Dear Mineral Owner:

Cimarex Energy Co. ("Cimarex") hereby proposes to drill the Alaska 29 Fee No.2 Well at legal location in the NW/4SE/4 of Section 29, Township 18 South, Range 26 East, N.M.P.M., Eddy County, New Mexico.

The intended surface hole location for the well is 2310' FSL & 1650' FEL. The well is proposed to be drilled vertically to a total depth of approximately 3,000' to test the Glorieta-Yeso formations.

It should be understood that compliance with topography or cultural or environmental concerns, among others, might require modification of Cimarex's intended procedure. Cimarex will advise you of any such modifications.

Enclosed, in duplicate, is (i) our detailed AFE which sets forth the estimated costs associated with the well, and; (ii) our proposed form of Operating Agreement to govern operations for the Alaska wells. If you intend to participate, please approve and return one (1) original of the enclosed AFE and one (1) original of the signature page to the Operating Agreement, along with your contact information to receive well data, to the undersigned within thirty (30) days of receipt of this proposal. If you should elect to purchase your own well control insurance, you must provide a certificate of such insurance to Cimarex prior to commencement of drilling operations; otherwise, you will be covered by insurance procured by Cimarex and will be responsible for your share of the cost.

In the event you do not wish to participate in drilling the Alaska wells, Cimarex will consider acquiring an Oil and Gas Lease on your mineral interest. Cimarex's offer is contingent upon final verification of your title and is based on the following general terms:
