Re: Applications of COG Operating, LLC for Non-Standard Spacing and Provided Provide

Dear Ms. Bailey:

Enclosed please find five Applications for compulsory pooling by COG Operating, LLC as well as copies of the legal advertisements. Applicants request that these matters be placed on the January 19, 2012 Examiner hearing docket.

Sincerely,

Michael H. Feldewert

MHF

STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL CONSERVATION DIVISION

IN THE MATTER OF THE APPLICATION
OF COG OPERATING, LLC FOR A NON-STANDARD
SPACING AND PRORATION UNIT AND COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.

CASE NO. 14793

APPLICATION

COG OPERATING, LLC, ("COG") through its undersigned attorneys, hereby makes application to the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17, for an order (1) creating a non-standard 160-acre spacing and proration unit comprised of the E/2 E/2 of Section 31, Township 18 South, Range 26 East, NMPM, Eddy County, New Mexico; and (2) pooling all mineral interests in the Glorieta-Yeso formation underlying this acreage to form a 160-acre project area in this formation. In support of its application, COG states:

- 1. COG is a working interest owner in the E/2 E/2 of Section 31 and has the right to drill thereon.
- 2. COG proposes to dedicate the above-referenced spacing and proration unit as the project area for its proposed Falabella "31" Fee Well No. 4H, to be horizontally drilled from a surface location150 feet from the South line and 1040 feet from the East line (Unit P) to a bottom hole location 330 feet from the North line and 1040 feet from the East line (Unit A) of Section 31.

, `≱7

- 4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.
- 5. In order to permit COG to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests in this non-standard spacing unit should be pooled and COG Operating, LLC should be designated the operator of this proposed horizontal well and spacing unit.

WHEREFORE, COG Operating, LLC requests that this application be set for hearing before an Examiner of the Oil Conservation Division on January 19, 2012, and, after notice and hearing as required by law, the Division enter its order:

- A. creating a non-standard spacing and proration unit in the Glorieta-Yeso formation comprised of the E/2 E/2 of Section 31, Township 18 South, Range 26 East, NMPM;
- B. pooling all mineral interests in the non-standard spacing and proration unit,
- C. designating COG Operating, LLC operator of this non-standard spacing unit and the horizontal well to be drilled thereon,
- D. authorizing COG Operating, LLC to recover its costs of drilling, equipping and completing the well,

F. imposing a 200% penalty for the risk assumed by COG Operating, LLC in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART, LLP

ATTORNEYS FOR COG OPERATING, LLC

CASE (4793.

Application of COG Operating, LLC for a non-standard spacing and proration unit and compulsory pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order (1) creating a non-standard 160-acre spacing and proration unit comprised of the E/2 E/2 of Section 31, Township 18 South, Range 26 East, NMPM, and (2) pooling all mineral interests in the Glorieta-Yeso formation underlying this acreage. standard unit is to be dedicated to applicant's proposed Falabella "31" Fee Well No. 4H, to be horizontally drilled from a surface location 150 feet from the South line and 1040 feet from the East line (Unit P) to a bottom hole location 330 feet from the North line and 1040 feet from the East line (Unit A) of Section 31. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of COG Operating, LLC as operator of the well and a 200% charge for risk involved in drilling said well. Said area is located approximately 17 miles North of Carlsbad, New Mexico.
