RE: Case No. 14862
Application of ConocoPhillips Company and Burlington Resources Oil & Gas Company
For Pre-Approval of Downhole Commingling of production on a pool-wide basis for the
Basin-Mancos Gas Pool, San Juan, Rio Arriba and Sandoval Counties, New Mexico

Ladies and Gentlemen:

WPX Energy was noticed with Case No. 14862, requesting pool-wide pre-approval downhole commingling with production from the Dakota Mancos, and Mesaverde formations. We believe this request should be approved as it provides the most economic means of extracting Mancos production from existing vertical wellbores.

The Division previously approved a similar action for our operations in the Rosa Unit, reference is made to Case No. 14289 and Order No. R-13122.

Additionally, we believe approval will prevent waste and protect correlative rights.

WPX fully supports ConocoPhillips's application Case No. 14862. Please feel free to contact me with questions.

Sincerely yours,

A handwritten signature in black ink that reads "Ken McQueen".

Ken McQueen, Director
San Juan Basin
