STATEMENT OF THE CASE

COG seeks an order (1) creating a non-standard 159.67-acre spacing and proration unit comprised of the E/2 W/2 of Section 6, Township 19 South, Range 26 East, NMPM, Eddy County, New Mexico; and (2) pooling all mineral interests in the Yeso formation underlying this acreage. The completed interval for this well will be within the 330-foot standard offset required by the Division's rules. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights. COG should be designated the operator of this proposed horizontal well and spacing unit.
