns regarding our response, do not hesitate to contact me via the information listed below.

Sincerely,

A handwritten signature in blue ink that reads "Chloe".
