Subject: Pit Rule

I have been on the side of bucking Governors, both Republican and Democrat, it is important to remember who we serve not at whose pleasure we serve. The Pit Rules were developed by a broad group of people with input from everyone; environmentalist, ranchers, Industry and ordinary citizens. No one group got everything they wanted but the Rules were a good solution and model for many other states.

I hope you will look at all the information and make your decision on the Pit Rules to the benefit of all the resource users both for today and the future. Thank you.
