In the event additional time is needed for the hearing because the agenda below runs longer than 1 day, the same login information and physical location will be available on May 12, 2023.

If you are an individual with a disability who is in need of a reader, amplifier, qualified sign language interpreter, or any other form of auxiliary aid or service to attend or participate in the hearing, please contact Florene Davidson at (505) 470-5480 or through the New Mexico Relay Network at 1-800-659-1779 by May 1, 2023. Public documents can be provided in various accessible formats. A preliminary agenda will be available to the public no later than two weeks prior to the meeting. A final agenda will be available no later than 72 hours preceding the meeting. Members of the public may obtain copies of the agenda by contacting Ms. Davidson at the phone number indicated above. Also, the agenda will be posted on the Oil Conservation Division website at www.emnrd.nm.gov/ocd.

The following items are for discussion and possible action:

Report from Oil Conservation Division to Commission concerning Division Enforcement Activities: This item is a follow-up from the February 9, 2023 Commission meeting and is response to the YUCCA request regarding spill rule enforcement efforts. This is an informational presentation by the Division and is not docketed matter or adjudication.

Case No. 14720: Targa Northern Delaware, LLC (Targa), the current operator of the Red Hills AGI #1 well, shall submit to the Commission (1) injection data covering the first four years of Agave Energy Company's operation of the Red Hills AGI #1 Well, located in Section 13, Township 24 South, Range 33 East, and (2) an updated model of the projected scope of the injection plume after 30 years of injection, which update shall be based on the injection data and any other relevant data concerning the reservoir.

Case No. 23463: Application of Targa Northern Delaware LLC for Authorization to Inject, Lea County, New Mexico. Targa Northern Delaware LLC ("Targa") seeks authorization to drill and operate a Class II acid gas injection ("AGI") well, the Red Hills AGI #3 well, at Targa's gas processing facility ("Facility") in Lea County, New Mexico. The proposed redundant well (Red Hills AGI #3) will be a vertical well with a surface location approximately 1,138 feet from the north line (FNL) and 354 feet from the east line (FEL) of Section 13, Township 24 South, Range 33 East, Lea County, New Mexico. The proposed injection zones for this well are the Devonian and Upper Silurian Wristen and Fusselman Formations, at depths of approximately 16,000 to 17,600 feet. The maximum surface pressure will not exceed 5,000 psi with a maximum daily injection volume of twenty-six (26) million standard cubic feet. The proposed well will serve as a disposal well for treated acid gas at the Facility. The proposed well is located approximately 20 miles west of Jal, New Mexico.

Case No. 23294: Application of Salt Creek Midstream, LLC to Amend Order No. R-20913-D. Applicant requests that the New Mexico Oil Conservation Commission issue an order amending Order No. R-20913-D to extend the deadline for Salt Creek to commence injection into the Salt Creek Midstream AGI No. 1 Well (API: 30-25-46746) ("Well") until six months from the date of the amended order. The Well is a vertical Underground Injection Control Class II well with an approximate surface and bottom hole location at 594 feet from the West line and 2,370 feet from the South line of Section 21, Township 26 South, Range 36 East. The target injection zone for the Well is located in the Bell Canyon and Cherry Canyon formations at depths of approximately 5,410 feet to 7,000 feet. Applicant's current deadline to commence injection expires on approximately 7.0 miles southwest of Jal, New Mexico.

Given under the Seal of the New Mexico Oil Conservation Commission at Santa Fe, New Mexico
