RE: Lance Oil & Gas Company, Inc.
Fruitland Coal/Pictured Cliffs Well Proposal
Township 29 North, Range 14 West, NMPM
Section 15: NW/4 Pictured Cliffs
Section 15: W/2 Fruitland Coal
San Juan County, New Mexico

Dear To Whom It May Concern:

Lance Oil & Gas Company, Inc. is proposing to drill wells in the referenced area within the year. Title examination indicates that you are a mineral interest owner in this area of development. Lance previously submitted a lease to you, which included a 1/8 royalty and bonus signing incentive. At this time we would like to inform you of your choices in regard to the proposed wells in this area:

1. ☐ Enter into an oil and gas lease that provides for a five year primary term with bonus consideration of \$***** and a 12.5% (1/8th) royalty in the event of production. Enclosed for your convenience are two copies of this lease. If you choose to participate as a royalty owner please execute the lease in the presence of a notary public and return it to the above address. A check for the bonus consideration will be sent within 10 working days.
2. ☐ Participate as a "working interest" owner. An Authority for Expenditure ("AFE") is enclosed itemizing the estimated cost of drilling and completing the wells involving your mineral interest. Your proportionate share of the well with the estimated drilling and completion cost are indicated at the bottom of the AFE. In the event you wish to participate as a working interest owner, please sign the AFE and return to the above address with your check for the amount indicated as your share of the estimated cost. Upon receipt of the executed AFE a Joint Operating Agreement (AAPL Form 610) will be sent for your review and execution. The Operating Agreement will outline your working interest responsibilities, including drilling rates, operating rates, maintenance provisions and plugging liabilities when the well is abandoned.
3. ☐ Sell your mineral interest to Lance Oil & Gas Company, Inc. for \$****.
4. Pooling statutes for the State of New Mexico provide authorization for the State to "compulsory pool" your interest in the proposed wells. These statutes provide for the following ... "any unleased mineral interest shall be considered a seven-eighths (7/8th) working interest and a one-eighths 1/8th) royalty interest for the purpose of allocating costs and charges under this order. Any well costs or charges that are to be paid out production shall be withheld only from the working interests' share of production.. ... "any non-consenting working interest owner who does not pay its share of estimated well costs should have withheld from production its share of reasonable well costs, plus an additional 200% thereof as a reasonable charge for the risk involved in drilling the well." In addition you would be responsible for your proportionate share of plugging liabilities when the well is abandoned and any maintenance necessary to maintain production from the well.

Please indicate your choice of participation by checking in the appropriate box and returning one copy of this letter in the enclosed return envelope. ***If you elect to lease or to sell your mineral interest, please complete the enclosed W-9 Request for Taxpayer Identification Number and Certification and return, a check cannot be issued without a tax ID number.*** If we have not received your response within 30 days from date of this letter, Lance will initiate a Compulsory Pooling hearing. At that time additional documents will be sent to you regarding this action.

Should you have any questions concerning any of these options please contact the undersigned at 505-598-5601 ex 62.

Sincerely,

Anne Jones

Case No. 113440 Exhibit No. **5-F**
Submitted By:
Lance Oil & Gas Company
Hearing Date: March 3, 2005

() Pursuant to Division Rule 104, an optional infill well may be drilled and produced within this 320-acre spacing unit or subsequent operations conducted for either the original well or the infill well in accordance with the following provisions:

- (a) Lance Oil & Gas Company, Inc., or its successor, shall continue to be the operator of the parent well and the infill well;
- (b) The operator or any working interest owner who consents to and has paid its share of costs of the original well, pursuant to either an voluntary agreement or a compulsory pooling order, may propose drilling of an infill well or subsequent operations of either the original well or the infill well by giving written notice of the proposed well to all working interest owners and all unleased mineral owners with the 320-acre pooled unit. Any such proposal shall specify the work to be performed, the location, proposed depth, objective formations and the estimated costs of the operation.
- (c) The parties receiving such a notice shall have thirty (30) day election period after receipt of this notice within which to notify the proposing party whether they elect to participate in the costs of the subsequent operations or the infill well. Failure of a party receiving such notice to deliver to the proposing party a written election, plus payment for this share of the total costs, within a thirty (30) day election period shall constitute an election by that party not to participate in the costs of the well or the proposal operation and shall be "a non-consenting party."
- (d) Any non-consenting party shall be subject to a 200% risk penalty charge for that well or the operations.
- (e) Production from the original well cannot be used to pay for the costs of the infill well or can production from the infill well be used to pay for the costs of the original well. The recovery of costs for subsequent operations shall be paid by the production from the well on which those operations were conducted.
- (f) If all parties elect to participate in the infill well or in subsequent operations ("a consenting party"), the operator shall, within ninety (90) days after the expiration of the thirty (30) day election period, actually commence and conduct operations with due diligence at the risk of expense of all parties.
- (g) If less that all parties elect to participate in the infill well or the subsequent operations, then all parties who elected not to participate shall be considered non-consenting working interest owners and all the provisions of this order shall apply to the drilling of the infill well or the subsequent operations with the FOLLOWING EXCEPTIONS:
 - a. The proposing party shall be solely responsible for carrying the no-consenting working interest owner's interest subject to the risk penalty charge provided for in the order. The proposing party may enter into an agreement, or

recognize an existing agreement, that provides for the sharing of the non-consenting interest by the consenting parties. The proposing party, at its election, may withdraw such proposal if there is insufficient participation and shall notify the Division and all other parties of such decision.

- b. If the operator is a non-consenting working interest owner in the infill well, the consenting parties shall either: (a) request the operator to perform the work required for the account of the consenting parties, or (b) designate one of the consenting parties as operator of the infill well. If the infill well results in a producer of oil and/or gas in paying quantities, one of the consenting parties shall be designated as operator and shall complete and equip the well to produce at the sole costs and risk of the consenting parties and thereafter the operator designated by this compulsory pooling order shall operate this well at the expense and for the account of the consenting working interest owners.
- c. To be entitled to the benefits of this order, the operator, or the designated consenting party, shall within ninety (90) days after the expiration of the thirty (30) day election period, actually commence and conduct the operations with due diligence at the sole risk and expense of the consenting parties.
- d. If operations for the drilling of an infill well results in a dry hole, the consenting parties shall plug and abandon the well and restore the surface location at their sole costs, risk and expense.

() If operations for the drilling of a proposed infill well or any subsequent operation for either the original well or the infill well have not been commenced within the time provided, and if any party still desires to drill the infill well, written notice proposing same must be resubmitted in accordance with the provision hereof as if no prior proposal had been made

TO: NOTICE OF THE HEARING OF THE FOLLOWING NEW
MEXICO OIL CONSERVATION DIVISION CASE:

Re: Application of Lance Oil & Gas Company, Inc.
For Compulsory Pooling, San Juan County, New Mexico

On behalf of Lance Oil & Gas Company, Inc., please find enclosed our application for compulsory pooling order for the NW/4 and the W/2 of Section 15, 29N, R14W to be dedicated to its WF Ropco "15" Well No. 2. This application will be set for hearing on the New Mexico Oil Conservation Division Examiner's docket now scheduled for March 3, 2005. The hearing will be held at the Division hearing room located at 1220 South Saint Francis Drive, Santa Fe, New Mexico, 87505.

As an interest owner who may be affected by this application, we are notifying you of your right to appear at the hearing and participate in this case, including the right to present evidence either in support of or in opposition to the application. Failure to appear at the hearing may preclude you from any involvement in this case at a later date.

Pursuant to the Division's Rule 1208, you are further notified that if you desire to appear in this case or to oppose the proposed risk charge (See Order R-11992), then you are required to file a Pre-Hearing Statement with the Division not later than 4:00 PM on Friday, February 25, 2005, with a copy delivered to the undersigned.

Very truly yours,

W. Thomas Kellahin
