The first well only. That will save the expiring OGL.

Subject: Cases 14770 and 14771; Applications of Cimarex for Compulsory Pooling

Gentlemen

Examining these cases, I find that Case 14770 seeks to pool four separate units for four wells, and Case 14771 seeks to pool two separate units for two wells.

In regard to the parties' agreement to put a November 1, 2012 deadline for drilling in the order, is that to commence drilling the first well in each of the units? Or all of the wells? If the first, is there any agreement on a schedule for drilling the remaining wells?

Please advise.

Thanks

David
