Re: Well Proposal Sidewinder #1H Well <u>T-26-S, R-29-E, N.M.P.M.</u> Section 32: Lots 1 thru 4, and the south 46 acres of the N/2 N/2, containing 126 acres of land Eddy County, New Mexico

Gentlemen:

OGX Resources LLC ("OGX") hereby proposes to drill the above referenced horizontal well at a surface hole location of 480' FSL and 480' FWL of Section 32 and a bottom hole location of 330' FSL and 330' FEL of Section 32, all in T-26-S, R-29-E, N.M.P.M., Eddy County, New Mexico. This well will be drilled to a true vertical depth of 7,200' then horizontally approximately 4,500'' to the bottom hole location, for a total measured depth of approximately 11,700' to adequately test the Avalon portion of the Bone Spring Formation. The proration unit for this well will be the Lots 1, 2, 3, 4 and the south 26 acres of the $N'_2N'_2$ of said Section 32 or 126 acres of land.

Enclosed for your review is an AFE (in duplicate) showing the estimated drilling and completion costs for the subject well and a C-102 plat.

OGX invites the participation of Chesapeake Exploration LLC ("CHESAPEAKE") in this well. If CHESAPEAKE wishes to participate in the drilling of this well, please execute both copies of the AFE, after which return one copy to the undersigned. Upon receipt of the AFE, OGX will mail you an Operating Agreement for your execution covering the proration unit for the subject well, which will supersede all existing operating agreements, naming OGX as the Operator. According to our calculations, your company would have an 11.1439% working interest in the subject proration unit.

Please evidence your election to participate in this well by signing the Authorization for Expenditure enclosed herewith and returning one (1) copy to me at your earliest convenience.
