

PRELIMINARY DOCKET: COMMISSION MEETING – THURSDAY – FEBRUARY 14, 2013

9:00 A.M. – Porter Hall
1220 South St. Francis
Santa Fe, New Mexico

Land Commissioner, Ray Powell, may designate Terry Warnell for this meeting.

Notice: The minutes of the January 9-11, 2013 and January 17 and 18, 2013 Commission Meetings will be adopted.

Notice: During this meeting, the Commission may conduct a closed executive session during which it will deliberate in connection with an administrative adjudicatory proceeding pending before the Commission or consult with Commission counsel under the attorney-client privilege concerning threatened or pending litigation in which the Commission is or may become a participant.

Final action may be taken in the following:

CASE 13589: Application of DCP Midstream, LP to Re-Open Case No. 13589 to Amend Order No. R-12546 for the Limited Purpose of Authorizing a Second Acid Gas Injection Well, Lea County, New Mexico.

CASE 14664: Frontier Field Services, LLC's Motion to Amend Order No. R-13443. Frontier Field Services, LLC has filed a motion requesting the Oil Conservation Commission to amend Order No. R-13443, which authorizes Frontier to dispose of treated acid gas (TAG) from Frontier's Maljamar Gas Plant by injecting the TAG stream into its Maljamar AGI #1 well. The motion requests the Commission to eliminate the requirements in Order No. R-13443 that: (1) Frontier ensure that eight wells listed in the order that are located within a 1.5 mile radius of the Maljamar AGI #1 well, as well as any later-completed wells within that radius that penetrate the permitted injection interval, are equipped with H₂S warning flags or other safety indicators until such time as the flagged well is permanently plugged back above the equivalent disposal interval; and (2) if the H₂S level on any well reaches 100 ppm, then the subject well shall be shut-in until Frontier has plugged the well. The motion further requests the Commission to lower the uppermost elevation of the permitted injection interval from 9,300 feet to approximately 9,550 feet. The Maljamar AGI #1 well is located in Section 21, Township 17 South, Range 32 East, NMPM; in Lea County, approximately 2.9 miles south of Maljamar, New Mexico.
