As a prudent operator, XTO will pursue unit operations that utilize best practices for the efficient development and conservation of the natural resources to achieve the highest level of economic recovery, while focusing on the protection of correlative rights and the prevention of waste.

- 2021 Review of Operations
- 2022 Plan of Development
- Listing and Status of Existing Wells (attachment)
- Facilities Infrastructure (attachment)
- Reservoir Production Plot (attachment)
- Current and planned water uses

It is understood that approval of the 2022 Plan of Development ("POD") is not an authorization of operations requiring specific permitting, referencing by way of example and not an all-inclusive list, drill well APD's or pipeline Rights-of-Way. Any adjustments that increase the work plan of this POD will be requested by operator filing of a Supplemental POD.

If this POD meets with your approval, please advise the undersigned in writing at your earliest opportunity.

If during your review of this information you should have reservoir questions, please direct same to Toni Izzareli at 832-625-4329. All other inquiries may be directed to the undersigned at 832-625-4370, or alternatively at carlos.salinas@exxonmobil.com.
