Subject: OGX/Case 14662

David: As we discussed Thursday, if you look at the land plat of Section 32 (short section), the NW/4 equivalent is a single tract with common ownership, and the NE/4 equivalent is a single tract with common ownership. Since the section (252 acres total) is being developed with laydown units, ownership in each unit is identical. In addition, each well unit will have 126 acres, so no one in the section is disadvantaged by, or excluded from, the S/2N/2 well unit.

Jim
