BEFORE THE NEW MEXICO OIL CONSERVATION DIVISION

RECEIVED OCD

APPLICATION OF OGX RESOURCES LLC FOR A
NON-STANDARD OIL SPACING AND PRORATION
UNIT AND COMPULSORY POOLING, EDDY COUNTY,
NEW MEXICO.

2011 AUG -4 P 1:07

Case No. 14,661

MOTION TO RE-OPEN

OGX Resources LLC moves the Division for an order re-opening Case No. 14,661, and in support thereof, states:

1. In this case applicant sought an order (a) approving a non-standard oil spacing and proration unit in the Bone Spring formation comprised of Lots 1 and 2 of Section 31 and Lots 2-4 of Section 30, Township 26 South, Range 29 East, N.M.P.M., Eddy County, New Mexico, and (b) pooling all mineral interests in the Bone Spring formation underlying the non-standard unit.

2. Applicant proposes to drill its Copperhead 31 Fee A Well No. 1 to a depth sufficient to test the Bone Spring formation. Applicant seeks to dedicate Lots 1 and 2 of Section 31 and Lots 2-4 of Section 30 of the Bone Spring formation to form a non-standard 183.57 acre oil spacing and proration unit (project area) for all pools or formations developed on 40 acre spacing. The well is a horizontal well, with a surface location in Lot 2 of Section 31, and a terminus in Lot 2 of Section 30.

3. Order No. R-13,425, entered in this case, denied the relief sought by applicant due to lack of evidence on (a) why section lines need to be crossed, and (b) why Lot 1 of Section 30 was excluded from the proposed well unit.

4. Applicant requests permission to re-open the case so that it can present evidence showing that all of Sections 30 and 31 will be developed, and why applicant's development plan will minimize wellbores, save money, and prevent waste.

5. Chesapeake Exploration, LLC entered an appearance in this matter, but has since executed an operating agreement covering the subject acreage. However, there is still one person remaining who needs to be pooled.

WHEREFORE, applicant requests that the Division enter its order re-opening Case No. 14,661.

Respectfully submitted,

James Bruce
