**APPLICATION OF EDGE PETROLEUM
EXPLORATION COMPANY FOR COMPULSORY
POOLING, EDDY COUNTY, NEW MEXICO.**

Case No. 13525

APPLICATION

Edge Petroleum Exploration Company applies for an order pooling all mineral interests from the base of the Bone Spring formation to the base Morrow formation underlying the N½ of Section 29, Township 20 South, Range 30 East, N.M.P.M., Eddy County, New Mexico, and in support thereof, states:

1. Applicant is a working interest owner in the N½ of Section 29, and has the right to drill a well thereon.
2. Applicant proposes to drill its Golden Lane 29 State Well No. 1, from a surface location 2520 feet from the north line and 1130 feet from the west line of Section 28, Township 20 South, Range 30 East, N.M.P.M., to an orthodox bottomhole location 710 feet from the north line and 1700 feet from the east line of Section 29, to a depth sufficient to test the Morrow formation, and seeks to dedicate the N½ of Section 29 to the well to form a standard 320 acre gas spacing and proration unit for any formations and/or pools developed on 320 acre spacing within that vertical extent, including the Undesignated Golden Lane-Strawn Gas Pool and Undesignated Dos Hermanos-Morrow Gas Pool.
3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the N½ of Section 29 for the purposes set forth herein.
4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to

the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral interest owners in the N½ of Section 29, pursuant to NMSA 1978 §70-2-17.

5. The pooling of all mineral interests underlying the N½ of Section 29 will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

WHEREFORE, applicant requests that, after notice and hearing, the Division enter its order:

- A. Pooling all mineral interests in the N½ of Section 29, from the base of the Bone Spring formation to the base of the Morrow formation;
- B. Designating Edge Petroleum Operating Company as operator of the well;
- C. Considering the cost of drilling and completing the well, and allocating the cost among the well's working interest owners;
- D. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- E. Setting a 200% charge for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

James Bruce
