Re: Targa Midstream Services LLC ("Targa"); OCD Order No. R-13052

Dear Mr. Scott:

This letter responds to your September 9, 2011, letter to me, wherein you request, on behalf of Targa, an extension of time for the injection authority granted under OCD Order No. R-13052 ("Order").

Your letter raises the possibility that the authority granted under the Order has expired. If this is the case, the hearing regarding the Order, currently scheduled before the Oil Conservation Commission on September 22, 2011, may be unnecessary.

It is important, then, that the issue of the extension that you request, and concerns that I have about that request, be resolved prior to the September 22, 2011 hearing. I am unavailable tomorrow, but can be available any time on Wednesday, September 21, 2011. I would prefer to meet with you during the morning hours.

Please call my office immediately to arrange for a conference on Wednesday, September 21, 2011, so that we may discuss your extension request.

Very truly yours,

Jami Bailey

Oil Conservation Division, Director
