

STATE OF NEW MEXICO  
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION

IN THE MATTER OF THE HEARING  
CALLED BY THE OIL CONSERVATION  
DIVISION FOR THE PURPOSE OF  
CONSIDERING:

CASE NO. 14846  
ORDER NO. R-13605

APPLICATION OF CIMAREX ENERGY COMPANY OF COLORADO FOR  
COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.

ORDER OF THE DIVISION

BY THE DIVISION:

This case came on for hearing at 8:15 a.m. on July 12, 2012 at Santa Fe, New Mexico, before Examiner Richard I. Ezeanyim.

NOW, on this 31<sup>st</sup> day of July, 2012, the Division Director, having considered the testimony, the record, and the recommendations of the Examiner,

FINDS THAT:

(1) Due public notice has been given, and the Division has jurisdiction of this case and of the subject matter.

(2) The applicant, Cimarex Energy Company of Colorado (Applicant" or "Cimarex"), seeks an order pooling all uncommitted interests from the surface to the base of the Glorieta-Yeso formation, underlying the NE/4 SE/4 (Unit I) of Section 1, Township 19 South, Range 25 East, NMPM, Eddy County, New Mexico, to form a standard 40-acre oil spacing and proration unit for all formations and/or pools developed on 40-acre spacing within that vertical extent.

(3) The above-described unit (the "Unit") is to be dedicated to applicant's Nebraska 1 Well No. 1 (**API No. 30-015-40223**) which is to be drilled at an orthodox well location 2310 feet from the South line and 990 feet from the East line of Section 1, to test the Glorieta-Yeso formation.

(4) Two or more separately owned tracts are embraced within the Unit, and/or there are royalty interests and/or undivided interests in oil and gas minerals in one or more tracts included in the Unit that are separately owned.

(5) Applicant is an owner of an oil and gas working interest within the Unit. Applicant has the right to drill and proposes to drill the Nebraska 1 Well No. 1 at an orthodox well location.

(6) There are interest owners in the proposed Unit who have not agreed to pool their interests, and there are also some un-locatable owners.

(7) To avoid the drilling of unnecessary wells, protect correlative rights, prevent waste, and afford to the owner of each interest in the Unit the opportunity to recover or receive without unnecessary expense its just and fair share of hydrocarbons, this application should be approved by pooling all uncommitted interests, whatever they may be, in the oil and gas within the Unit.

(8) Applicant should be designated the operator of the subject well and of the Unit.

(9) Any pooled working interest owner who does not pay its share of estimated well costs should have withheld from production its share of reasonable well costs plus an additional 200% thereof as a reasonable charge for the risk involved in drilling the well.

(10) Reasonable charges for supervision (combined fixed rates) should be fixed at \$4,500.00 while drilling and \$450.00 per month while producing, provided that these rates should be adjusted annually pursuant to Section III.1.A.3. of the COPAS form titled "*Accounting Procedure-Joint Operations*."

**IT IS THEREFORE ORDERED THAT:**

(1) Pursuant to the application of Cimarex Energy Company of Colorado ("Applicant" or "Cimarex"), all uncommitted interests from the surface to the base of the Glorieta-Yeso formation, underlying the NE/4 SE/4 (Unit I) of Section 1, Township 19 South, Range 25 East, NMPM, Eddy County, New Mexico, are hereby pooled to form a standard 40-acre oil spacing and proration unit for all formations and/or pools developed on 40-acre spacing within that vertical extent.

(2) The above-described unit (the "Unit") shall be dedicated to applicant's Nebraska 1 Well No. 1 (API No. 30-015-40223) which is to be drilled at an orthodox well location 2310 feet from the South line and 990 feet from the East line of Section 1, to test the Glorieta-Yeso formation.

(3) Cimarex Energy Company of Colorado is hereby designated the operator of the subject well and of the Unit.

(4) The operator of the Unit shall commence drilling the proposed well on or before July 30, 2013 and shall thereafter continue drilling the well with due diligence to test the Glorieta-Yeso formation.

(5) In the event the operator does not commence drilling the proposed well on or before July 30, 2013, Ordering Paragraph (1) shall be of no effect, unless the operator obtains a time extension from the Division Director for good cause.

(6) Should the subject well not be drilled and completed within 120 days after commencement thereof, Ordering Paragraph (1) shall be of no further effect, and the Unit created by this Order shall terminate unless the operator appears before the Division Director and obtains an extension of time to complete the well for good cause demonstrated by satisfactory evidence.

(7) Upon final plugging and abandonment of the subject well, and all other wells drilled on the Unit pursuant to Division Rule 19.15.13.9 NMAC, the pooled Unit created by this Order shall terminate, unless this order has been amended to authorize further operations.

(8) After pooling, uncommitted working interest owners are referred to as pooled working interest owners. ("Pooled working interest owners" are owners of working interests in the Unit, including unleased mineral interests, who are not parties to an operating agreement governing the Unit.) After the effective date of this order, the operator shall furnish the Division and each known pooled working interest owner in the Unit an itemized schedule of estimated costs of drilling, completing and equipping the subject well ("well costs").

(9) Within 30 days from the date the schedule of estimated well costs is furnished, any pooled working interest owner shall have the right to pay its share of estimated well costs to the operator in lieu of paying its share of reasonable well costs out of production as hereinafter provided, and any such owner who pays its share of estimated well costs as provided above shall remain liable for operating costs but shall not be liable for risk charges. Pooled working interest owners who elect not to pay their share of estimated well costs as provided in this paragraph shall thereafter be referred to as "non-consenting working interest owners."

(10) The operator shall furnish the Division and each known pooled working interest owner (including non-consenting working interest owners) an itemized schedule of actual well costs within 90 days following completion of the proposed well. If no objection to the actual well costs is received by the Division, and the Division has not objected within 45 days following receipt of the schedule, the actual well costs shall be deemed to be the reasonable well costs. If there is an objection to actual well costs within the 45-day period, the Division will determine reasonable well costs after public notice and hearing.

(11) Within 60 days following determination of reasonable well costs, any pooled working interest owner who has paid its share of estimated costs in advance as provided above shall pay to the operator its share of the amount that reasonable well costs exceed estimated well costs and shall receive from the operator the amount, if any, that the estimated well costs it has paid exceed its share of reasonable well costs.

(12) The operator is hereby authorized to withhold the following costs and charges from production:

- (a) the proportionate share of reasonable well costs attributable to each non-consenting working interest owner; and
- (b) as a charge for the risk involved in re-entering the well, 200% of the above costs.

(13) The operator shall distribute the costs and charges withheld from production, proportionately, to the parties who advanced the well costs.

(14) Reasonable charges for supervision (combined fixed rates) are hereby fixed at \$4,500.00 while drilling and \$450.00 per month while producing, provided that these rates shall be adjusted annually pursuant to Section III.1.A.3. of the COPAS form titled "*Accounting Procedure-Joint Operations*." The operator is authorized to withhold from production the proportionate share of both the supervision charges and the actual expenditures required for operating the well, not in excess of what are reasonable, attributable to pooled working interest owners.

(15) Except as provided in Ordering Paragraphs (12) and (14) above, all proceeds from production from the well that are not disbursed for any reason shall be placed in escrow in Eddy County, New Mexico, to be paid to the true owner thereof upon demand and proof of ownership. The operator shall notify the Division Records Clerk in Santa Fe of the name and address of the escrow agent within one (1) year from the date of issuance of this order.

(16) Any unleased mineral interest shall be considered a seven-eighths (7/8) working interest and a one-eighth (1/8) royalty interest for the purpose of allocating costs and charges under this order. Any well costs or charges that are to be paid out of production shall be withheld only from the working interests' share of production, and no costs or charges shall be withheld from production attributable to royalty interests.

(17) Should all the parties to this compulsory pooling order reach voluntary agreement subsequent to entry of this order, this order shall thereafter be of no further effect.

(18) The operator of the well and the Unit shall notify the Division in writing of the subsequent voluntary agreement of all parties subject to the forced pooling provisions of this order.

(19) Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

17. **CASE 14820:** (Continued from the May 24, 2012 Examiner Hearing.)  
**Application of Lime Rock Resources II-A, L.P. for approval of compulsory pooling well, Eddy County, New Mexico.** Applicant seeks an order pooling all mineral interests from the surface of the earth to an approximate depth of 4,600 feet sufficient to test the Yeso formation with its Kaiser 7 K well No. 3 underlying the NE/4 SW/4 of Section 7, Township 18 South, Range 27 East, N.M.P.M., Eddy County, New Mexico. The subject well will be located approximately 7 miles southwest of Loco Hills, New Mexico.
18. **CASE 14821:** (Continued from the May 24, 2012 Examiner Hearing.)  
**Application of Lime Rock Resources II-A, L.P. for approval of compulsory well, Eddy County, New Mexico.** Applicant seeks an order pooling all mineral interests from the surface of the earth to an approximate depth of 4,600 feet sufficient to test the Yeso formation with its Kaiser 7 K Well No. 4 underlying the NE/4 SW/4 of Section 7, Township 18 South, Range 27 East, N.M.P.M., Eddy County, New Mexico. The subject well will be located approximately 7 miles southwest of Loco Hills, New Mexico.
19. **CASE 14822:** (Continued from the May 24, 2012 Examiner Hearing.)  
**Application of Lime Rock Resources II-A, L.P. for approval of a compulsory pooling well, Eddy County, New Mexico.** Applicant seeks an order pooling all mineral interests from the surface of the earth to an approximate depth of 4,600 feet sufficient to test the Yeso formation with its Kaiser 7 N Well No. 5, underlying the SE/4 SW/4 of Section 7, Township 18 South, Range 27 East, N.M.P.M., Eddy County, New Mexico. The subject well will be located approximately 7 miles southwest of Loco Hills, New Mexico.
20. **CASE 14823:** (Continued from the May 24, 2012 Examiner Hearing.)  
**Application of Lime Rock Resources II-A, L.P. for approval of a compulsory pooling well, Eddy County, New Mexico.** Applicant seeks an order pooling all mineral interests from the surface of the earth to an approximate depth of 4,600 feet sufficient to test the Yeso formation with its Kaiser 7 N Well No. 6, underlying the SE/4 SW/4 of Section 7, Township 18 South, Range 27 East, N.M.P.M., Eddy County, New Mexico. The subject well will be located approximately 7 miles southwest of Loco Hills, New Mexico.
21. **CASE 14824:** (Continued from the May 24, 2012 Examiner Hearing.)  
**Application of LRE Operating, LLC for approval of a compulsory pooling well, Eddy County, New Mexico.** Applicant seeks an order pooling all mineral interests from the surface of the earth to an approximate depth of 5,000 feet sufficient to test the Yeso formation with its Southern Union 30 State #1 Well, underlying the SW/4 of NE/4 of Section 30, Township 17 South, Range 28 East, N.M.P.M., Eddy County, New Mexico. The subject well will be located approximately 6 miles southwest of Loco Hills, New Mexico.
22. **CASE 14846:** (Continued from the June 25, 2012 Examiner Hearing.)  
**Application of Cimarex Energy Co. of Colorado for compulsory pooling, Eddy County, New Mexico.** Applicant seeks an order pooling all mineral interests from the surface to the base of the Glorieta-Yeso formation underlying the NE/4SE/4 of Section 1, Township 19 South, Range 25 East, NMPM, to form a standard oil spacing and proration unit for any and all formations or pools developed on 40-acre spacing within that vertical extent. The unit will be dedicated to the Nebraska 1 Fee Well No. 1, to be drilled at an orthodox location. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The unit is located approximately 6 miles south-southwest of Atoka, New Mexico.
23. **CASE 14847:** (Continued from the June 25, 2012 Examiner Hearing.)  
**Application of Cimarex Energy Co. of Colorado for compulsory pooling, Eddy County, New Mexico.** Applicant seeks an order pooling all mineral interests from the surface to the base of the Glorieta-Yeso formation underlying the SE/4SE/4 of Section 1, Township 19 South, Range 25 East, NMPM, to form a standard oil spacing and proration unit for any and all formations or pools developed on 40-acre spacing within that vertical extent. The unit will be dedicated to the Nebraska 1 Fee Well No. 3, to be drilled at an orthodox location. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The unit is located approximately 6 miles south-southwest of Atoka, New Mexico.
