Case No.14784: APPLICATION OF THE NEW MEXICO OIL AND GAS ASSOCIATION FOR AMENDMENT OF CERTAIN PROVISIONS OF TITLE 19, CHAPTER 15 OF THE NEW MEXICO ADMINISTRATIVE CODE CONCERNING PITS, CLOSED-LOOP SYSTEMS, BELOW GRADE TANKS, SUMPS AND OTHER ALTERNATIVE METHODS RELATED TO THE FOREGOING AND AMENDING OTHER RULES TO CONFORMING CHANGES, STATEWIDE. The New Mexico Oil and Gas Association requests an order amending Commission Rules concerning pits, closed-loop systems, below grade tanks, sumps and other alternative methods related to the foregoing proposed amendments, codified as Part 17 of the Rules of the Oil Conservation Division [19.15.17 NMAC]. The proposed amendments are to (i) revise the permitting and registration requirements for permanent pits, temporary pits and below grade tanks; (ii) eliminate the permitting, design, construction and operational requirements for closed-loop systems while requiring that drying pads be designed and constructed to prevent contamination of water; for sumps used to collect liquids from cuttings; and for berms constructed to prevent run-on; (iii) revise the siting, design, construction, operation, closure and site reclamation provisions for temporary pits, permanent pits, drying pads, below grade tanks and tanks associated with closed-loop systems, (iv) authorize standardized plans for pit construction, closure and other matters; (v) adopt a definition for "low chloride" drilling fluids and the establishment of siting, closure and remediation requirements for temporary pits based on the chloride concentration in the waste and the distance between the waste and ground water or a flowing water course; (vi) authorize and adopt requirements for the permitting, siting, design, construction,

operation and closure for "multi-well fluid management pits"; (vii) revise the rules governing the testing and removal of below grade tanks; (viii) revise the rules governing onsite disposal in pits and trenches; (ix) revise the rules governing releases, waste testing and excavation and the concentration of wastes disposed in temporary pits or burial trenches; (x) revise the requirements for remediation and site reclamation including contouring and re-vegetation; (xi) revise the rules governing variances and exceptions to these rules to provide for their approval by the appropriate division district office pursuant to procedures set out in the proposed amendments; (xii) revise and adopt rules and procedures set out in the proposed amendments; (xiii) revise and adopt rules and procedures governing the Oil Conservation Division's notice, processing and approval of applications filed pursuant to these rules, (xiv) revise the rules governing transfer of a permit; and (xv) otherwise change the Commission's requirements concerning permitting, design, construction, operation and closure of pits and below grade tanks, operation of sumps and other alternative methods that may be proposed for use in lieu of pits or below grade tanks used in oil and gas operations.

Copies of the text of the proposed amendments are available from the Oil Conservation Division's Administrator, Florene Davidson at (505) 476-3458 or from the Division's website at <http://www.emnrd.state.nm.us/ocd/Rules.htm>.
