Subject: SW STATE WATERFLOOD HEARING -- CASE NUMBER 14563
Attachments: PICTURE OF STIGNER STATE #1.JPG

As you requested in the hearing, we have located the Tigner State #1 @ 1680' FSL & 990 FWL (L) SEC 28 T17S R28E. The attached P&A marker implies that the well was at least spudded & plugged, but no other info is available on the well.
