BEFORE THE NEW MEXICO OIL CONSERVATION DIVISION

RECEIVED OOD

APPLICATION OF MEWBOURNE OIL COMPANY,  
FOR A NON-STANDARD OIL SPACING AND  
PRORATION UNIT, AN UNORTHODOX OIL WELL  
LOCATION, AND COMPULSORY POOLING, EDDY  
COUNTY, NEW MEXICO.

2013 AUG -8 A 8: 22

Case No. 15037

APPLICATION

Mewbourne Oil Company applies for an order (i) approving a non-standard oil spacing and proration unit in the Bone Spring formation comprised of the E½E½ of Section 35, Township 23 South, Range 28 East, N.M.P.M., Eddy County, New Mexico, (ii) pooling all mineral interests in the Bone Spring formation underlying the non-standard unit, and (iii) approving an unorthodox oil well location in the Bone Spring formation, and in support thereof, states:

1. Applicant is an interest owner in the E½E½ of Section 35, and has the right to drill a well thereon.
2. Applicant proposes to drill its Layla 35 PA Well No. 1 to a depth sufficient to test the Bone Spring formation (South Culebra Bluff-Bone Spring Pool). Applicant seeks to dedicate the E½E½ of Section 35 to the well to form a non-standard 160 acre oil spacing and proration unit (project area), for all pools or formations developed on 40 or 80 acre spacing. The well is a horizontal well, with a surface location 150 feet from the south line and 330 feet from the east line, and a terminus 330 feet from the north line and 660 feet from the east line, of Section 35. The location is unorthodox under the rules governing the South Culebra Bluff-Bone Spring Pool.
3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the E½E½ of Section 35 for the purposes set forth herein.

4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral interest owners in the E½E½ of Section 35, pursuant to NMSA 1978 §§70-2-17, 18.

5. Approval of the non-standard unit and the unorthodox well location, and the pooling of all mineral interests underlying the E½E½ of Section 35, will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

**WHEREFORE**, applicant requests that, after notice and hearing, the Division enter its order:

- A. Approving a non-standard oil spacing and proration unit (project area) in the Bone Spring formation comprised of the E½E½ of Section 35;
- B. Approving an unorthodox well location in the Bone Spring formation;
- C. Pooling all mineral interests in the Bone Spring formation underlying the E½E½ of Section 35;
- D. Designating applicant as operator of the well;
- E. Considering the cost of drilling and completing the well, and allocating the cost among the well's working interest owners;
- F. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- G. Setting a 200% charge for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "James Bruce", written over a horizontal line.
