> Re: Plan of Development - January 1, 1966 to January 1, 1967 - Poker Lake Unit Area No. 14-08-001-303 -Eddy County, New Mexico

Gentlemen:

In compliance with Section 10 of the Poker Lake Unit Agreement, dated July 16, 1952, Perry R. Bass, as Unit Operator, hereby submits for your approval Plan of Development covering the period from January 1, 1966 to January 1, 1967.

History of Past Development

A review of the past development on the Poker Lake Unit reflects that we have drilled, or caused to be drilled, 32 shallow wells and three deep wells. We are attaching hereto a map, marked Exhibit "A", which reflects all of the wells drilled within this Unit Area since the Unit was approved. Three of these wells, as we have pointed out previously, are extremely deep wells, all of which were drilled below 13,500 feet. In addition to the three deep wells, the 32 shallow wells have been drilled to various depths in search of Delaware or Lower Delaware production.

Since the last Plan of Development, we have drilled, or caused to be drilled, three shallow wells, the first of which was the Fred Pool No. 1 Herzog, drilled in Section 17, Township 25 South, Range 30 East. This well was spudded March 9, 1964 and drilled to a total depth of 3,781 feet and abandoned as a dry hole September 1, 1964. The next well which was drilled was the Pauley Petroleum Company No. 1 Jennings, located in Section 20, Township 24 South, Range 31 East. This well was spudded April 27, 1965 and completed May 5, 1965. The well was drilled to a total depth of 4,502 feet and was plugged and abandoned. An additional shallow well was drilled by the Choctaw Production Company, No. 1 Sugart - Federal, located in Section 12, Township 25 South, Range 30 East. This well was spudded United States Geological Survey Commissioner of Public Lands New Mexico Oil Conservation Commission March 9, 1966 Page 2

September 16, 1965 and drilled to a total depth of 4,201 feet. The well was completed September 27, 1965 and plugged and abandoned as a dry hole.

Development

For the past six months, the Unit Operator, in association with Pan American Petroleum Corporation, has been conducting an extensive seismograph program, reshooting the entire Unit Area, using the new computer technique in an effort to get more accurate results from the data received. This program is continuing, looking toward the early selection of a drill site for the drilling of a deep Devonian test.

Perry R. Bass, as Unit Operator, plans to drill, or cause to be drilled, at least two additional shallow wells and possibly one deep Devonian test in the period from January 1, 1966 to January 1, 1967.

Effective Date

This Plan of Development shall be effective January 1, 1966 and expire January 1, 1967.

Very truly yours,

PERRY R. BASS

0.3

Gentlemen:

In compliance with Section 10 of the Poker Lake Unit Agreement, dated July 16, 1952, Perry R. Bass, as Unit Operator, hereby submits for your approval Plan of Development covering the period from January 1, 1967, to January 1, 1968.

History of Past Development

A review of the past development on the Poker Lake Unit reflects that we have drilled, or caused to be drilled, 32 shallow wells and three deep wells. We are attaching hereto a map, marked Exhibit "A", which reflects all of the wells drilled within this Unit Area since the Unit was approved. Three of these wells, as we have pointed out previously, are extremely deep wells, all of which were drilled below 13,500 feet. In addition to the three deep wells, the 32 shallow wells have been drilled to various depths in search of Delaware of Lower Delaware production.

Development

The Unit Operator in association with Pan American Petroleum Corporation has conducted an extensive seismograph program which included shooting the entire Unit Area. Based on information derived from this effort, Pan American is currently engaged in active wildcatting with Poker Lake Unit Well No. 36 being drilled in Section 28 of T-24-S, R-31-E. The well is currently drilling below 14,000 feet with a projected total depth of 16,200 feet. Based on testing in this well, it is hoped additional development wells can be justified.

Effective Date

This Plan of Development shall be effective January 1, 1967, and expire January 1, 1968.

Yours very truly,

PERRY R. BASS Howard W. Jennings
